Correlation of movements

| SL | 500 |
| PL | 200 |

Movement From — Movement To

Between 1st Dec 2012 and 15th Feb 2013, displacements were mainly recorded in South Central with approximately 16,000 out of a total 18,000 displacements recorded in all three zones. At least 9,700 individual cross-border movements from neighbouring countries to Somalia have been reported by the partners. This is followed by insecurity (2,700), IDP temporary return (1,400), eviction (1,400) and lack of livelihood (1,100). The movements originated mainly from Banadir (2,400), Juba Hoose (1,500), Bay (1,400), Shabelle Hoose (580) and Juba Dhexe (480) regions. The top three regions people moved to were, Juba Hoose (8,900), Gedo (3,700), Banadir (2,000) among other regions.

Top 5 Reasons for movement
	People
Cross border movement	9,700
Insecurity	2,700
IDP temporary return	1,400
Eviction	1,400
Lack of livelihood	1,100

01-Dec-12 — By Week — 15-Feb-13

Priority Needs

- Food — 47%
- Shelter — 18%
- Livelihood support — 16%
- Transport — 12%
- Agricultural/pastoralist support — 7%
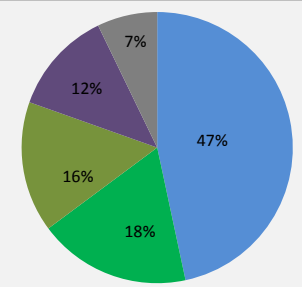

This data has been collected through the Population Movement Tracking (PMT) system. PMT is designed to capture population movement trends, not cumulative population data. Due to the fluid nature of displacement in Somalia and in order to avoid capturing multiple displacements, UNHCR limits the reporting range to a period of three months - these figures should therefore not be added and used cumulatively.

* Please note figures have been rounded using a three tier method as follows. Figures below 100 were not rounded at all. Figures between 100 and 1,000 were rounded off to the nearest tenth, figures between 1,000 and 10,000 were rounded off to the nearest hundreth and all figures above 10,000 were rounded off to a thousandth.This rounding rule was applied to the final result after all computations were undertaken.
