

South Sudan: Family Tracing and Reunification: Status of Reunification by County (September 2015)

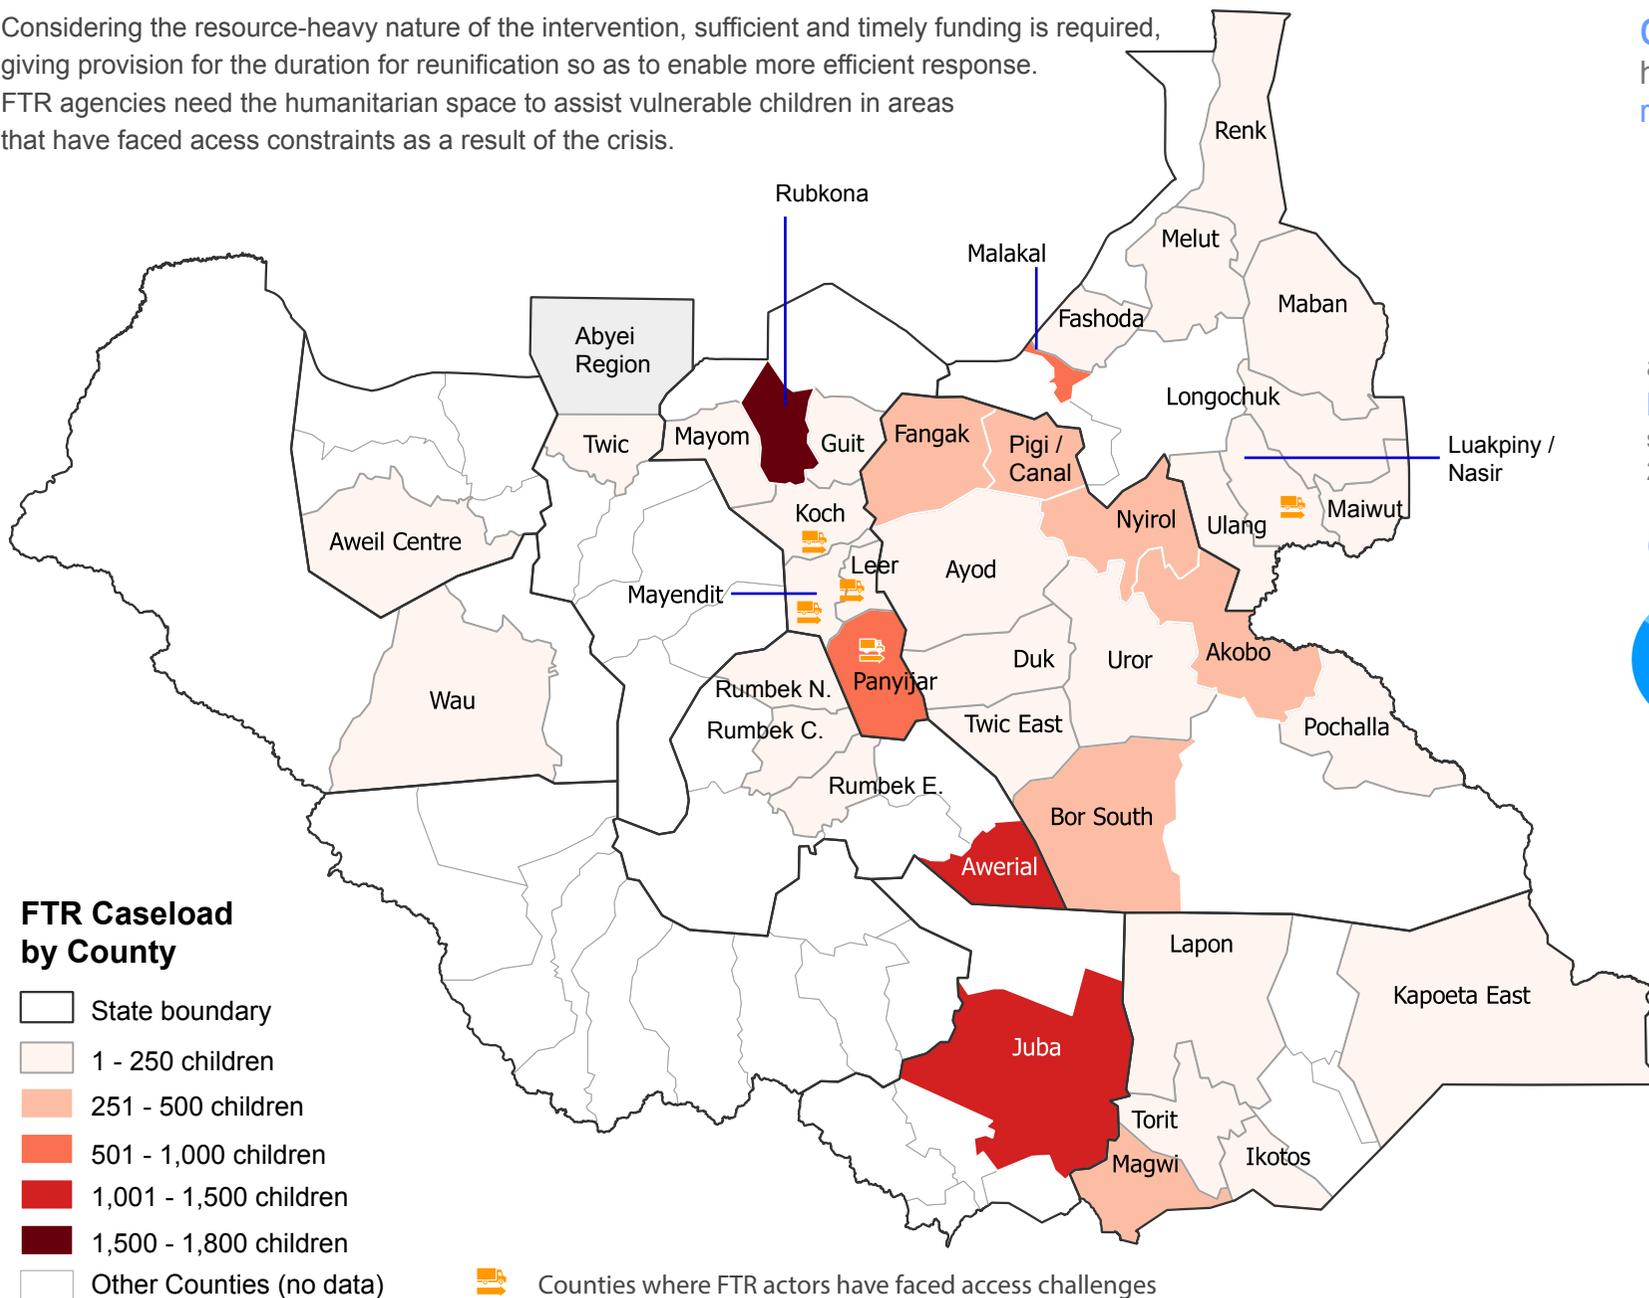

Child Protection Sub-Cluster
South Sudan

Since onset of the South Sudan crisis in December 2013, there have been 10,151 recorded cases of unaccompanied, separated and missing children in 39 counties across 9 of the 10 states. Out of these, 2,136 children have been reunified with their families.

Considering the resource-heavy nature of the intervention, sufficient and timely funding is required, giving provision for the duration for reunification so as to enable more efficient response.

FTR agencies need the humanitarian space to assist vulnerable children in areas that have faced access constraints as a result of the crisis.

Total caseload of **10,151** children out of whom **2,136** have been **reunified (21% reunification)**

1 out of 5 unaccompanied and separated children **have been reunified** with their families since onset of the crisis in December 2013

Of the 10,151 children:

4 out of every 10 of the (unaccompanied and separated) children have been **recorded as followed up**

8,523 active caseload, of which:

50% are girls
50% are boys

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the United Nations.
