

SUDAN: 2016 New Displacements and Affected People in Darfur as of 30 September 2016

Notes:

In Sortony and Tawilla, authorities halted IOM's registration and verification processes in mid-February. As a result, figures underwent revision and have now been amended according to WFP's latest beneficiary figure in July.

In Boori and Wadi Boori, confirmation on reported displacement to the area and / or to other areas remains impossible due to insufficient humanitarian access.

All HAC return figures are considered as reported as there has been no verification.

LEGEND

- International boundaries
- - - State boundaries
- Locality boundaries
- State capital
- ⊙ Primary town
- Secondary town
- Village
- ▲ IDP camp/gathering site
- ▲ IDP gathering site

 Boundaries and names shown and designations used in this map do not imply official endorsement or acceptance by the United Nations. The final boundary between the Republic of Sudan and the Republic of South Sudan is yet to be determined, as the final status of the Abyei area.
 IDP figures constantly fluctuate, more so during the onset of a new crisis. OCHA receives figures from the UN and partners and triangulates them.
 The number of verified IDPs OCHA reports on has been either registered / verified by IOM and / or confirmed through inter-agency assessments / missions and / or during the provision of assistance by IASC humanitarian partners.
 This in turn implies that the level of verification and accuracy varies greatly.
