However, there is an important distinction between the enabling service (e.g., web-hosting or application hosting) and the content or core service that is being delivered electronically (e.g., banking). In such cases, the content or core service is not covered by CPC 84.

Regulatory authorities may attach conditions covering fairness, reasonableness and timeliness to the obligations included under this and the previous paragraph.

- (e) obligations relating to cost recovery and price controls, including obligations for cost orientation of prices and obligations concerning cost accounting systems, for the provision of specific types of interconnection and/or access, in situations where a market analysis indicates that a lack of effective competition means that the operator concerned might sustain prices at an excessively high level, or apply a price squeeze, to the detriment of end-users.

Regulatory authorities shall take into account the investment made by the operator and allow him a reasonable rate of return on adequate capital employed, taking into account the risks involved.

- (f) to publish the specific obligations imposed on services suppliers by the regulatory authority identifying the specific product/service and geographical markets. Up-to-date information, provided that it is not confidential and it does not comprise business secrets is made publicly available in manner that guarantees all interested parties easy access to that information.
- (g) obligations for transparency requiring operators to make public specified information and in particular, where an operator has obligations of non-discrimination, the regulator may require that operator to publish a reference offer, which shall be sufficiently unbundled to ensure that services suppliers are not required to pay for facilities which are not necessary for the service requested, giving a description of the relevant offerings broken down into components according to market needs, and the associated terms and conditions including prices.

4. Each Party shall ensure that a service supplier requesting interconnection with a supplier designated as having significant market power shall have recourse, either at any time or after a reasonable period of time which has been made publicly known, to an independent domestic body, which may be a regulatory body as referred to in Article 231(2)(d) of this Agreement to resolve disputes regarding terms and conditions for interconnection and/or access.

The administration of such obligations shall also be neutral with respect to competition and be not more burdensome than necessary for the kind of universal service defined by the Party.
3. Each Party shall ensure that all suppliers should be eligible to ensure universal service and no services supplier shall be a priori excluded. The designation shall be made through an efficient, transparent, objective and non-discriminatory mechanism. Where necessary, each Party shall assess whether the provision of universal service represents an unfair burden on organisations(s) designated to provide universal service. Where justified on the basis of such calculation, and taking into account the market benefit if any which accrues to an organisation that offers universal service, regulatory authorities shall determine whether a mechanism is required to compensate the services supplier(s) concerned or to share the net cost of universal service obligations.
4. Each Party shall ensure that:
 - (a) directories of all subscribers are available to users, whether printed or electronic, or both, and are updated on a regular basis, and at least once a year;

2. The decision of the regulatory authority shall be made available to the public, having regard to the requirements of business confidentiality. The service suppliers concerned shall be given a full statement of the reasons on which it is based.
3. When such a dispute concerns the cross-border provision of services, the regulatory authorities concerned shall co-ordinate their efforts in order to bring about a resolution of the dispute.

This Chapter applies to any contracting authority and any contracting entity which meets the definitions of the Union *acquis* on public procurement (hereinafter both referred to as the "contracting entities"). It covers also bodies governed by public law and public undertakings in the field of utilities such as state-owned enterprises carrying out the relevant activities and private undertakings operating on the basis of special and exclusive rights in the field of utilities.
3. This Chapter applies to contracts above value thresholds set out in Annex XXIX-A to this Agreement.
4. The calculation of the estimated value of a public contract shall be based on the total amount payable, net of taxes on value added. When applying these thresholds, the Republic of Moldova will calculate and convert contract values into its national currency, using the conversion rate of its National Bank.
5. Value thresholds shall be revised regularly every two years, beginning in the year of entry into force of this Agreement, based on the average daily value of the Euro, expressed in Special Drawing Rights, over the 24 months terminating on the last day of August

preceding the revision with effect from January 1. The value of the thresholds thus revised shall, where necessary, be rounded down to nearest thousand Euro. The revision of the thresholds shall be adopted by decision of the Association Committee in Trade configuration, as set out in Article 438(4) of this Agreement.

Article 270

Institutional background

1. Each Party shall establish or maintain an appropriate institutional framework and mechanisms necessary for the proper functioning of the public procurement system and the implementation of the principles in this Chapter.
2. In the framework of institutional reform, the Republic of Moldova shall designate in particular:
 - (a) an executive body responsible for economic policy at central government level tasked with guaranteeing a coherent policy in all areas related to public procurement. Such a body shall facilitate and coordinate the implementation of this Chapter and guide the process of gradual approximation to the Union *acquis*;
 - (b) an impartial and independent body tasked with the review of decisions taken by contracting authorities or entities during the award of contracts. In this context, “independent” means that that body shall be a public authority which is separate from all contracting entities and economic operators. There shall be a possibility to subject the decisions taken by this body to judicial review.
3. Each Party shall ensure that decisions taken by the authorities responsible for the review of complaints by economic operators concerning infringements of domestic law shall be effectively enforced.

Article 271

Basic standards regulating the award of contracts

1. No later than nine months from the entry into force of this Agreement, the Parties shall comply with a set of basic standards for the award of all contracts as stipulated in paragraphs 2 to 15 of this Article. These basic standards derive directly from the rules and principles of public procurement, as regulated in the Union *acquis* on public procurement, including the principles of non-discrimination, equal treatment, transparency and proportionality.

Publication

2. Each Party shall ensure that all intended procurements are published in an appropriate media in a manner that is sufficient:
 - (a) to enable the market to be opened up to competition; and
 - (b) to allow any interested economic operator to have appropriate access to information regarding the intended procurement prior to the award of the contract and to express its interest in obtaining the contract.

3. The publication shall be appropriate to the economic interest of the contract to economic operators.
4. The publication shall contain at least the essential details of the contract to be awarded, the criteria for qualitative selection, the award method, the contract award criteria and any other additional information that the economic operators reasonably need to decide on whether to express their interest in obtaining the contract.

Award of contracts

5. All contracts shall be awarded through transparent and impartial award procedures that prevent corruptive practices. This impartiality shall be ensured in particular through the non-discriminatory description of the subject-matter of the contract, equal access for all economic operators, appropriate time-limits and a transparent and objective approach.
6. When describing the characteristics of the required work, supply or service, the contracting entities shall use general descriptions of performance and functions and international, European or national standards.
7. The description of the characteristics required of a work, supply or service shall not refer to a specific make or source, or a particular process, or to trademarks, patents, types or a specific origin or production unless such a reference is justified by the subject-matter of the contract and accompanied by the words 'or equivalent'. Preference shall be given to the use of general descriptions of performance or functions.
8. Contracting entities shall not impose conditions resulting in direct or indirect discrimination against the economic operators of the other Party, such as the requirement that economic operators interested in the contract must be established in the same country, region or territory as the contracting entity.

Notwithstanding the above, in cases where it is justified by the specific circumstances of the contract, the successful applicant may be required to establish certain business infrastructure at the place of performance.

9. The time-limits for expression of interest and for submission of offers shall be sufficiently long to allow economic operators from the other Party to make a meaningful assessment of the tender and prepare their offer.
10. All participants must be able to know the applicable rules, selection criteria and award criteria in advance. These rules must apply equally to all participants.
11. Contracting entities may invite a limited number of applicants to submit an offer, provided that:
 - (a) this is done in a transparent and non-discriminatory manner; and
 - (b) the selection is based only on objective factors such as the experience of the applicants in the sector concerned, the size and infrastructure of their businesses or their technical and professional abilities.

In inviting a limited number of applicants to submit an offer, account shall be taken of the need to ensure adequate competition.

12. Contracting entities may use negotiated procedures only in exceptional and defined cases when the use of such a procedure effectively does not distort competition.

13. Contracting entities may use qualification systems only under the condition that the list of qualified operators is compiled by means of a sufficiently advertised, transparent and open procedure. Contracts falling within the scope of such a system shall be awarded also on a non-discriminatory basis.
14. Each Party shall ensure that contracts are awarded in a transparent manner to the applicant who has submitted the economically most advantageous offer or the offer with the lowest price, based on the tender criteria and the procedural rules established and communicated in advance. The final decisions shall be communicated to all applicants without undue delay. Upon request of an unsuccessful applicant, reasons must be provided in sufficient detail to allow the review of the decision.

Judicial protection

15. Each Party shall ensure that any person having or having had an interest in obtaining a particular contract and who has been, or risks, being harmed by an alleged infringement is entitled to effective, impartial judicial protection against any decision of the contracting entity related to the award of that contract. The decisions taken in the course and at the end of such review procedure shall be made public in a manner that is sufficient to inform all interested economic operators.

Article 272

Planning of gradual approximation

1. Prior to the commencement of gradual approximation, the Republic of Moldova shall submit to the Association Committee in Trade configuration, as set out in Article 438(4) of this Agreement, a comprehensive roadmap for the implementation of this Chapter with time schedules and milestones which shall include all reforms in terms of approximation to the Union *acquis* and institutional capacity building. This roadmap shall comply with the phases and time schedules set out in Annex XXIX-B to this Agreement.
2. The roadmap shall cover all aspects of the reform and the general legal framework for the implementation of public procurement activities, in particular: approximation for public contracts, contracts in the utilities sector, works concessions and review procedures; strengthening of the administrative capacity at all levels including review bodies and enforcement mechanisms.
3. Following a favourable opinion by the Association Committee in Trade configuration, the roadmap shall be considered as the reference document for the implementation of this Chapter. The Union shall make its best efforts in assisting the Republic of Moldova in the implementation of the roadmap.

Article 273

Gradual approximation

1. The Republic of Moldova shall ensure that its existing and future legislation on public procurement will be gradually made compatible with the Union *acquis* on public procurement.

2. Approximation to the Union *acquis* shall be carried out in consecutive phases as set out in the schedule in Annex XXIX-B to this Agreement and further specified in Annexes XXIX-C to XXIX-F, XXIX-H, XXIX-I, and XXIX-K thereof. Annexes XXIX-G and XXIX-J to this Agreement identify non-mandatory elements that need not be approximated, whereas Annexes XXIX-L to XXIX-O identify elements of the Union *acquis* that remain outside the scope of approximation. In this process, due account shall be taken of the corresponding case law of the Court of Justice of the European Union and the implementing measures adopted by the European Commission as well as, should it become necessary, of any modifications of the Union *acquis* occurring in the meantime. The implementation of each phase shall be evaluated by the Association Committee in Trade configuration, as set out in Article 438(4) of this Agreement, and, following a positive assessment by that Committee, it shall be linked to the reciprocal granting of market access as set out in Annex XXIX-B to this Agreement. The European Commission shall notify without undue delay the Republic of Moldova of any modifications of the Union *acquis*. It shall provide appropriate advice and technical assistance for the purpose of implementing such modifications.
3. The Association Committee in Trade configuration shall only proceed to the evaluation of a next phase once the measures to implement the previous phase have been carried out and approved according to the modalities set forth in paragraph 2.
4. Each Party shall ensure that those aspects and areas of public procurement which are not covered by this Article comply with the principles of transparency, non-discrimination and equal treatment as set out under Article 271 of this Agreement.

Article 274

Market access

1. The Parties agree that the effective and reciprocal opening of their respective markets shall be attained gradually and simultaneously. During the process of approximation, the extent of the market access mutually granted shall be linked to the progress made in this process as stipulated in Annex XXIX-B to this Agreement.
2. The decision to proceed to a further phase of market opening shall be made on the basis of an assessment of the quality of the legislation adopted as well as its practical implementation. Such assessment shall be carried out regularly by the Association Committee in Trade configuration, as set out in Article 438(4) of this Agreement.
3. Insofar as a Party has, according to Annex XXIX-B to this Agreement, opened its procurement market to the other Party:
 - (a) the Union shall grant access to contract award procedures to companies of the Republic of Moldova, whether established or not in the Union, pursuant to the Union public procurement rules under treatment no less favourable than that accorded to Union companies;
 - (b) the Republic of Moldova shall grant access to contract award procedures for Union companies, whether established or not in the Republic of Moldova, pursuant to national procurement rules under treatment no less favourable than that accorded to companies of the Republic of Moldova.

4. After the implementation of the last phase in the process of approximation, the Parties will examine the possibility to mutually grant market access with regard to procurements below the value thresholds set out in Annex XXIX-A to this Agreement.
5. Finland reserves its position with regard to the Aland Islands.

4. For geographical indications referred to in Article 298 of this Agreement, the Parties shall have no obligation to protect a geographical indication where, in the light of a reputed or well-known trademark, protection is liable to mislead consumers as to the true identity of the product.
5. Without prejudice to paragraph 4, the Parties shall protect geographical indications also where a prior trademark exists. A prior trademark shall mean a trademark the use of which corresponds to one of the situations referred to in Article 299(1) of this Agreement, which has been applied for, registered or established by use, if that possibility is provided for by the legislation concerned, in the territory of one of the

Parties before the date on which the application for protection of the geographical indication is submitted by the other Party under this Sub-Section. Such trademark may continue to be used and renewed notwithstanding the protection of the geographical indication, provided that no grounds for the trademark's invalidity or revocation exist in the legislation on trademarks of the Parties.

3. The Geographical Indications Sub-Committee adopts its decisions by consensus. It shall determine its own rules of procedure. It shall meet at least once a year and at the request of either of the Parties, alternatively in the European Union and in the Republic of Moldova, at a time and a place and in a manner (which may include videoconference) mutually determined by the Parties, but no later than 90 days after the request.

Sub-Section 4

Designs

Article 307

International agreements

The Parties shall comply with the Geneva Act to the Hague Agreement Concerning the International Registration of Industrial Designs (1999).

Article 308

Protection of registered designs

1. Each Party shall provide for the protection of independently created designs that are new and are original²⁷. This protection shall be provided by registration, which shall confer an exclusive right upon the holders of a registered design in accordance with the provisions of this article.
2. A design applied to or incorporated in a product which constitutes a component part of a complex product shall only be considered to be new and original:
 - (a) if the component part, once it has been incorporated into the complex product, remains visible during normal use of the latter, and

²⁷ For the purposes of this Article, a Party may consider that a design having individual character is original.

- (b) to the extent that those visible features of the component part fulfill in themselves the requirements as to novelty and originality.
3. The expression "normal use" in paragraph 2(a) shall mean use by the end user, excluding maintenance, servicing or repair work.
 4. The holder of a registered design shall have the right to prevent third parties not having the owner's consent from, at a minimum, making, offering for sale, selling, importing, exporting, stocking or using a product bearing or embodying the protected design when such acts are undertaken for commercial purposes, unduly prejudice the normal exploitation of the design, or are not compatible with fair trade practices.
 5. The duration of protection available shall amount to 25 years from the date of filing of the application for registration.

Article 309

Protection conferred to unregistered designs

1. Each Party shall provide the legal means to prevent the use of unregistered designs, only if the contested use results from copying the unregistered appearance of the product. For the purposes of this Article, the term "use" shall include the offering for sale, putting on the market, importing or exporting the product.
2. The duration of protection available for unregistered designs shall amount to at least three years from the date on which the design was made available to the public in one of the Parties.

Article 310

Exceptions and exclusions

1. Each Party may provide limited exceptions to the protection of designs, provided that such exceptions do not unreasonably conflict with the normal exploitation of protected designs and do not unreasonably prejudice the legitimate interests of the owner of the protected design, taking account of the legitimate interests of third parties.
2. Design protection shall not extend to designs dictated essentially by technical or functional considerations. In particular a design right shall not subsist in features of appearance of a product which must necessarily be reproduced in their exact form and dimensions in order to permit the product in which the design is incorporated or to which it is applied to be mechanically connected to or placed in, around or against another product so that either product may perform its function.

Article 311

Relationship to copyright

A design shall also be eligible for protection under the law of copyright of a Party as from the date on which the design was created or fixed in any form. The extent to which, and the conditions under which, such a protection is conferred, including the level of originality required, shall be determined by each Party.

Sub-Section 5

Patents

Article 312

International agreements

The Parties shall adhere to the provisions of the Patent Cooperation Treaty and shall make all reasonable efforts to comply with the Patent Law Treaty.

Article 313

Article 314

Supplementary protection certificate

1. The Parties recognise that medicinal and plant protection products protected by a patent may be subject to an administrative authorisation procedure before being put on their market. They recognise that the period that elapses between the filing of the application for a patent and the first authorisation to place the product on their respective market, as defined for that purpose by domestic law, may shorten the period of effective protection under the patent.
2. Each Party shall provide for a further period of protection for a medicinal or plant protection product which is protected by a patent and which has been subject to an administrative authorisation procedure, that period being equal to the period referred to in paragraph 1 second sentence, reduced by a period of five years.
3. Notwithstanding paragraph 2, the duration of the further period of protection may not exceed five years.
4. In the case of medicinal products for which paediatric studies have been carried out, and provided that results of those studies are reflected in the product information, the Parties shall provide for a further six months extension of the period of protection referred to in paragraph 2.

Article 315

Protection of data submitted to obtain an authorisation to put a medicinal product on the market

1. Each Party shall implement a comprehensive system to guarantee the confidentiality, non-disclosure and non-reliance of data submitted for the purpose of obtaining an authorisation to put a medicinal product on the market.²⁸
2. Each Party shall ensure that any required information that is submitted to obtain an authorisation to put a medicinal product on the market remains undisclosed to third parties and benefits from protection against unfair commercial use.

To this end,

- (a) during a period of at least five years, starting from the date of grant of marketing authorisation in the Party concerned, no person or entity, whether public or private, other than the person or entity who submitted such undisclosed data, shall be allowed to rely directly or indirectly on such data, without the explicit consent of the person or entity who submitted this data, in support of an application for the authorisation to put a medicinal product on the market;
 - (b) during a period of at least seven years, starting from the date of grant of marketing authorisation in the Party concerned, a marketing authorisation for any subsequent application shall not be granted, unless the subsequent applicant submits his/her own data, or data used with authorisation of the holder of the first authorisation, meeting the same requirements as in the case of the first authorisation. Products registered without submission of such data shall be removed from the market until the requirements are met.
3. The seven year period referred to in paragraph 2(b) shall be extended to a maximum of eight years if, during the first five years after obtaining the initial authorisation, the holder obtains an authorisation for one or more new therapeutic indications which are considered of significant clinical benefit in comparison with existing therapies.
 4. The provisions of this Article shall not have retroactive effect. They shall not affect the marketing of medicinal products authorised before the entry into force of this Agreement.
 5. The Republic of Moldova undertakes to align its legislation concerning data protection for medicinal products with that of the Union at a date to be decided by the Association Committee in Trade configuration, as set out in Article 438(4) of this Agreement.

²⁸

For the purposes of this Article:

Medicinal products means: (i) any substance or combination of substances presented for treating or preventing disease in human beings; or (ii) any substance or combination of substances which may be administered to human beings with a view to making a medical diagnosis or to restoring, correcting or modifying physiological functions in human beings.

2. Each Party shall recognise a temporary data protection right to the owner of a test or study report submitted for the first time to obtain a marketing authorisation for a plant protection product.

During the period of validity of the data protection right, the test or study report shall not be used for the benefit of any other person aiming to obtain a marketing authorisation for a plant protection product, except when the explicit consent of the owner is proved.
3. The test or study report shall fulfil the following conditions:
 - (a) be necessary for the authorisation or for an amendment of an authorisation in order to allow the use on other crops, and
 - (b) be certified as compliant with the principles of good laboratory practice or of good experimental practice.
4. The period of data protection shall be at least ten years from the first authorisation in the Party concerned. In case of low risk plant protection products the period may be extended to 13 years.
5. The periods referred to in paragraph 3 shall be extended by three months for each extension of authorisation for minor uses²⁹ if the applications for such authorisations are made by the holder of the authorisation at the latest five years after the date of the first authorisation. The total period of data protection may in no case exceed 13 years. For low risk plant protection products the total period of data protection may in no case exceed 15 years.
6. A test or study report shall also be protected if it was necessary for the renewal or review of an authorisation. In those cases, the period for data protection shall be 30 months.

Article 317

Plant varieties

The Parties shall protect plant varieties rights, in accordance with the International Convention for the Protection of New Varieties of Plants (UPOV) including the optional exception to the breeder's right as referred to in Article 15(2) of the said Convention, and shall cooperate to promote and enforce these rights.

²⁹ For the purposes of this Article, the expression "minor use" means: use of a plant protection product in a Party on plants or plant products which are not widely grown in that Party, or which are widely grown to meet an exceptional plant protection need.

Section 3
Enforcement of Intellectual Property Rights

Article 318

General obligations

1. The Parties reaffirm their commitments under the TRIPS Agreement, in particular Part III thereof, and shall provide for the complementary measures, procedures and remedies set forth in this Section necessary to ensure the enforcement of intellectual property rights³⁰.
2. Those measures, procedures and remedies shall be fair and equitable, and shall not be unnecessarily complicated or costly, or entail unreasonable time-limits or unwarranted delays.
3. Those measures and remedies shall also be effective, proportionate and dissuasive and shall be applied in such a manner as to avoid the creation of barriers to legitimate trade and to provide for safeguards against their abuse.

Article 319

Entitled applicants

Each Party shall recognise as persons entitled to seek application of the measures, procedures and remedies referred to in this Section and in Part III of the TRIPS Agreement:

Sub-Section 1
Civil Enforcement

Article 320

Measures for preserving evidence

1. Each Party shall ensure that, even before the commencement of proceedings on the merits of the case, the competent judicial authorities may, on application by a party who has presented reasonably available evidence to support his/her claims that his/her intellectual property right has been infringed or is about to be infringed, order prompt and effective provisional measures to preserve relevant evidence in respect of the alleged infringement, subject to the protection of confidential information.
2. Such measures may include the detailed description, with or without the taking of samples, or the physical seizure of the alleged infringing goods, and, in appropriate cases, the materials and implements used in the production and/or distribution of these goods and the documents relating thereto. Those measures shall be taken, if necessary without the other party being heard, in particular where any delay is likely to cause irreparable harm to the right holder or where there is a demonstrable risk of evidence being destroyed.

Article 321

Right of information

1. Each Party shall ensure that, in the context of proceedings concerning an infringement of an intellectual property right and in response to a justified and proportionate request of the claimant, the competent judicial authorities may order that information on the origin and distribution networks of the goods or services which infringe an intellectual property right be provided by the infringer and/or any other person who:
 - (a) was found in possession of the infringing goods on a commercial scale;
 - (b) was found to be using the infringing services on a commercial scale;
 - (c) was found to be providing on a commercial scale services used in infringing activities; or
 - (d) was indicated by the person referred to in point (a), (b) or (c) as being involved in the production, manufacture or distribution of the goods or the provision of the services.
2. The information referred to in paragraph 1 shall, as appropriate, comprise:
 - (a) the names and addresses of the producers, manufacturers, distributors, suppliers and other previous holders of the goods or services, as well as the intended wholesalers and retailers;
 - (b) information on the quantities produced, manufactured, delivered, received or ordered, as well as the price obtained for the goods or services in question.

3. Paragraphs 1 and 2 shall apply without prejudice to other statutory provisions which:
 - (a) grant the right holder rights to receive fuller information;
 - (b) govern the use in civil or criminal proceedings of the information communicated pursuant to this Article;
 - (c) govern responsibility for misuse of the right of information; or
 - (d) afford an opportunity for refusing to provide information which would force the person referred to in paragraph 1 to admit to his/her own participation or that of his/her close relatives in an infringement of an intellectual property right; or
 - (e) govern the protection of confidentiality of information sources or the processing of personal data.

Article 322

Provisional and precautionary measures

1. Each Party shall ensure that the judicial authorities may, at the request of the applicant, issue against the alleged infringer an interlocutory injunction intended to prevent any imminent infringement of an intellectual property right, or to forbid, on a provisional basis and subject, where appropriate, to a recurring penalty payment where provided for by domestic law, the continuation of the alleged infringements of that right, or to make such continuation subject to the lodging of guarantees intended to ensure the compensation of the right holder. An interlocutory injunction may also be issued, under the same conditions, against an intermediary whose services are being used by a third party to infringe an intellectual property right.
2. An interlocutory injunction may also be issued to order the seizure or delivery up of goods suspected of infringing an intellectual property right, so as to prevent their entry into or movement within the channels of commerce.
3. In the case of an alleged infringement committed on a commercial scale, the Parties shall ensure that, if the applicant demonstrates circumstances likely to endanger the recovery of damages, the judicial authorities may order the precautionary seizure of the movable and immovable property of the alleged infringer, including the blocking of his/her bank accounts and other assets. To that end, the competent authorities may order the communication of bank, financial or commercial documents, or appropriate access to the relevant information.

Article 323

Corrective measures

1. Each Party shall ensure that the competent judicial authorities may order, at the request of the applicant and without prejudice to any damages due to the right holder by reason of the infringement, and without compensation of any sort, at least the definitive removal from the channels of commerce, or the destruction, of goods that they have found to be infringing an intellectual property right. If appropriate, the competent judicial authorities may also order the destruction of materials and implements predominantly used in the creation or manufacture of those goods.

2. The Parties' judicial authorities shall have the authority to order that those measures shall be carried out at the expense of the infringer, unless particular reasons are invoked for not doing so.

Article 324

Injunctions

Each Party shall ensure that, where a judicial decision is taken finding an infringement of an intellectual property right, the judicial authorities may issue against the infringer as well as against an intermediary whose services are used by a third party to infringe an intellectual property right an injunction aimed at prohibiting the continuation of the infringement.

Article 325

Alternative measures

The Parties may provide that, in appropriate cases and at the request of the person liable to be subject to the measures provided for in Article 323 and/or Article 324 of this Agreement, the competent judicial authorities may order pecuniary compensation to be paid to the injured party instead of applying the measures provided for in these two Articles if that person acted unintentionally and without negligence, if execution of the measures in question would cause him/her disproportionate harm and if pecuniary compensation to the injured party appears reasonably satisfactory.

Article 326

Damages

1. Each Party shall ensure that the judicial authorities, on application of the injured party, order the infringer who knowingly, or with reasonable grounds to know, engaged in an infringing activity, to pay the right-holder damages appropriate to the actual prejudice suffered by him/her as a result of the infringement. When the judicial authorities set the damages:
 - (a) they shall take into account all appropriate aspects, such as the negative economic consequences, including lost profits, which the injured party has suffered, any unfair profits made by the infringer and, in appropriate cases, elements other than economic factors, such as the moral prejudice caused to the right holder by the infringement ; or
 - (b) as an alternative to (a), they may, in appropriate cases, set the damages as a lump sum on the basis of elements such as at least the amount of royalties or fees which would have been due if the infringer had requested authorisation to use the intellectual property right in question.
2. Where the infringer did not knowingly, or with reasonable grounds to know, engage in infringing activity, the Parties may lay down that the judicial authorities may order in favour of the injured party the recovery of profits or the payment of damages which may be pre-established.

Article 327

Legal costs

Each Party shall ensure that reasonable and proportionate legal costs and other expenses incurred by the successful party shall as a general rule be borne by the unsuccessful party, unless equity does not allow this.

Article 328

Publication of judicial decisions

Each Party shall ensure that, in legal proceedings instituted for infringement of an intellectual property right, the judicial authorities may order, at the request of the applicant and at the expense of the infringer, appropriate measures for the dissemination of the information concerning the decision, including displaying the decision and publishing it in full or in part.

Article 329

Presumption of authorship or ownership

For the purposes of applying the measures, procedures and remedies provided for in this Section:

- (a) for the author of a literary or artistic work, in the absence of proof to the contrary, to be regarded as such, and consequently to be entitled to institute infringement proceedings, it shall be sufficient for his/her name to appear on the work in the usual manner;
- (b) the provision under (a) shall apply *mutatis mutandis* to the holders of rights related to copyright with regard to their protected subject matter.

Sub-Section 2

Other Provisions

Article 330

Border measures

1. Each Party shall, unless otherwise provided for in this Sub-Section, adopt procedures to enable a right holder, who has valid grounds for suspecting that the importation, exportation, re-exportation, entry or exit of the customs territory, placement under a suspensive procedure or placement under a free zone or a free warehouse of goods infringing an intellectual property right³¹ may take place, to lodge an application in

³¹ For the purposes of this provision, "goods infringing an intellectual property right" means:

(a) "counterfeit goods", namely:

(i) goods, including packaging, bearing without authorisation a trademark identical to the trademark duly registered in respect of the same type of goods, or which cannot be distinguished in its essential aspects from such a trademark, and which thereby infringes the trademark holder's rights;

(ii) any trademark symbol such as a logo, label, sticker, brochure, instructions for use or guarantee document, even if presented separately, on the same conditions as the goods referred to in point (i);

writing with the competent authorities, whether administrative or judicial, for the suspension by the customs authorities of the release or the detention of such goods.

2. Each Party shall provide that when the customs authorities, in the course of their actions and before an application has been lodged by a right holder or granted, have sufficient grounds for suspecting that goods infringe an intellectual property right, they may suspend the release of the goods or detain them in order to enable the right holder to submit an application for action in accordance with the paragraph 1.
3. Any rights or obligations concerning the importer which are established in domestic law for the implementation of this Article and of Section 4 of Part III of the TRIPS Agreement shall be also applicable to the exporter or to the holder of the goods.
4. Each Party shall provide that its competent authorities require a right holder that requests the procedures described in paragraph 1 to provide adequate evidence to satisfy the competent authorities that, under the law of the Party providing the procedures, there is prima facie an infringement of the right holder's intellectual property right, and to supply sufficient information that may reasonably be expected to be within the right holder's knowledge to make the suspect goods reasonably recognisable by the competent authorities. The requirement to provide sufficient information shall not unreasonably deter recourse to the procedures described in paragraph 1.
5. With a view to establishing whether an intellectual property right has been infringed, the customs office shall inform the right holder, at his/her request and if known, of the names and addresses of the consignee, the consignor or the holder of the goods and the origin and provenance of goods suspected of infringing an intellectual property right.

The customs office shall also give the applicant the opportunity to inspect goods whose release has been suspended or which have been detained. When examining goods, the customs office may take samples and hand them over or send them to the right holder, at his/her request, strictly for the purposes of analysis and to facilitate the subsequent procedure.
6. The customs authorities shall be active in targeting and identifying shipments containing goods suspected of infringing an intellectual property right on the basis of risk analysis techniques. They shall set up systems for close cooperation with right holders including effective mechanisms to collect information for the risk analysis.
7. The Parties agree to cooperate with a view to eliminating international trade in goods infringing intellectual property rights. In particular, for this purpose, they shall, where appropriate, exchange information and arrange for cooperation between their competent authorities with regard to trade in goods infringing intellectual property rights.

(iii) packaging materials bearing the trademark of counterfeit goods, presented separately, on the same conditions as the goods referred to in point (i);

(b) "pirated goods", namely goods which are or contain copies made without the consent of the right-holder, or of a person duly authorised by the holder in the country of production, and which are made directly or indirectly from an article, where the making of that copy would have constituted an infringement of a copyright or related right or design right under the law of the country of importation, regardless of whether it is registered in domestic law;

(c) goods which, according to the law of the Party in which the application for customs action is made, infringe a patent, a plant variety right, or a geographical indication.

8. For goods in transit through the territory of a Party destined for the territory of the other Party, the former Party shall provide information to the latter Party to enable effective enforcement against shipments of goods suspected of infringing an intellectual property right.
9. Without prejudice to other forms of cooperation, Protocol III on Mutual Administrative Assistance in Customs Matters will be applicable with regard to paragraphs 7 and 8 with respect to breaches of customs legislation related to intellectual property rights.
10. The Customs Sub-Committee referred to in Article 200 of this Agreement shall act as the responsible Committee to ensure the proper functioning and implementation of this Article.

Article 331

Codes of conduct

1. The Parties shall encourage:
 - a) the development by trade or professional associations or organisations of codes of conduct aimed at contributing towards the enforcement of intellectual property rights; and
 - b) the submission to the competent authorities of the Parties of draft codes of conduct and of any evaluations of the application of these codes of conduct.

2. With regard to state monopolies of a commercial character, public undertakings and undertakings entrusted with special or exclusive rights, each Party shall ensure that such undertakings are subject to the competition laws referred to above, in so far as the application of these laws does not obstruct the performance, in law or in fact, of the particular tasks of public interest assigned to the undertakings in question.

Article 337

Cooperation and exchange of information

1. The Parties recognise the importance of cooperation and co-ordination between their respective competition authorities to enhance effective competition law enforcement, and to fulfil the objectives of this Agreement through the promotion of competition and the curtailment of anti-competitive business conduct or anti-competitive transactions.

1. State aid granted by the Republic of Moldova or by the Union or through the resources of one of these, in any form whatsoever, which distorts or threatens to distort competition by favouring certain undertakings or the production of certain goods and services that affects trade between the Parties shall be incompatible with this Agreement.
2. This Chapter shall not apply to state aid related to fisheries, products covered by Annex 1 of the WTO Agreement on Agriculture or other aids covered by the WTO Agreement on Agriculture.

- (b) The examination by the importing Party of a request for recognition of equivalence of a measure pertaining to a certain commodity of the exporting Party shall not be a reason to disrupt trade or suspend on-going imports from the exporting Party of the commodity in question;
- (c) The process for determination of equivalence of measures is an interactive process between the exporting Party and the importing Party. The process consists of an objective demonstration of equivalence of individual measures by the exporting Party and an objective assessment of the equivalence with a view to the possible recognition of equivalence by the importing Party;
- (d) The final recognition of equivalence of the relevant measures of the exporting Party rests solely with the importing Party.

2. Preconditions

- (a) The process depends on the health or pest status, the law and the effectiveness of the inspection and control system related to the commodity in the exporting Party. To this end the law in the sector concerned shall be taken into account, as well as the structure of the competent authority of the exporting Party, the command chain, the authority, the operational procedures and resources, and the effectiveness of the competent authorities as regards inspection and control systems, including the level of enforcement related to the commodity and the regularity and the rapidity of information flow to the importing Party in case of identified hazards. This recognition may be supported by documentation, verification and documents, reports and information related to past experiences, assessment and verifications;
- (b) The Parties may initiate the process of recognition of equivalence pursuant to Article 183 of this Agreement after the successful completion of the regulatory approximation of a measure, a group of measures or a system included in the approximation list set out in Article 181(4) of this Agreement;
- (c) The exporting Party shall only initiate the process when no safeguard measures imposed by the importing Party apply to the exporting Party as regards the commodity.

3. The process

- (a) The exporting Party initiates the process by submitting to the importing Party a request for recognition of equivalence of an individual measure or groups of measures or a system for a commodity or a category of commodities in a sector or sub-sector or all of them;
- (b) When appropriate, this request includes also the request and the required documentation for approval by the importing Party on the basis of equivalence of any programme or plan of the exporting Party required by the importing Party and

/or the status of approximation as laid down in Annex XXIV to this Agreement regarding the measures or systems described in point (a) of this paragraph as a condition for allowing import of that commodity or a category of commodities;

- (c) With this request, the exporting Party:
 - (i) explains the importance for trade of that commodity or a category of commodities;
 - (ii) identifies the individual measure(s) with which it can comply from all the measures expressed in the import conditions of the importing Party applicable to that commodity or a category of commodities;
 - (iii) identifies the individual measure(s) for which it seeks equivalence out of the total of the measures expressed in the import conditions of the importing Party, applicable to that commodity or a category of commodities;
 - (d) In reply to this request the importing Party explains the overall and individual objective and the rationale behind its measure(s), including the identification of the risk;
 - (e) With this explanation, the importing Party informs the exporting Party on the relationship of its domestic measures and the import conditions for that commodity;
 - (f) The exporting Party objectively demonstrates to the importing Party that the measures that it has identified are equivalent to the import conditions for that commodity or a category of commodities;
 - (g) The importing Party objectively assesses the demonstration of equivalence by the exporting Party;
 - (h) The importing Party concludes whether equivalence is achieved or not;
 - (i) The importing Party provides to the exporting Party full explanation and supporting data for its determination and decision if so required by the exporting Party;
4. Demonstration of equivalence of measures by the exporting party and assessment of this demonstration by the importing Party
- (a) The exporting Party shall objectively demonstrate equivalence for each of the identified measures of the importing Party expressed in its import conditions. When appropriate, equivalence shall objectively be demonstrated for any plan or program required by the importing Party as a condition to allow import (e.g. residue plan, etc);
 - (b) Objective demonstration and assessment in this context should be based, as far as possible, on:
 - internationally recognised standards; and/or standards based on proper scientific evidence; and/or
 - risk assessment; and/or
 - documents, reports and information related to past experiences, assessments and verifications; and
 - legal status or level of administrative status of the measures; and
 - level of implementation and enforcement on the basis of in particular:

- corresponding and relevant results of surveillance and monitoring programmes;

ANNEX XXIII TO THIS AGREEMENT

CERTIFICATION

A. Principles of certification

Plants and plant products and other objects:

In respect of certification of plants and plant products and other objects, the competent authorities shall apply the principles laid down in the relevant ISPMs

Animals and animal products:

1. The competent authorities of the Parties shall ensure that certifying officers have a satisfactory knowledge of the veterinary law as regards the animals or animal products to be certified and, in general, are informed about the rules to be followed for drawing up and issuing of the certificates and, if necessary, as to the nature and extent of the enquiries, tests or examinations which should be carried out before certification.
2. Certifying officers must not certify data of which they have no personal knowledge or which cannot be ascertained by them.
3. Certifying officers must not sign blank or incomplete certificates, or certificates relating to animals or animal products, which they have not inspected or which have passed out of their control. Where a certificate is signed on the basis of another certificate or attestation, the certifying officer shall be in possession of the latter document before signing.
4. A certifying officer may certify data which have been:
 - (a) ascertained on the basis of paragraphs 1 to 3 of this Annex by another person authorised by the competent authority and acting under the control of the latter authority, provided that the certifying officer can verify the accuracy of the data; or
 - (b) obtained, in the context of monitoring programmes, by reference to officially recognized quality assurance schemes or by means of an epidemiological surveillance system where this is authorized under veterinary legislation.
5. The competent authorities of the Parties shall take all necessary steps to ensure the integrity of certification. In particular they shall ensure that certifying officers designated by them:
 - (a) have a status which ensures their impartiality and have no direct commercial interest in the animals or products being certified or in the holdings or establishments in which they originate; and
 - (b) are fully aware of the significance of the contents of each certificate which they sign.
6. Certificates shall be drawn up in order to ensure that a specific certificate refers to a specific consignment in a language understood by the certifying officer and in at least one of the official languages of the importing Party as set out in C of this Annex.

The date of signature of the certificate cannot be after the date of dispatch of the consignment(s).

7. Each competent authority shall be in a position to link a certificate with the relevant certifying officer and ensure that a copy of all certificates issued is available for a period to be determined by that competent authority.
8. Each Party shall introduce the checks and the controls necessary to prevent the issuing of false or misleading certifications and the fraudulent production or use of certificates purported to be issued for the purpose set out in the veterinary law.
9. Without prejudice to any judicial proceedings or penalties, the competent authorities shall carry out investigations or checks and take appropriate measures to penalise any instances of false or misleading certification, which are brought to their attention. Such measures may include the temporary suspension of the certifying officers from their duties until the investigation is over. In particular:
 - (a) if in the course of the checks it is found that a certifying officer has knowingly issued a fraudulent certificate, the competent authority shall take all necessary steps to ensure, as far as is possible, that the person concerned cannot repeat the offence;
 - (b) if in the course of the checks it is found that an individual or an undertaking has made fraudulent use of or has altered an official certificate, the competent authority shall take all necessary measures to ensure, as far as possible, that the individual or the undertaking cannot repeat the offence. Such measures may include a refusal to issue an official certificate to the person or the undertaking concerned.

B. Certificate referred to in Article 186(2)(a) of this Agreement.

The health attestation in the certificate reflects the status of equivalence of the commodity concerned. The health attestation states compliance with the production standards of the exporting Party recognised equivalent by the importing Party.

C. Official languages for certification

1. Import into the European Union. Plants, plant products and other objects:

Certificates shall be drawn up in a language understood by the certifying officer and in at least one of the official languages of the importing Party.

Animals and animal products:

The health certificate must be drawn up in at least one of the official languages of the Member State of destination and in one of those of the EU Member State in which the import checks provided for in Article 189 of this Agreement are carried out.

2. Import into Republic of Moldova

The health certificate must be drawn up in the official language of the Republic of Moldova.

**ANNEX XXIV TO THIS AGREEMENT
APPROXIMATION**

ANNEX XXIV-A
PRINCIPLES FOR THE EVALUATION OF PROGRESS
IN THE APPROXIMATION PROCESS

Part I - Gradual approximation

1. General rules

The sanitary, phytosanitary and animal welfare law of the Republic of Moldova shall be gradually approximated to that of the Union, based on the approximation list of the EU sanitary phytosanitary and animal welfare law. The list shall be divided into priority areas that relate to measures, as defined in Annex XVII to this Agreement which will be based on the technical and financial resources of the Republic of Moldova. For this reason the Republic of Moldova shall identify its trade priority areas.

The Republic of Moldova shall approximate its domestic rules by either:

- (a) implementing and enforcing through the adoption of additional domestic rules or procedures the rules in pertinent basic EU *acquis* or
- (b) by amending relevant domestic rules or procedures to incorporate the rules in relevant basic EU *acquis*.

In either case, the Republic of Moldova shall:

- (a) eliminate any domestic laws, regulations, practices or other measures inconsistent with the approximated domestic rules
- (b) ensure the effective implementation of approximated domestic rules

The Republic of Moldova documents such approximation in tables of correspondence according to a model indicating the date on which domestic rules enter into force and the official journal in which the rules were published. The model of the tables of correspondence for the preparation and the evaluation is provided in Part II of this Annex. If the approximation is not complete, reviewers⁷ shall describe the shortcomings in the column provided for comments.

Irrespective of the priority area identified, the Republic of Moldova shall prepare specific tables of correspondence demonstrating the approximation for other general and specific legislation including in particular the general rules related to:

- (a) Control systems
 - domestic market;
 - imports.
- (b) Animal health and welfare
 - the identification and the registration of animals and the registration of their movements;
 - the control measures for animal diseases;
 - domestic trade with live animals, semen, ova and embryos;

⁷ Reviewers shall be experts appointed by European Commission

- animal welfare on farms, during transport and slaughter.
- (c) Food safety
- placing on the market of food and feed;
 - labelling, presentation and advertising of food including nutritional and health claims;
 - residues controls;
 - specific rules for feed.
- (d) Animal by-products
- (e) Plant health
- harmful organisms;
 - plant protection products;
- (f) Genetically modified organisms:
- released into the environment;
 - genetically modified food and feed.

Part II - Evaluation

1. Procedure and method:

The Republic of Moldova's sanitary phytosanitary and animal welfare law covered by Chapter 4 of Title V shall be gradually approximated by the Republic of Moldova to that of the Union and shall be effectively enforced⁸.

Tables of correspondence shall be prepared according to the model as laid down in point (2) for each single approximated act and submitted in English for review by the reviewers.

If the result of the evaluation is positive for an individual measure, a group of measures, a system applicable to a sector, sub-sector, a commodity or a group of commodities, the conditions of Article 183(4) of this Agreement shall apply.

2. Tables of correspondence

2.1. When preparing tables of correspondence, the following shall be taken into consideration:

The Union acts shall serve as a basis for preparation of a table of correspondence. To this end the version in force at the time of approximation shall be used. The Republic of Moldova party shall pay particular attention to precise translation into the national language, as linguistic imprecision can give rise to disputes in particular if they concern the scope of the law⁹.

2.2. Model of table of correspondence:

⁸ For this occasion, it may be supported by the EU Member states' experts separately or in the margin of the CIB programs (twinning projects, TAIEX et cet.).

⁹ To facilitate the approximation process, consolidated versions of certain pieces of EU legislation are available at the EUR-lex web page under: http://eur-lex.europa.eu/RECH_menu.do?ihmlang=en

Elements for registration and control of geographical indications
referred to in Articles 297(1) and 297(2)

1. A register listing geographical indications protected in the territory
2. An administrative process verifying that geographical indications identify a good as originating in a territory, region or locality of one or more states, where a given quality, reputation or other characteristic of the good is essentially attributable to its geographical origin
3. A requirement that a registered name shall correspond to a specific product or products for which a product specification is laid down, which can only be amended by due administrative process
4. Control provisions applying to production
5. An objection procedure that allows the legitimate interests of prior users of names, whether those names are protected as a form of intellectual property or not, to be taken into account
6. A rule that protected names may not become generic
7. Provisions concerning the registration, which may include refusal of registration, of terms homonymous or partly homonymous with registered terms, terms customary in common language as the common name for goods, terms comprising or including the names of plant varieties and animal breeds. Such provisions shall take into account the legitimate interests of all parties concerned

ANNEX XXX-B

CRITERIA TO BE INCLUDED IN THE OBJECTION PROCEDURE FOR PRODUCTS REFERRED TO IN ARTICLES 297(3) AND 297(4)

5. Statements of objection shall be admissible only if they are received within the time-limit set out in point 4 and if they show that the protection of the name proposed would:
 - conflict with the name of a plant variety, including a wine grape variety or an animal breed and as a result is likely to mislead the consumer as to the true origin of the product;
 - conflict with a homonymous name which would mislead the consumer into believing that products come from another territory;
 - in the light of a trade mark's reputation and renown and the length of time it has been used, be liable to mislead the consumer as to the true identity of the product;
 - jeopardise the existence of an entirely or partly identical name or of a trade mark or the existence of products which have been legally on the market for at least five years preceding the date of the publication of the information notice;
 - conflict with a name that is considered generic.
6. The criteria referred to in point 5 shall be evaluated in relation to the territory of the European Union, which in the case of intellectual property rights refers only to the territory or territories where the rights are protected, or the territory of the Republic of Moldova.

ANNEX XXXI TO THIS AGREEMENT

EARLY WARNING MECHANISM

1. The Union and the Republic of Moldova establish herewith an Early Warning Mechanism with the objective to set out practical measures aimed at preventing and rapidly reacting to an emergency situation or to a threat of an emergency situation. It foresees an early evaluation of potential risks and problems related to the supply and demand of natural gas, oil or electricity and the prevention and rapid reaction in case of an emergency situation or a threat of an emergency situation.
2. For the purposes of this Annex, an emergency situation is a situation causing a significant disruption or a physical interruption of supply of natural gas, oil or electricity between the Republic of Moldova and the Union.
3. For the purposes of this Annex the Coordinators are the Minister of the Republic of Moldova in charge of Energy and the Member of the European Commission in charge of Energy.
4. Regular evaluations of potential risks and problems related to the supply and demand of energy materials and products should be undertaken jointly by the Parties to this Agreement and should be reported to the Coordinators.
5. Should one of the Parties to this Agreement become aware of an emergency situation or of a situation which, in its opinion, could lead to an emergency situation, that Party shall inform without delay the other Party.
6. Under the circumstances set out in paragraph 5, the Coordinators shall notify each other, within the shortest possible time, of the necessity to initiate the Early Warning Mechanism. The notification shall indicate, *inter alia*, designated persons that are authorised by the Coordinators to maintain permanent contact with each other.
7. Upon notification in accordance with paragraph 6, each Party shall provide the other Party with its own assessment. Such an assessment shall include an estimate of the timeframe within which the threat of an emergency situation or the emergency situation could be eliminated. The Parties shall react promptly to the assessment provided by the other Party and complement it with available additional information.
8. If one Party is unable to adequately assess or accept the other Party's assessment of the situation, or the estimated timeframe within which a threat of an emergency situation or an emergency situation may be eliminated, the corresponding Coordinator may request consultations, which are to commence within a time period not exceeding 3 days from the moment of forwarding the notification foreseen in paragraph 6. Such consultations shall take place through an Experts Group consisting of representatives authorised by the Coordinators. The consultations shall aim at:
 - (a) elaborating a common evaluation of the situation and of possible further developments;
 - (b) elaborating recommendations to eliminate the threat of an emergency situation or to overcome the emergency situation;
 - (c) elaborating recommendations on a joint action plan in order to minimise the impact of an emergency situation and, if possible, to overcome the emergency situation, including the possibility of establishing a Special Monitoring Group.
9. The consultations, common evaluations and proposed recommendations shall be based on the principles of transparency, non-discrimination and proportionality.

10. The Coordinators, within their competencies, shall work to eliminate the threat of an emergency situation or to overcome the emergency situation taking into account the recommendations that have been elaborated as the result of the consultations.

11. The Experts Group referred to in paragraph 8 shall report on its activities to the Coordinators promptly after the implementation of any agreed plan of action.

12. If an emergency situation occurs, the Coordinators may establish a Special Monitoring Group with the task of examining the on-going circumstances and development of events and keeping an objective record of them. The Group shall consist of:

- (a) representatives of both Parties;
- (b) representatives of energy companies of the Parties;
- (c) representatives of international energy organisations, proposed and mutually approved by the Parties;
- (d) independent experts proposed and mutually approved by the Parties.

13. The Special Monitoring Group shall start its work without delay and shall operate, as necessary, until the emergency situation has been solved. A decision on the termination of the work of the Special Monitoring Group shall be taken jointly by the Coordinators.

14. From the moment in which a Party informs the other Party of the circumstances described in paragraph 5, and until the completion of the procedures set out in this Annex and the elimination of the threat of an emergency situation or the resolution of the emergency situation, the Parties will do their utmost to minimise negative consequences for the other Party. The Parties shall cooperate with the aim to reach an immediate solution in a spirit of transparency. The Parties shall refrain from any actions unrelated to the on-going emergency situation that could create or deepen the negative consequences for the supply of natural gas, oil or electricity between the Republic of Moldova and the Union.

15. Each Party independently carries the costs relating to the actions in the framework of this Annex.

16. The Parties shall maintain in confidence all information exchanged between them that is designated as being of a confidential nature. The Parties shall take any necessary measures to protect confidential information on the basis of the relevant legal and normative acts of the Republic of Moldova, or the European Union and/ or its Member States, as applicable, or of the Union, as well as in accordance with applicable international agreements and conventions.

17. The Parties may invite, by mutual agreement, representatives of third parties to take part in the consultations or monitoring referred to in paragraphs 8 and 12.

18. The Parties may agree to adapt the provisions of this Annex in view of establishing an early warning mechanism between them and other Parties.

19. A violation of this mechanism cannot serve as a basis for dispute settlement procedures under Title V (Trade and Trade-related Matters) of this Agreement. Moreover, a Party shall not rely on or introduce as evidence in such dispute settlement procedures:

- (a) positions taken or proposals made by the other Party in the course of the procedure set out in this Annex; or,
- (b) the fact that the other Party has indicated its willingness to accept a solution to the emergency situation subject to this mechanism.

ANNEX XXXII TO THIS AGREEMENT

MEDIATION MECHANISM

Article 1

Objective

The objective of this Annex is to facilitate the finding of a mutually agreed solution through a comprehensive and expeditious procedure with the assistance of a mediator.

Section 1

Procedure Under The Mediation Mechanism

Article 2

Request for Information

1. Before the initiation of the mediation procedure, a Party may request at any time in writing information regarding a measure adversely affecting trade or investment between the Parties. The Party to which such request is made shall provide, within 20 days, a written response containing its comments on the information contained in the request.
2. Where the responding Party considers that a response within 20 days is not practicable, it shall inform the requesting Party of the reasons for the delay, together with an estimate of the shortest period within which it will be able to provide its response.

Article 3

Initiation of the procedure

1. A Party may request, at any time, that the Parties enter into a mediation procedure. Such request shall be addressed to the other Party in writing. The request shall be sufficiently detailed to present clearly the concerns of the requesting Party and shall:
 - (a) identify the specific measure at issue;
 - (b) provide a statement of the alleged adverse effects that the requesting Party believes the measure has, or will have, on trade or investment between the Parties; and
 - (c) explain how the requesting Party considers that those effects are linked to the measure.
2. The mediation procedure may only be initiated by mutual agreement of the Parties. The Party to which a request pursuant to paragraph 1 is addressed shall give sympathetic consideration to the request and reply by accepting or rejecting it in writing within ten days of its receipt.

Article 4

Selection of the mediator

1. Upon launch of the mediation procedure, the Parties shall endeavour to agree on a mediator no later than 15 days after the receipt of the reply to the request referred to in Article 3 of this Annex.
2. In the event that the Parties are unable to agree on the mediator within the time frame laid down in paragraph 1, either Party may request the chair or co-chairs of the Association Committee in Trade configuration as set out in Article 438(4) of this Agreement, or their delegates, to select the mediator by lot from the list established under Article 404(1) of this Agreement. Representatives of both Parties shall be invited, with due anticipation, to be present when lots are drawn. In any event, the lot shall be carried out with the Party/Parties that is/are present.
3. The chair or co-chairs of the Association Committee in Trade configuration as set out in Article 438(4) of this Agreement, or their delegates, shall select the mediator within five working days of the request made under paragraph 2 of this Article by either Party.
4. Should the list provided for in Article 404(1) of this Agreement not be established at the time a request is made pursuant to Article 3 of this Annex, the mediator shall be drawn by lot from the individuals which have been formally proposed by one or both of the Parties.
5. A mediator shall not be a citizen of either Party, unless the Parties agree otherwise.
6. The mediator shall assist, in an impartial and transparent manner, the Parties in bringing clarity to the measure and its possible trade effects, and in reaching a mutually agreed solution. The Code of Conduct for Arbitrators and Mediators set out in Annex XXXIV to this Agreement shall apply to mediators, *mutatis mutandis*. Rules 3 through 7 (notifications) and 41 through 45 (translation and interpretation) of the Rules of Procedure of Annex XXXIII to this Agreement shall also apply, *mutatis mutandis*.

Article 5

Rules of the mediation procedure

1. Within ten days after the appointment of the mediator, the Party having invoked the mediation procedure shall present, in writing, a detailed description of the problem to the mediator and to the other Party, in particular of the operation of the measure at issue and its trade effects. Within 20 days after the date of delivery of this submission, the other Party may provide, in writing, its comments to the description of the problem. Either Party may include in its description or comments any information that it deems relevant.
2. The mediator may decide on the most appropriate way of bringing clarity to the measure concerned and its possible trade effects. In particular, the mediator may organise meetings between the Parties, consult the Parties jointly or individually, seek the assistance of or consult with relevant experts and stakeholders and provide any additional support requested by the Parties. However, before seeking the assistance of or consulting with relevant experts and stakeholders, the mediator shall consult with the Parties.
3. The mediator may offer advice and propose a solution for the consideration of the Parties which may accept or reject the proposed solution or may agree on a different solution. However, the mediator shall not advise or give comments on the consistency of the measure at issue with this Agreement.

4. The procedure shall take place in the territory of the Party to which the request was addressed, or by mutual agreement in any other location or by any other means.
5. The Parties shall endeavour to reach a mutually agreed solution within 60 days from the appointment of the mediator. Pending a final agreement, the Parties may consider possible interim solutions, especially if the measure relates to perishable goods.
6. The solution may be adopted by means of a decision of the Association Committee in Trade configuration as set out in Article 438(4) of this Agreement. Either Party may make such solution subject to the completion of any necessary internal procedures. Mutually agreed solutions shall be made publicly available. The version disclosed to the public may not contain any information that a Party has designated as confidential.
7. On request of the Parties, the mediator shall issue to the Parties, in writing, a draft factual report, providing a brief summary of (1) the measure at issue in these procedures; (2) the procedures followed; and (3) any mutually agreed solution reached as the final outcome of these procedures, including possible interim solutions. The mediator shall provide the Parties 15 days to comment on the draft report. After considering the comments of the Parties submitted within the period, the mediator shall submit, in writing, a final factual report to the Parties within 15 days. The factual report shall not include any interpretation of this Agreement.
8. The procedure shall be terminated:
 - (a) by the adoption of a mutually agreed solution by the Parties, on the date of adoption;
 - (b) by a mutual agreement of the Parties at any stage of the procedure, on the date of that agreement;
 - (c) by a written declaration of the mediator, after consultation with the Parties, that further efforts at mediation would be to no avail, on the date of that declaration; or
 - (d) by a written declaration of a Party after exploring mutually agreed solutions under the mediation procedure and after having considered any advice and proposed solutions by the mediator, on the date of that declaration.

Section 2 Implementation

Article 6 Implementation of a mutually agreed solution

1. Where the Parties have agreed to a solution, each Party shall take the measures necessary to implement the mutually agreed solution within the agreed timeframe.
2. The implementing Party shall inform the other Party in writing of any steps or measures taken to implement the mutually agreed solution.

Section 3
General Provisions

Article 7

Confidentiality and relationship to dispute settlement

1. Unless the Parties agree otherwise, and without prejudice to Article 5(6) of this Annex, all steps of the procedure, including any advice or proposed solution, are confidential. However, any Party may disclose to the public that mediation is taking place.
2. The mediation procedure is without prejudice to the Parties' rights and obligations under the provisions on Dispute Settlement of Chapter 14 (Dispute Settlement) of Title V (Trade and Trade-related Matters) of this Agreement or any other agreement.
3. Consultations under Chapter 14 (Dispute Settlement) of Title V (Trade and Trade-related Matters) of this Agreement are not required before initiating the mediation procedure. However, a Party should normally avail itself of the other available cooperation or consultation provisions in this Agreement before initiating the mediation procedure.
4. A Party shall not rely on or introduce as evidence in other dispute settlement procedures under this Agreement or any other agreement, nor shall a panel take into consideration:
 - (a) positions taken by the other Party in the course of the mediation procedure or information gathered under Articles 5(1) and 5(2) of this Annex;
 - (b) the fact that the other Party has indicated its willingness to accept a solution to the measure subject to mediation; or
 - (c) advice given or proposals made by the mediator.
5. A mediator may not serve as a panellist in a dispute settlement proceeding under this Agreement or under the WTO Agreement involving the same matter for which he or she has been a mediator.

Article 8

Time limits

Any time limit referred to in this Annex may be modified by mutual agreement between the Parties involved in these procedures.

Article 9

Costs

1. Each Party shall bear its own expenses derived from its participation in the mediation procedure.
2. The Parties shall share jointly and equally the expenses derived from organisational matters, including the remuneration and expenses of the mediator. The remuneration of the mediator shall be in accordance with that foreseen for the Chairperson of an arbitration Panel in Rule 8(e) of the Rules of Procedure.

10. The complaining Party shall deliver its initial written submission no later than 20 days after the date of establishment of the arbitration panel. Working of arbitration panels

11. The chairperson of the arbitration panel shall preside at all its meetings. An arbitration panel may delegate to the chairperson authority to make administrative and procedural decisions.

12. Unless otherwise provided in Chapter 14 (Dispute settlement) of Title V (Trade and Trade-related Matters) of this Agreement, the arbitration panel may conduct its activities by any means, including telephone, facsimile transmissions or computer links.

13. Only arbitrators may take part in the deliberations of the arbitration panel, but the arbitration panel may permit its assistants to be present at its deliberations.

14. The drafting of any ruling shall remain the exclusive responsibility of the arbitration panel and shall not be delegated.

15. Where a procedural question arises that is not addressed by the provisions of Chapter 14 (Dispute settlement) of Title V (Trade and Trade-related Matters) of this Agreement and its annexes, the arbitration panel, after consulting the Parties, may adopt an appropriate procedure that is compatible with those provisions.

16. When the arbitration panel considers that there is a need to modify any of the time limits for its proceedings other than the time-limits set out in Chapter 14 (Dispute settlement) of Title V (Trade and Trade-related Matters) of this Agreement or to make any other procedural or administrative adjustment, it shall inform the Parties to the dispute in writing of the reasons for the change or adjustment and of the period of time or adjustment needed.

Replacement

17. If in an arbitration proceeding an arbitrator is unable to participate, withdraws, or must be replaced because she or he does not comply with the requirements of the Code of Conduct, as set out in Annex XXXIV to this Agreement, a replacement shall be selected in accordance with Article 385 of this Agreement and rule 8 of these Rules.

18. Where a Party to the dispute considers that an arbitrator does not comply with the requirements of the Code of Conduct and for this reason should be replaced, this Party shall notify the other Party to the dispute within 15 days from the time at which it obtained evidence of the circumstances underlying the arbitrator's material violation of the Code of Conduct.

19. Where a Party to the dispute considers that an arbitrator other than the chairperson does not comply with the requirements of the Code of Conduct, the Parties to the dispute shall consult and, if they so agree, select a new arbitrator in accordance with Article 385 of this Agreement and rule 8 of these Rules.

If the Parties to the dispute fail to agree on the need to replace an arbitrator, any Party to the dispute may request that such matter be referred to the chairperson of the arbitration panel, whose decision shall be final.

If, pursuant to such a request, the chairperson finds that an arbitrator does not comply with the requirements of the Code of Conduct, the new arbitrator shall be selected in accordance with Article 385 of this Agreement and rule 8 of these Rules.

20. Where a Party considers that the chairperson of the arbitration panel does not comply with the requirements of the Code of Conduct, the Parties shall consult and, if they so agree, select a new chairperson in accordance with Article 385 of this Agreement and rule 8 of these Rules.

If the Parties fail to agree on the need to replace the chairperson, any Party may request that such matter be referred to one of the remaining members of the pool of individuals from the sub-list of chairpersons established under paragraph 1 of Article 404 of this Agreement. Her or his name shall be drawn by lot by the chair of the Association Committee in Trade configuration as set out in Article 438(4) of this Agreement, or the chair's delegate within five days from the request. The decision by this person on the need to replace the chairperson shall be final.

If this person decides that the original chairperson does not comply with the requirements of the Code of Conduct, she or he shall select a new chairperson by lot among the remaining pool of individuals from the sub-list of chairpersons referred to under Article 404(1) of this Agreement. The selection of the new chairperson shall be done within five days of the date of the submission of the date of the decision abovementioned.

21. The arbitration panel proceedings shall be suspended for the period taken to carry out the procedures provided for in rules 18, 19 and 20 of these Rules.

Hearings

22. The chairperson of the arbitration panel shall fix the date and time of the hearing in consultation with the Parties to the dispute and the other arbitrators, and shall confirm this in writing to the Parties to the dispute. This information shall also be made publicly available by the Party in charge of the logistical administration of the proceedings, unless the hearing is closed to the public. Unless a Party disagrees, the arbitration panel may decide not to convene a hearing.

23. Unless the Parties agree otherwise, the hearing shall be held in Brussels if the complaining Party is the Republic of Moldova, and in Chisinau if the complaining Party is the European Union.

24. The arbitration panel may convene additional hearings, if the Parties so agree.

25. All arbitrators shall be present during the entirety of any hearings.

26. The following persons may attend the hearing, irrespective of whether the proceedings are open to the public or not:

- (a) representatives of the Parties to the dispute;
- (b) advisers to the Parties to the dispute;
- (c) administrative staff, interpreters, translators and court reporters; and
- (d) arbitrators' assistants.

Only the representatives and advisers of the Parties to the dispute may address the arbitration panel.

The list is composed of the following elements:

- (a) A list of horizontal reservations applying to all sectors or sub-sectors.
- (b) A list of sector or sub-sector specific reservations indicating the sector or sub-sector concerned along with the reservation(s) applying.

A reservation corresponding to an activity which is not liberalised (Unbound) is expressed as follows: "No national treatment and most favoured nation treatment obligations".

When a reservation under (a) or (b) only includes Member State-specific reservations, Member States not mentioned therein undertake the obligations of 205(2) of this Agreement in the sector concerned without reservations (the absence of Member State-specific reservations in a given sector is without prejudice to horizontal reservations or to sectoral Union-broad reservations that may apply).

2. In accordance with Article 202(3) of this Agreement, the list below does not include measures concerning subsidies granted by the Parties
3. The rights and obligations arising from the list below shall have no self-executing effect and thus confer no rights directly on natural or legal persons.
4. In accordance with Article 205 of this Agreement, non-discriminatory requirements, such as those concerning the legal form or the obligation to obtain licences or permits applicable to all providers operating on the territory without distinction based on nationality, residency or equivalent criteria, are not listed in this Annex as they are not prejudiced by the Agreement.
5. Where the Union maintains a reservation that requires that a service supplier be a national, permanent resident or resident of its territory as a condition to the supply of a service in its territory, a reservation listed in Annex XXVII-C to this Agreement shall operate as a reservation with respect to establishment under this Annex, to the extent applicable.

Horizontal reservations

Public utilities

EU: Economic activities considered as public utilities at a national or local level may be subject to public monopolies or to exclusive rights granted to private operators¹¹.

Types of establishment

EU: Treatment accorded to subsidiaries (of Moldovan companies) formed in accordance with the law of the Member States of the European Union and having their registered office, central administration or principal place of business within the Union is not extended to branches or agencies established in the Member States of the European Union by Moldovan companies.¹²

AT: Managing directors of branches of juridical persons must be resident in Austria; natural persons responsible within a juridical person or a branch for the observance of the Austrian Trade Act must have a domicile in Austria.

EE: At least half of the members of the management board shall have their residence in the European Union.

FI: A foreigner carrying on trade as a private entrepreneur and at least one of the partners in a general partnership or of general partners in a limited partnership have to be permanently resident in the European Economic Area (EEA). For all sectors, EEA residency is required for at least one of the ordinary and deputy members of the board of directors and the managing director; however exemptions may be granted to certain companies. If a Moldovan organization intends to carry on business or trade by establishing a branch in Finland, a trade permit is required.

HU: No national treatment and most favoured nation treatment obligations for the acquisition of state owned properties.

IT: Access to industrial, commercial and artisanal activities may be subject to a residence permit.

PL: Moldovan investors can undertake and conduct economic activity only in the form of a limited partnership, limited joint-stock partnership, limited liability company, and joint-stock company (in the case of legal services only in the form of registered partnership and limited partnership).

The majority of the commercial companies' auditors and their deputies shall be Romanian citizens.

¹¹ Public utilities exist in sectors such as related scientific and technical consulting services, R&D services on social sciences and humanities, technical testing and analysis services, environmental services, health services, transport services and services auxiliary to all modes of transport. Exclusive rights on such services are often granted to private operators, for instance operators with concessions from public authorities, subject to specific service obligations. Given that public utilities often also exist at the sub-central level, detailed and exhaustive sector-specific scheduling is not practical. This reservation does not apply to telecommunications and to computer and related services.

¹² In accordance with Article 54 of the TFEU, these subsidiaries are considered as juridical persons of the European Union. To the extent that they have a continuous and effective link with the economy of the European Union, they are beneficiaries of the Union's Internal Market, which includes, *inter alia*, the freedom to establish and to provide services in all Member States of the European Union.

A Swedish limited liability company may be established by a natural person resident within the EEA, by a Swedish legal person or by a legal person that has been formed according to the legislation in a state within the EEA and that has its registered office, headquarters or principal place of business within the EEA. A partnership may be a founder, only if all owners with unlimited personal liability are resident within the EEA. Founders outside the EEA may apply for permission from the competent authority. For limited liability companies and co-operative economic associations, at least 50 % of the members of the board of directors, at least 50% of the deputy board members, the managing director, the vice-managing director, the deputy board members and at least one of the persons authorized to sign for the company, if any, must reside within the EEA. The competent authority may grant exemptions from this requirement. If none of the company's/society's representatives reside in Sweden, the board must appoint and register a person resident in Sweden, who has been authorised to receive servings on behalf of the company/society. Corresponding conditions prevail for establishment of all other types of legal entities.

⁶² Includes legal advisory services, legal representational services, legal arbitration and conciliation/mediation services, and legal documentation and certification services.

Provision of legal services is only authorised in respect of public international law, EU law and the law of any jurisdiction where the service supplier or its personnel is qualified to practice as a lawyer, and, like the provision of other services, is subject to licensing requirements and procedures applicable in the Member States of the EU. For lawyers providing legal services in respect of public international law and foreign law, these licensing requirements and procedures may take, *inter alia*, the form of compliance with local codes of ethics, use of home title (unless recognition with the host title has been obtained), insurance requirements, simple registration with the host country Bar or a simplified admission to the host country Bar through an aptitude test and a legal or professional domicile in the host country. Legal services in respect of EU law shall in principle be carried out by or through a fully qualified lawyer admitted to the Bar in a Member State of the EU acting personally, and legal services in respect of the law of a Member State of the EU shall in principle be carried out by or through a fully qualified lawyer admitted to the Bar in that Member State acting personally. Full admission to the Bar in the relevant Member State of the EU might therefore be necessary for representation before courts and other competent authorities in the Union since it involves practice of EU and national procedural law. However, in some Member States, foreign lawyers not fully admitted to the Bar are allowed to represent in civil proceedings a party being a national of or belonging to the State in which the lawyer is entitled to practice.

- (b) products obtained in a Party incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in the Party concerned within the meaning of Article 5.

ARTICLE 3

Cumulation of origin

Notwithstanding Article 2, products shall be considered as originating in a Party if such products are obtained there by incorporating materials originating in the other Party, provided that the working or processing carried out goes beyond the operations referred to in Article 6 while it shall not be necessary that the materials of the other Party have undergone sufficient working or processing.

ARTICLE 4

Wholly obtained products

1. The following shall be considered as wholly obtained in a Party:
 - (a) mineral products extracted from its soil or from its seabed;
 - (b) vegetable products harvested there;
 - (c) live animals born and raised there;

ARTICLE 5

Sufficiently worked or processed products

1. For the purposes of Article 2, products which are not wholly obtained shall be considered to be sufficiently worked or processed when the conditions set out in the list in Annex II to this Protocol are fulfilled.

The conditions referred to above indicate the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. It follows that if a product which has acquired originating status by fulfilling the conditions set out in the list is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

2. Notwithstanding paragraph 1, non-originating materials which, according to the conditions set out in the list in Annex II to this Protocol, should not be used in the manufacture of a product may nevertheless be used, provided that:

- (a) their total value does not exceed 10 % of the ex-works price of the product;
- (b) any of the percentages given in the list for the maximum value of non-originating materials are not exceeded by virtue of this paragraph.

This paragraph shall not apply to products falling within Chapters 50 to 63 of the Harmonised System.

3. Paragraphs 1 and 2 shall apply subject to the provisions of Article 6.

ARTICLE 6

Insufficient working or processing

1. Without prejudice to paragraph 2, the following operations shall be considered as insufficient working or processing to confer the status of originating products, whether or not the requirements of Article 5 are satisfied:

2. All operations carried out in a Party on a given product shall be considered together when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

ARTICLE 7

Unit of qualification

1. The unit of qualification for the application of the provisions of this Protocol shall be the particular product which is considered as the basic unit when determining classification using the nomenclature of the Harmonised System.

It follows that:

(a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonised System in a single heading, the whole constitutes the unit of qualification;

(b) when a consignment consists of a number of identical products classified under the same heading of the Harmonised System, each product must be taken individually when applying the provisions of this Protocol.

2. Where, under General Rule 5 of the Harmonised System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

ARTICLE 8

Accessories, spare parts and tools

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

ARTICLE 9

Sets

Sets, as defined in General Rule 3 of the Harmonised System, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15 % of the ex-works price of the set.

ARTICLE 10

Neutral elements

In order to determine whether a product is an originating product, it shall not be necessary to determine the origin of the following which might be used in its manufacture:

(a) energy and fuel;

(b) plant and equipment;

(c) machines and tools;

(d) goods which neither enter into the final composition of the product nor are intended to do so.

TITLE III

Principle of territoriality

1. Except as provided for in Article 3 and paragraph 3 of this Article the conditions for acquiring originating status set out in Title II shall be fulfilled without interruption in a Party.
2. Except as provided for in Article 3, where originating goods exported from a Party to another country return, they shall be considered as non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:
 - (a) the returning goods are the same as those exported; and
 - (b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that country or while being exported.
3. The acquisition of originating status in accordance with the conditions set out in Title II shall not be affected by working or processing done outside a Party on materials exported from the Party and subsequently reimported there, provided:
 - (a) the said materials are wholly obtained in the Party or have undergone working or processing beyond the operations referred to in Article 6 prior to being exported;
and
 - (b) it can be demonstrated to the satisfaction of the customs authorities that:
 - (i) the re-imported goods have been obtained by working or processing the exported materials;
and
 - ii) the total added value acquired outside the Party by applying the provisions of this Article does not exceed 10 % of the ex-works price of the end-product for which originating status is claimed.
4. For the purposes of paragraph 3, the conditions for acquiring originating status set out in Title II shall not apply to working or processing done outside a Party. But where, in the list in Annex II to this Protocol, a rule setting a maximum value for all the non-originating materials incorporated is applied in determining the originating status of the end-product, the total value of the non-originating materials incorporated in the territory of the party concerned, taken together with the total added value acquired outside the Party by applying the provisions of this Article, shall not exceed the stated percentage.
5. For the purposes of applying the provisions of paragraphs 3 and 4, “total added value” shall be taken to mean all costs arising outside a Party, including the value of the materials incorporated there.
6. The provisions of paragraphs 3 and 4 shall not apply to products which do not fulfil the conditions set out in the list in Annex II or which can be considered sufficiently worked or processed only if the general tolerance fixed in Article 5(2) is applied.

7. The provisions of paragraphs 3 and 4 shall not apply to products of Chapters 50 to 63 of the Harmonised System.

8. Any working or processing of the kind covered by the provisions of this Article and done outside a Party shall be done under the outward processing arrangements, or similar arrangements.

ARTICLE 12

Direct transport

1. The preferential treatment provided for under the relevant Agreement shall apply only to products satisfying the requirements of this Protocol which are transported directly between the Parties. However, products constituting one single consignment may be transported through other territories with, should the occasion arise, trans-shipment or temporary warehousing in such territories, provided that they remain under the surveillance of the customs authorities in the country of transit or warehousing and do not undergo operations other than unloading, reloading or any operation designed to preserve them in good condition.

Originating products may be transported by pipeline across territory other than that of the Parties acting as exporting and importing parties.

2. Evidence that the conditions set out in paragraph 1 have been fulfilled shall be supplied to the customs authorities of the importing Party by the production of:

- (a) a single transport document covering the passage from the exporting Party through the country of transit; or
- (b) a certificate issued by the customs authorities of the country of transit:
 - (i) giving an exact description of the products;
 - (ii) stating the dates of unloading and reloading of the products and, where applicable, the names of the ships, or the other means of transport used; and
 - (iii) certifying the conditions under which the products remained in the transit country; or
- (c) failing these, any substantiating documents.

ARTICLE 13

Exhibitions

1. Originating products, sent for exhibition in a country other than a Party and sold after the exhibition for importation in a Party, shall benefit on importation from the provisions of the relevant Agreement provided it is shown to the satisfaction of the customs authorities that:

- (a) an exporter has consigned these products from a Party to the country in which the exhibition is held and has exhibited them there;
- (b) the products have been sold or otherwise disposed of by that exporter to a person in a Party;

(c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition; and

(d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.

2. A proof of origin shall be issued or made out in accordance with the provisions of Title V and submitted to the customs authorities of the importing Party in the normal manner. The name and address of the exhibition shall be indicated thereon. Where necessary, additional documentary evidence of the conditions under which they have been exhibited may be required.

3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organised for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

TITLE IV

DRAWBACK OR EXEMPTION

ARTICLE 14

Prohibition of drawback of, or exemption from, customs duties

1. Non-originating materials used in the manufacture of products originating in a Party for which a proof of origin is issued or made out in accordance with the provisions of Title V shall not be subject in the Party to drawback of, or exemption from, customs duties of whatever kind.

2. The prohibition in paragraph 1 shall apply to any arrangement for refund, remission or non-payment, partial or complete, of customs duties or charges having an equivalent effect, applicable in a Party to materials used in the manufacture, where such refund, remission or non-payment applies, expressly or in effect, when products obtained from the said materials are exported and not when they are retained for home use there.

3. The exporter of products covered by a proof of origin shall be prepared to submit at any time, upon request from the customs authorities, all appropriate documents proving that no drawback has been obtained in respect of the non-originating materials used in the manufacture of the products concerned and that all customs duties or charges having equivalent effect applicable to such materials have actually been paid.

4. The provisions of paragraphs 1, 2 and 3 of this Article shall also apply in respect of packaging within the meaning of Article 7(2), accessories, spare parts and tools within the meaning of Article 8 and products in a set within the meaning of Article 9 when such items are non-originating.

5. The provisions of paragraphs 1 to 4 shall apply only in respect of materials which are of the kind to which this Protocol applies.

TITLE V
PROOF OF ORIGIN

ARTICLE 15

General requirements

1. Products originating in a Party shall, on importation into the other Party, benefit from the provisions of the relevant Agreements upon submission of one of the following proofs of origin:

(a) a movement certificate EUR.1, a specimen of which appears in Annex III to this Protocol;

(b) in the cases specified in Article 21(1), a declaration (hereinafter referred to as the "origin declaration") given by the exporter on an invoice, a delivery note or any other commercial document which describes the products concerned in sufficient detail to enable them to be identified. The text of the origin declaration appears in Annex IV to this Protocol.

2. Notwithstanding paragraph 1, originating products within the meaning of this Protocol shall, in the cases specified in Article 26, benefit from the provisions of this Agreements without it being necessary to submit any of the proofs of origin referred to in paragraph 1 of this Article.

ARTICLE 16

Procedure for the issue of a movement certificate EUR.1

1. A movement certificate EUR.1 shall be issued by the customs authorities of the exporting Party on application having been made in writing by the exporter or, under the exporter's responsibility, by his authorised representative.

2. For this purpose, the exporter or his authorised representative shall fill in both the movement certificate EUR.1 and the application form, specimens of which appear in the Annex III to this Protocol. These forms shall be completed in one of the languages in which the relevant Agreement is drawn up and in accordance with the provisions of the national law of the exporting country. If the completion of the forms is done in handwriting, they shall be completed in ink in printed characters. The description of the products shall be given in the box reserved for this purpose without leaving any blank lines. Where the box is not completely filled, a horizontal line shall be drawn below the last line of the description, the empty space being crossed through.

3. The exporter applying for the issue of a movement certificate EUR.1 shall be prepared to submit at any time, at the request of the customs authorities of the exporting Party where the movement certificate EUR.1 is issued, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.

4. Without prejudice to paragraph 5, a movement certificate EUR.1 shall be issued by the customs authorities of a Member State of the European Union or of the Republic of Moldova if the products concerned can be considered as products

originating in the European Union or in the Republic of Moldova and fulfil the other requirements of this Protocol.

5. The customs authorities issuing movement certificates EUR.1 shall take any steps necessary to verify the originating status of the products and the fulfilment of the other requirements of this Protocol. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. They shall also ensure that the forms referred to in paragraph 2 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.

6. The date of issue of the movement certificate EUR.1 shall be indicated in Box 11 of the certificate.

7. A movement certificate EUR.1 shall be issued by the customs authorities and made available to the exporter as soon as actual exportation has been effected or ensured.

ARTICLE 17

Movement certificates EUR.1 issued retrospectively

1. Notwithstanding Article 16(7), a movement certificate EUR.1 may exceptionally be issued after exportation of the products to which it relates if:

(a) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances; or

(b) it is demonstrated to the satisfaction of the customs authorities that a movement certificate EUR.1 was issued but was not accepted at importation for technical reasons.

2. For the implementation of paragraph 1, the exporter shall indicate in his application the place and date of exportation of the products to which the movement certificate EUR.1 relates, and state the reasons for his request.

3. The customs authorities may issue a movement certificate EUR.1 retrospectively only after verifying that the information supplied in the exporter's application complies with that in the corresponding file.

4. Movement certificates EUR.1 issued retrospectively shall be endorsed with the following phrase in English:

"ISSUED RETROSPECTIVELY"

5. The endorsement referred to in paragraph 4 shall be inserted in Box 7 of the movement certificate EUR.1.

ARTICLE 18

Issue of a duplicate movement certificate EUR.1

1. In the event of theft, loss or destruction of a movement certificate EUR.1, the exporter may apply to the customs authorities which issued it for a duplicate made out on the basis of the export documents in their possession.

2. The duplicate issued in this way shall be endorsed with the following word in English:

"DUPLICATE"

3. The endorsement referred to in paragraph 2 shall be inserted in Box 7 of the duplicate movement certificate EUR.1.

4. The duplicate, which shall bear the date of issue of the original movement certificate EUR.1, shall take effect as from that date.

ARTICLE 19

Issue of movement certificates EUR.1 on the basis of a proof of origin issued or made out previously

When originating products are placed under the control of a customs office in a Party, it shall be possible to replace the original proof of origin by one or more movement certificates EUR.1 for the purpose of sending all or some of these products elsewhere within that Party. The replacement movement certificate(s) EUR.1 shall be issued by the customs office under whose control the products are placed.

ARTICLE 20

Accounting segregation

1. Where considerable cost or material difficulties arise in keeping separate stocks of originating and non-originating materials which are identical and interchangeable, the customs authorities may, at the written request of those concerned, authorise the so-called "accounting segregation" method (hereinafter referred to as the "method") to be used for managing such stocks.

2. The method shall ensure that, for a specific reference period, the number of products obtained which could be considered as "originating" is the same as that which would have been obtained had there been physical segregation of the stocks.

3. The customs authorities may make the grant of authorisation referred to in paragraph 1 subject to any conditions deemed appropriate.

4. The method shall be applied and the application thereof shall be recorded on the basis of the general accounting principles applicable in the country where the product was manufactured.

5. The beneficiary of the method may make out or apply for proofs of origin, as the case may be, for the quantity of products which may be considered as originating. At the request of the customs authorities, the beneficiary shall provide a statement of how the quantities have been managed.

6. The customs authorities shall monitor the use made of the authorisation and may withdraw it whenever the beneficiary makes improper use of the authorisation in any manner whatsoever or fails to fulfil any of the other conditions laid down in this Protocol.

ARTICLE 21

Conditions for making out an origin declaration

1. An origin declaration as referred to in Article 15(1)(b) may be made out:
 - (a) by an approved exporter within the meaning of Article 22, or
 - (b) by any exporter for any consignment consisting of one or more packages containing originating products the total value of which does not exceed EUR 6 000.
2. Without prejudice to paragraph 3, an origin declaration may be made out if the products concerned can be considered as products originating in the European Union or in the Republic of Moldova and fulfil the other requirements of this Protocol.
3. The exporter making out an origin declaration shall be prepared to submit at any time, at the request of the customs authorities of the exporting Party, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.
4. An origin declaration shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the text of which appears in Annex IV, using one of the linguistic versions set out in that Annex and in accordance with the provisions of the national law of the exporting country. If the declaration is handwritten, it shall be written in ink in printed characters.
5. Origin declarations shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 22 shall not be required to sign such declarations provided that he gives the customs authorities of the exporting Party a written undertaking that he accepts full responsibility for any origin declaration which identifies him as if it had been signed in manuscript by him.
6. An origin declaration may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented in the importing country at the latest two years after the importation of the products to which it relates.

ARTICLE 22

Approved exporter

1. The customs authorities of the exporting Party may authorise any exporter (hereinafter referred to as "approved exporter"), who makes frequent shipments of products in accordance to the provisions of this Protocol to make out origin declarations irrespective of the value of the products concerned. An exporter seeking such authorisation shall offer to the satisfaction of the customs authorities all guarantees necessary to verify the originating status of the products as well as the fulfilment of the other requirements of this Protocol.
2. The customs authorities may grant the status of approved exporter subject to any conditions which they consider appropriate.
3. The customs authorities shall grant to the approved exporter a customs authorisation number which shall appear on the origin declaration.

4. The customs authorities shall monitor the use of the authorisation by the approved exporter.

5. The customs authorities may withdraw the authorisation at any time. They shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 1, no longer fulfils the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorisation.

ARTICLE 23

Validity of proof of origin

1. A proof of origin shall be valid for four months from the date of issue in the exporting Party, and shall be submitted within that period to the customs authorities of the importing Party.

2. Proofs of origin which are submitted to the customs authorities of the importing Party after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.

3. In other cases of belated presentation, the customs authorities of the importing Party may accept the proofs of origin where the products have been submitted before the said final date.

ARTICLE 24

Submission of proof of origin

Proofs of origin shall be submitted to the customs authorities of the importing Party in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of the relevant Agreement.

ARTICLE 25

Importation by instalments

Where, at the request of the importer and subject to the conditions laid down by the customs authorities of the importing Party, dismantled or non-assembled products within the meaning of General Rule 2(a) of the Harmonised System falling within Sections XVI and XVII or headings 7308 and 9406 of the Harmonised System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

ARTICLE 26

Exemptions from proof of origin

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products

without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Protocol and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, that declaration may be made on the customs declaration CN22/CN23 or on a sheet of paper annexed to that document.

2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.

3. Furthermore, the total value of these products shall not exceed EUR 500 in the case of small packages or EUR 1 200 in the case of products forming part of travellers' personal luggage.

ARTICLE 27

Supporting documents

The documents referred to in Articles 16(3) and 21(3) used for the purpose of proving that products covered by a movement certificate EUR.1 or an origin declaration may be considered as products originating in a Party and fulfil the other requirements of this Protocol may consist inter alia of the following:

- (1) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal bookkeeping;
- (2) documents proving the originating status of materials used, issued or made out in the relevant Party where these documents are used in accordance with national law;
- (3) documents proving the working or processing of materials in the relevant Party, issued or made out in the relevant Party, where these documents are used in accordance with national law;
- (4) movement certificates EUR.1 or origin declarations proving the originating status of materials used, issued or made out in the relevant Party in accordance with this Protocol;
- (5) appropriate evidence concerning working or processing undergone outside the relevant Party by application of Article 11, proving that the requirements of that Article have been satisfied.

ARTICLE 28

Preservation of proof of origin and supporting documents

1. The exporter applying for the issue of a movement certificate EUR.1 shall keep for at least three years the documents referred to in Article 16(3).

2. The exporter making out an origin declaration shall keep for at least three years a copy of this origin declaration as well as the documents referred to in Article 21(3).

3. The customs authorities of the exporting Party issuing a movement certificate EUR.1 shall keep for at least three years the application form referred to in Article 16(2).

4. The customs authorities of the importing Party shall keep for at least three years the movement certificates EUR.1 and the origin declarations submitted to them.

ARTICLE 29

Discrepancies and formal errors

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not ipso facto render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.

2. Obvious formal errors such as typing errors on a proof of origin shall not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

ARTICLE 30

Amounts expressed in euro

1. For the application of the provisions of Article 21(1)(b) and Article 26(3) in cases where products are invoiced in a currency other than euro, amounts in the national currencies of the Parties equivalent to the amounts expressed in euro shall be fixed annually by each of the countries concerned.

2. A consignment shall benefit from the provisions of Article 21(1)(b) or Article 26(3) by reference to the currency in which the invoice is drawn up, according to the amount fixed by the country concerned.

3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in euro as at the first working day of October. The amounts shall be communicated to the European Commission by 15 October and shall apply from 1 January the following year. The European Commission shall notify all countries concerned of the relevant amounts.

4. A country may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5 %. A country may retain unchanged its national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15 % in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion were to result in a decrease in that equivalent value.

5. The amounts expressed in euro shall be reviewed by the Customs Sub-Committee at the request of any Party. When carrying out this review, the Customs Sub-Committee shall consider the desirability of preserving the effects of the limits

concerned in real terms. For this purpose, it may decide to modify the amounts expressed in euro.

TITLE VI

ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION

ARTICLE 31

Administrative cooperation

1. The customs authorities of the Parties shall provide each other, through the European Commission, with specimen impressions of stamps used in their customs offices for the issue of movement certificates EUR.1, and with the addresses of the customs authorities responsible for verifying those certificates and origin declarations.
2. In order to ensure the proper application of this Protocol, the Parties shall assist each other, through the competent customs administrations, in checking the authenticity of the movement certificates EUR.1, the origin declarations and the correctness of the information given in these documents.

ARTICLE 32

Verification of proofs of origin

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities of the importing Party have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Protocol.
2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing Party shall return the movement certificate EUR.1 and the invoice, if it has been submitted, the origin declaration, or a copy of these documents, to the customs authorities of the exporting Party giving, where appropriate, the reasons for the request for verification. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.
3. The verification shall be carried out by the customs authorities of the exporting Party. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.
4. If the customs authorities of the importing Party decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.
5. The customs authorities requesting the verification shall be informed of the results thereof as soon as possible. These results shall indicate clearly whether the documents are authentic and whether the products concerned may be considered as products originating in a Party and fulfil the other requirements of this Protocol.

6. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

ARTICLE 33

Dispute settlement

1. Where disputes arise in relation to the verification procedures of Article 32 which cannot be settled between the customs authorities requesting a verification and the customs authorities responsible for carrying out this verification, those disputes shall be submitted to the Association Committee in Trade configurations set out in Article 405(4) of this Agreement. Chapter 14 (Dispute Settlement) of Title IV (Trade and Trade-related Matters) of this Agreement shall not apply.

2. Where disputes other than those related to the verification procedures of Article 32 arise in relation to the interpretation of this Protocol, those disputes shall be submitted to the Customs Sub-Committee. A dispute settlement proceeding under Chapter 14 (Dispute Settlement) of Title IV (Trade and Trade-related Matters) of this Agreement may only be initiated, if the Customs Sub-Committee has failed to resolve the dispute within six months from the date on which the dispute was submitted to the Customs Sub-Committee.

3. In all cases the settlement of disputes between the importer and the customs authorities of the importing Party shall take place under the legislation of the said Party.

ARTICLE 34

Penalties

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

ARTICLE 35

Free zones

1. The Parties shall take all necessary steps to ensure that products traded under cover of a proof of origin, which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.

2. By way of derogation from paragraph 1, when products originating in a Party are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new movement certificate EUR.1 at the exporter's request, if the treatment or processing undergone complies with this Protocol.

TITLE VII
CEUTA AND MELILLA

Article 36

Application of this Protocol

1. The term "European Union" does not cover Ceuta and Melilla.
2. Products originating in the Republic of Moldova, when imported into Ceuta or Melilla, shall enjoy in all respects the same customs regime as that which is applied to products originating in the customs territory of the European Union under Protocol 2 of the Act of Accession of the Kingdom of Spain and the Portuguese Republic to the European Union. The Republic of Moldova shall grant to imports of products covered by the Agreement and originating in Ceuta and Melilla the same customs regime as that which is granted to products imported from and originating in the European Union.
3. For the purpose of the application of paragraph 2 concerning products originating in Ceuta and Melilla, this Protocol shall apply *mutatis mutandis* subject to the special conditions set out in Article 37.

Article 37

Special conditions

1. Provided that they have been transported directly in accordance with the provisions of Article 12, the following shall be considered as:
 - (1) products originating in Ceuta and Melilla:
 - (a) products wholly obtained in Ceuta and Melilla;
 - (b) products obtained in Ceuta and Melilla in the manufacture of which products other than those referred to in (a) are used, provided that:
 - (i) the said products have undergone sufficient working or processing within the meaning of Article 5;
or that
 - (ii) those products are originating in a Party, provided that they have been submitted to working or processing which goes beyond the operations referred to in Article 6.
 - (2) products originating in the Republic of Moldova:
 - (a) products wholly obtained in the Republic of Moldova;
 - (b) products obtained in the Republic of Moldova, in the manufacture of which products other than those referred to in (a) are used, provided that:
 - (i) the said products have undergone sufficient working or processing within the meaning of Article 5;
or that

(ii) those products are originating in Ceuta and Melilla or in the European Union, provided that they have been submitted to working or processing which goes beyond the operations referred to in Article 6.

2. Ceuta and Melilla shall be considered as a single territory.
3. The exporter or his authorised representative shall enter "Republic of Moldova" and "Ceuta and Melilla" in Box 2 of movement certificates EUR.1 or on origin declarations. In addition, in the case of products originating in Ceuta and Melilla, this shall be indicated in Box 4 of movement certificates EUR.1 or on origin declarations.
4. The Spanish customs authorities shall be responsible for the application of this Protocol in Ceuta and Melilla.

TITLE VIII FINAL PROVISIONS

Article 38

Amendments to this Protocol

The Customs Sub-Committee may decide to amend the provisions of this Protocol.

Article 39

Transitional provisions for goods in transit or storage

The provisions of this Agreement may be applied to goods which comply with the provisions of this Protocol and which on the date of entry into force of this Agreement are either in transit, in the Parties, in temporary storage in customs warehouses or in free zones, subject to the submission to the customs authorities of the importing Party, within four months of that date, of a proof of origin made out retrospectively together with the documents showing that the goods have been transported directly in accordance with Article 12.

ANNEX I

INTRODUCTORY NOTES TO THE LIST IN ANNEX II

Note 1:

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 5 of this Protocol.

Note 2:

- 2.1. The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonised System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns, a rule is specified in column 3 or 4. Where, in some cases, the entry in the first column is preceded by an "ex", this signifies that the rules in column 3 or 4 apply only to the part of that heading as described in column 2.
- 2.2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in column 3 or 4 apply to all products which, under the Harmonised System, are classified in headings of the chapter or in any of the headings grouped together in column 1.
- 2.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column 3 or 4.
- 2.4. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 is to be applied.

Note 3:

- 3.1. The provisions of Article 5 of this Protocol, concerning products having acquired originating status which are used in the manufacture of other products, shall apply regardless of whether this status has been acquired inside the factory where these products are used or in another factory in a Party.

Example:

An engine of heading 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 % of the ex-works price, is made from "other alloy steel roughly shaped by forging" of heading ex 7224.

If this forging has been forged in the European Union from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading ex 7224 in the list. The forging can then count as originating in the value-calculation for the engine, regardless of whether it was produced in the same factory or in another factory in the European Union. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

- 3.2. The rule in the list represents the minimum amount of working or processing required, and the carrying-out of more working or processing also confers originating status; conversely, the carrying-out of less working or processing cannot confer originating status. Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not.
- 3.3. Without prejudice to Note 3.2, where a rule uses the expression "Manufacture from materials of any heading", then materials of any heading(s) (even materials of the same description and heading as the product) may be used, subject, however, to any specific limitations which may also be contained in the rule.

However, the expression "Manufacture from materials of any heading, including other materials of heading ..." or "Manufacture from materials of any heading, including other materials of the same heading as the product" means that materials of any heading(s) may be used, except those of the same description as the product as given in column 2 of the list.

- 3.4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that one or more materials may be used. It does not require that all be used.

Example:

The rule for fabrics of headings 5208 to 5212 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other, or both.

- 3.5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.2 below in relation to textiles).

Example:

The rule for prepared foods of heading 1904, which specifically excludes the use of cereals and their derivatives, does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

However, this does not apply to products which, although they cannot be manufactured from the particular materials specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

Example:

In the case of an article of apparel of ex Chapter 62 made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth – even if non-woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn – that is, the fibre stage.

- 3.6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating

materials used may never exceed the higher of the percentages given. Furthermore, the individual percentages must not be exceeded, in relation to the particular materials to which they apply.

Note 4:

- 4.1. The term "natural fibres" is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres which have been carded, combed or otherwise processed, but not spun.
- 4.2. The term "natural fibres" includes horsehair of heading 0511, silk of headings 5002 and 5003, as well as wool fibres and fine or coarse animal hair of headings 5101 to 5105, cotton fibres of headings 5201 to 5203, and other vegetable fibres of headings 5301 to 5305.
- 4.3. The terms "textile pulp", "chemical materials" and "paper-making materials" are used in the list to describe the materials, not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.
- 4.4. The term "man-made staple fibres" is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of headings 5501 to 5507.

Note 5:

- 5.1. Where, for a given product in the list, reference is made to this Note, the conditions set out in column 3 shall not be applied to any basic textile materials used in the manufacture of this product and which, taken together, represent 10 % or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4).
- 5.2. However, the tolerance mentioned in Note 5.1 may be applied only to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus *Agave*,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments,

- artificial man-made filaments,
- current-conducting filaments,
- synthetic man-made staple fibres of polypropylene,
- synthetic man-made staple fibres of polyester,
- synthetic man-made staple fibres of polyamide,
- synthetic man-made staple fibres of polyacrylonitrile,
- synthetic man-made staple fibres of polyimide,
- synthetic man-made staple fibres of polytetrafluoroethylene,
- synthetic man-made staple fibres of poly(phenylene sulphide),
- synthetic man-made staple fibres of poly(vinyl chloride),
- other synthetic man-made staple fibres,
- artificial man-made staple fibres of viscose,
- other artificial man-made staple fibres,
- yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped,
- yarn made of polyurethane segmented with flexible segments of polyester, whether or not gimped,
- products of heading 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film,
- other products of heading 5605.

Example:

A yarn, of heading 5205, made from cotton fibres of heading 5203 and synthetic staple fibres of heading 5506, is a mixed yarn. Therefore, non-originating synthetic staple fibres which do not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp) may be used, provided that their total weight does not exceed 10 % of the weight of the yarn.

Example:

A woollen fabric, of heading 5112, made from woollen yarn of heading 5107 and synthetic yarn of staple fibres of heading 5509, is a mixed fabric. Therefore, synthetic yarn which does not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp), or woollen yarn which does not satisfy the origin-rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning), or a combination of the two, may be used, provided that their total weight does not exceed 10 % of the weight of the fabric.

Example:

Tufted textile fabric, of heading 5802, made from cotton yarn of heading 5205 and cotton fabric of heading 5210, is a only mixed product if the cotton fabric is itself a mixed fabric made from yarns classified in two separate headings, or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading 5205 and synthetic fabric of heading 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is, accordingly, a mixed product.

- 5.3. In the case of products incorporating "yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped", this tolerance is 20 % in respect of this yarn.
- 5.4. In the case of products incorporating "strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film", this tolerance is 30 % in respect of this strip.

Note 6:

- 6.1. Where, in the list, reference is made to this Note, textile materials (with the exception of linings and interlinings), which do not satisfy the rule set out in the list in column 3 for the made-up product concerned, may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 8 % of the ex-works price of the product.
- 6.2. Without prejudice to Note 6.3, materials, which are not classified within Chapters 50 to 63, may be used freely in the manufacture of textile products, whether or not they contain textiles.

Example:

If a rule in the list provides that, for a particular textile item (such as trousers), yarn must be used, this does not prevent the use of metal items, such as buttons, because buttons are not classified within Chapters 50 to 63. For the same reason, it does not prevent the use of slide-fasteners, even though slide-fasteners normally contain textiles.

- 6.3. Where a percentage rule applies, the value of materials which are not classified within Chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

Note 7:

- 7.1. For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the "specific processes" are the following:
 - (a) vacuum-distillation;
 - (b) redistillation by a very thorough fractionation process;
 - (c) cracking;

- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally active earth, activated earth, activated charcoal or bauxite;
- (g) polymerisation;
- (h) alkylation;
- (i) isomerisation.

7.2. For the purposes of headings 2710, 2711 and 2712, the "specific processes" are the following:

- (a) vacuum-distillation;
- (b) redistillation by a very thorough fractionation process;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally active earth, activated earth, activated charcoal or bauxite;
- (g) polymerisation;
- (h) alkylation;
- (i) isomerisation;
- (j) in respect of heavy oils of heading ex 2710 only, desulphurisation with hydrogen, resulting in a reduction of at least 85 % of the sulphur content of the products processed (ASTM D 1266-59 T method);
- (k) in respect of products of heading 2710 only, deparaffining by a process other than filtering;
- (l) in respect of heavy oils of heading ex 2710 only, treatment with hydrogen, at a pressure of more than 20 bar and a temperature of more than 250 °C, with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment, with hydrogen, of lubricating oils of heading ex 2710 (e.g. hydrofinishing or decolourisation), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;
- (m) in respect of fuel oils of heading ex 2710 only, atmospheric distillation, on condition that less than 30 % of these products distils, by volume, including losses, at 300 °C, by the ASTM D 86 method;
- (n) in respect of heavy oils other than gas oils and fuel oils of heading ex 2710 only, treatment by means of a high-frequency electrical brush discharge;

- (o) in respect of crude products (other than petroleum jelly, ozokerite, lignite wax or peat wax, paraffin wax containing by weight less than 0.75 % of oil) of heading ex 2712 only, de-oiling by fractional crystallisation.
- 7.3. For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations, such as cleaning, decanting, desalting, water separation, filtering, colouring, marking, obtaining a sulphur content as a result of mixing products with different sulphur contents, or any combination of these operations or like operations, do not confer origin.
