Budgets and Expenditure for Islamic Republic of Iran

The Islamic Republic of Iran was the world's fourth largest hosting country of refugees under UNHCR's mandate in 2014. There are 982,000 refugees in the country – including over 951,000 Afghan and 28,000 Iraqi refugees, according to the Government's 2013 registration data. Ninety-seven per cent of refugees reside in urban settings, while the remainder are in settlements.

The Islamic Republic of Iran has been hosting and providing protection and assistance to Afghan refugees for over 30 years. Despite the political and socio-economic challenges, the Government has demonstrated solidarity, including through significant efforts to provide Afghan refugees with education, healthcare and livelihood opportunities. The Office welcomes the decision by the Government of the Islamic Republic of Iran to include refugees in the universal national health insurance scheme.

In 2016, together with the Government, UNHCR will continue focusing its programmes on health, education and livelihoods, aimed at empowering refugees to contribute to reconstructing Afghanistan and facilitating their reintegration upon eventual return. Youth empowerment will continue to be a programme focus. The Office will support the implementation of the Iran Portfolio of Projects developed within the regional Solutions Strategy for Afghan Refugees to Support Voluntary Repatriation, Sustainable Reintegration and Assistance to Host Countries and approved by the National Steering Committee.

2016 Original Budget for Islamic Republic of Iran | USD

The following table presents the original budget for this operation broken down at the objective level. Resource allocation at the objective level is subject to change during the course of the year as the operational situation evolves and priorities shift. The current budget by pillar, reflected in the bottom line of this table, is updated on a monthly basis and is replaced by the final budget at year-end.
