3 & 4	<ul style="list-style-type: none"> <li>• In Elaionas and Schisto camps, teachers hired by the Municipalities are going to be at the sites from Monday 5/9/2016.</li> <li>• General Secretary of MoE, Mr Pantis: No education should take place in the camps the same hours that the children are going to the Greek schools in the afternoon hours. However, they will allow other activities in other age groups.</li> <li>• Regarding the urban population and the reception classes in typical Greek schools. Not every school will have reception classes. They will wait until they have a certain - big enough - number of children.</li> <li>• All NGOs have to submit their request to IEP and a letter to the ministry in order to have the permission to work in the camps. Even if the NGOs are not going to deliver education, but are working with children, they can request the permission of MoE in order not to have a problem in the future.</li> <li>• By the end of September, afternoon classes for the refugee children are starting in some locations, and by the next month they will keep on. The estimated caseload of MoE is 22,000 children.</li> <li>• Vaccination has to take place before the children are going to school. This will potentially slow things down. The National Working Group is currently discussing the vaccinations with the Health Working Group and the MoE to try to determine what vaccinations are still needed for children and how the process can be completed.</li> </ul>	-
