

Joint Statement by the Sudan People's Liberation Movement and the United Nations

The Sudan People's Liberation Movement reaffirms its full commitment to free and unhindered access for the provision of humanitarian assistance to all persons and areas in need throughout the Sudan.

Based on the above mentioned commitment, modalities of operation for areas traditionally not covered by OLS (such as Southern Blue Nile and Kassala) will be on the basis of established humanitarian practices including for security, cross-line movements, assessments and access to beneficiaries.
