Juba Dhexe	-	Jamaame	250
Galgaduud	-	Balcad	170

Correlation of movements

Between 1st Nov and 18th Jan 2013, displacements were mainly recorded in South Central with approximately 13,000 out of a total 15,000 displacements recorded in all three zones. 4,000 displaced people reported cross border movement, as the major cause of displacement in South Central followed by IDP temporary return (3,400), insecurity (2,900), lack of livelihood (1,400), forced return (550). The movements originated mainly from Juba Hoose (2,300), Bay (1,700), Juba Dhexe (1,400) and Banadir (1,300) regions. The top three regions people moved to were, Juba Hoose (6,800), Gedo (2,800), Bay (1,200) among other regions.

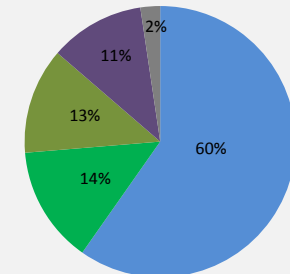

Top 5 Reasons for movement

Reason	People
Cross border movement	4,000
IDP temporary return	3,400
Insecurity	2,900
Lack of livelihood	1,400
Forced Return	550

Priority Needs

- Food
- Shelter
- Transport
- Livelihood support
- Agricultural/pastoralist support

01-Nov-12 By Week 18-Jan-13
This data has been collected through the Population Movement Tracking (PMT) system. PMT is designed to capture population movement trends, not cumulative population data. Due to the fluid nature of displacement in Somalia and in order to avoid capturing multiple displacements, UNHCR limits the reporting range to a period of three months - these figures should therefore not be added and used cumulatively.

* Please note figures have been rounded using a three tier method as follows. Figures below 100 were not rounded at all. Figures between 100 and 1,000 were rounded off to the nearest tenth, figures between 1,000 and 10,000 were rounded off to the nearest hundredth and all figures above 10,000 were rounded off to a thousandth. This rounding rule was applied to the final result after all computations were undertaken.

The boundaries and names used on this map do not imply official endorsement or acceptance by the United Nations.
