Location: _____

Stabilisation Centre Register

> Illustrated Guide to Stabilisation Centre Register

A

Serial No.*	SAM No.	Name	Age	Sex (M / F)	Status (Ref / Nat)	Address	Date of admission to CTC	Re-adm. (Y / N)	Transfer from OTP (enter date)

B — FIRST ADMISSION*

Oedema (+/++/+++)	MUAC (mm)	Weight (kg)	Height (cm)	WFH

C — Weight (kg)

Day 2	Day 3	Day 4	Day 5	Day 6	Day 7	Day 8	Day 9	Day 10	Day 11	Day 12	Day 13	Day

D

Date of exit	Length of stay (days)	Average weight gain (g / kg / day)	Reason for exit*	Notes

A Registration

Serial No.:
> Enter sequence number in register

SC No:
> Enter unique identifying number

Name:
> Print name of child

Age:
> Enter age (in years)

Sex:
> Enter Male (M) / Female (F)

Status:
> Classify as Refugee (Ref) / National (Nat)

Address:
> Enter Camp Address (Refugee) / Nearest Village (National)

Date of admission:
> Enter date (dd/mm/yy)

Re-adm:
> Enter Yes (Y) if previous admission / No (N) if new admission

Transfer from OTP:
> For transfers into SC, enter date of transfer from Outpatient Therapeutic Programme (OTP)

B Nutritional Status

Using the admission criteria defined in the Country Nutrition Protocol, record relevant anthropometric information from the following:

Oedema:
> Enter + / ++ / +++ to indicate severity of oedema

MUAC:
> Enter MUAC measurement (mm)

Weight:
> Enter Weight measurement (kg)

Height:
> Enter Height measurement (cm)

Weight-for-Height (WFH):
> Use NCHS/WHO reference tables to calculate WFH Z-score / %median.

Enter value that defines upper range (e.g. < -3ZS / <70%)

NOTES

Height is requested once at registration. This height measurement should be used throughout admission. The term 'length' is generally used for children below 85 cm, and 'height' for children 85 cm and above.

C Admission history

On each day of admission:

Weight:
> Enter weight (in kg)

Clinical progress should also be documented in separate medical records.

NOTES

Weight should be monitored daily.

Detailed clinical and examination notes should be kept in separate continuation sheets.

D Exit details

Date of exit:
> Enter date of exit (dd/mm/yy)

Length of stay:
> Enter number of days between admission and discharge

Average weight gain:
> Enter average weight gain during entire duration of admission (g / kg / day)

Reason for exit:
> Enter reason for exit, using options provided in legend:

Discharge to OTP / Death / Default / Referral

Notes:
> Enter any important clinical or nutritional observations

NOTES

The length of stay is inclusive of both day of admission and day of discharge.

Reasons for exit are listed in a key on each register page. Enter reasons listed in the key ONLY.
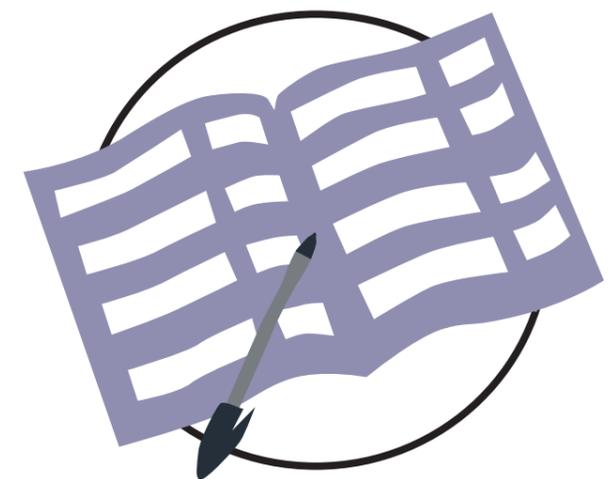

Repatriation is included within referral as reason for exit.
