## HUMANITARIAN SITUATION

Fighting and the numerous roadblocks erected have worsened an already dire humanitarian situation, impeding the ability of aid partners to gain access to thousands of internally displaced people and assess needs. Moreover, this undermines efforts undertaken to implement the return plan for internally displaced persons set-up by the Humanitarian Country Team.

There are immediate needs for emergency shelter, health care and basic aid. Should the situation persist there will be a need for food supplies and hygiene and sanitation facilities. Displaced people are reported to be in a state of shock and extreme fear and may require psychosocial support.
