## MAIN ACTIVITIES

### Protection

- Mali situation: The number of newly arrived Malian refugees continued to rise in November. On 30<sup>th</sup> of October the number of registered Malian refugees was 53, 927. On 30<sup>th</sup> of November, this number had risen to 54,409 – an increase of 482, while over 2,000 persons are still awaiting formal registration.
- Mali and Nigeria situations: In November, a tri-partite agreement between UNHCR, IRC (International Rescue Committee) and ANAJJ (Agence Nationale d'Assistance Juridique et Judiciaire) was signed. ANAJJ is a public institution under the Ministry of Justice, responsible for the provision of judicial assistance to vulnerable persons. UNHCR will finance both ANAJJ and the IRC to provide legal support and representation to displaced persons in custody. The programme also includes a capacity development/training element for staff and lawyers. UNHCR will formally refer cases to the partners and will carry out monitoring and evaluation.

### Energy

- Mali situation Nigeria situation: Solar panels have been installed in 5 public health centres in the Diffa region (Goudoumaria, N'Galewa, N'Guigmi, Sayam Forage camp and Sayam Forage town). All personnel have now been trained on the use of the solar panels, and provided with maintenance kits.

### Livelihood

- Mali situation: 93% of the refugees in the camp of Mangaize have signed up for the pilot "Contract Approach", whereby in addition to cash for NFIs, they will receive additional livelihood support in the form of cash for a period of 18 months to enable them to become self-sufficient, and thereafter will forefeet their right to cash assistance.

### Shelter

- Nigeria Situation: UNHCR with implementing partner COOPI have installed 125 transitional shelters in the camps of Sayam Forage and Kabelawa in Diffa. The objective is to provide transitional shelter to all households in the camps. These transitional shelters are more durable than emergency shelters and do not have to be replaced on a regular basis. These shelters were created in a participative workshop by trained refugees who received cash for work.

### Coordination & Partnerships

- Mali and Nigeria situations: On the 24<sup>th</sup> – 25<sup>th</sup> November, UNHCR organized a workshop in Niamey focusing on vulnerability targeting. Numerous organizations operating in Niger, including government, NGOs and UN agencies, along with representations from other countries participated. Lessons learned will be used for the development of a targeted approach based on vulnerabilities for 2016.
- Nigeria situation: On the 18<sup>th</sup> of November, UNHCR and UN agencies returned to the Department of Bosso for the first time following the first attacks there in February. Since then, only a very limited number of organisations have been operating in the region due to the prevailing instability. UNHCR met with the Prefect of Bosso to discuss interventions and planning for the coming month.

UNHCR is grateful for the generous contributions of donors who have given unearmarked and broadly earmarked contributions to
