Enclosure**Report of the Republic of Mauritius on the actions taken by the Government to implement Security Council resolution 1373 (2001)***

Pursuant to Paragraph (6) of Resolution 1373, all Member States are required to submit a report within 90 days of its adoption on the steps they have taken to implement this Resolution.

This is the first such report submitted by Mauritius which lists actions taken or envisaged to be taken in order to fully implement Resolution 1373 (2001). The attention of the Committee is drawn to the fact that Mauritius is currently in the process of drafting the following legislation with a view to combat international terrorism:

- (i) The Anti-Terrorism Bill
- (ii) The Financial Intelligence Unit Bill
- (iii) The Criminal and Related Matters (Mutual Assistance Bill)

The report also highlights the needs identified by Mauritius in respective areas where technical assistance would be required.

Mauritius has always been supportive of all international initiatives designed to combat international terrorism. After the terrorist attacks in the United States of America on 11 September Mauritius pledged along with other members of the United Nations, its full commitment to work together with the international community to eradicate forever terrorism in all its forms and manifestations and to make this world a safer place for future generations. By unreservedly condemning the acts of terror against the USA and by extending its unqualified support to Resolutions 1368 and 1373 adopted on 12 and 28 September 2001 respectively, Mauritius is resolved to fight the scourge of international terrorism.

In order to fulfill its obligations under the existing international and regional instruments in compliance with the provisions of Security Council Resolution 1373 the Government of Mauritius has taken a series of measures aimed at preventing and suppressing terrorist acts, including the financing and preparation of any acts of terrorism.

Preparatory work for implementation of the Security Council Resolution 1373

Immediately after the adoption of Resolution 1373 Mauritius set up a Committee of Senior Officials from relevant Ministries and Department under the Chairmanship of the Ministry of Foreign Affairs and Regional Cooperation with the specific mandate to look into the full and effective implementation of Security Council Resolution 1373 and the relevant international and regional instruments designed to combat international terrorism.

The Committee has devised a plan of action with a view to expediting the adherence to international treaties and eventually to incorporate and implement their provisions at national level.

On 30 October 2001 the Government of Mauritius designated the Ministry of Foreign Affairs and Regional Cooperation as the National Focal Point for information on assistance in connection with matters arising under resolution (1373) and informed the Secretariat of the CTC accordingly.

* The annexes to this report are on file with the Secretariat and are available for consultation.

The Government of Mauritius has taken the following measures with a view to complying with the specific provisions of Security Council Resolution 1373.

Operative Paragraph 1

Sub-Paragraph (a)

Prevention and suppression of the financing of terrorist acts

As far as administrative and other regulatory bodies are concerned, the Central bank of Mauritius took the following measures to control transactions of terrorist-related entities.

The Central Bank drew the attention of all banking and deposit taking institutions, money changers and foreign exchange dealers to the provisions of the Resolution 1373 (2001). It requested them to ensure that their institutions and commercial entities are kept free from any abuse that may be made of them by the perpetrators of terrorist acts. The entities and commercial units have been instructed to report, on the basis of confidentiality, any information which would help to trace those involved in international terrorism or in financing and assisting such acts and take appropriate measures against them accordingly.

The banking and deposit taking institutions, money changers and foreign exchange dealers have been provided with, as a first step, a list of institutions/persons suspected of terrorist activities as prepared by the US Government. The list, which is at **Annex I** was issued by the United States of America, is an inexhaustive list subject to necessary modifications.

These institutions have a duty to report to the Central Bank any accounts or transactions those organizations entertain with them. They have also been instructed to seek the approval of the Central Bank before executing any further request for transactions in respect of the companies/entities/individuals on the list.

Mauritius has always followed the principles of transparency and sound banking practices. In this respect and in view of consolidating on the credibility already gained as a viable financial center, Mauritius has passed the Economic Crime and Anti-Money Laundering Act, which aims primarily at criminalising money laundering and other related financial transactions. The Act establishes *inter alia* the Economic Crime Office which is entrusted with the duty to investigate any matter relating to suspicious transactions. **(Copy of the Act is attached at Annex II)**

Other Measures:

The Ministry of Economic Development, Financial Services and Corporate Affairs has already initiated action as regards the preparation of the Financial Intelligence Unit Bill. Such a Unit will allow for rapid exchange of information and thus assist the Government to combat inter-alia money laundering and address concerns of financing of terrorism.

The Financial Services Commission (FSC) has gone through its data base to search for any links with any name published in the Executive Order and by international media, professional firms, web-sites (FBI, State Department, UK's Financial Services Authority, Bank of England and the UN etc.).

The FSC has urged professional associations in the financial services industry to conduct appropriate checks on their files and records and is relaying to them the latest information and conduct of on-going checks. The FSC has not found any trace of terrorist related money in Mauritius. However, investigation is being carried out on other names provided for in the Executive Order 32224 and in the list provided for by the Sanctions Committee on Afghanistan on implementation of Resolutions 1267 and 1333.

Copies of UNSC Resolutions have also been circulated to all stock broking companies and the Stock Exchange of Mauritius and the Central Depository System for appropriate action and have been requested to inform of steps taken to implement the Resolutions. In accordance with the Central Depository and Settlement Company Rules and Procedures, all Stock Broking Companies have to ascertain a client's identity when opening a Securities Account.

Operating Paragraph 2 (a)

As mentioned above, the Government of the Republic of Mauritius will be introducing the Anti-Terrorism Bill in the National Assembly shortly. This new Act will make provisions for the prevention of, and for coping with, terrorist activities and for matters connected therewith.

However current legislation that indirectly deal with offences related to terrorism are:

- (i) The Criminal Code (**Annex VI**)
- (ii) The Criminal Code (Supplementary) (**Annex VII**) and
- (iii) The Firearms Act (**Annex VIII**)

Operative paragraph (2), (b), (c), (d), (e), (f)

The Anti-terrorism Bill will be re-enforced by the proposed Criminal and Related Matters (Mutual Assistance) Bill which is currently subject of debate at the National Assembly. The Bill will provide for the widest range of international cooperation to be given and received by Mauritius promptly and to the fullest extent possible, in investigations, prosecutions and other proceedings concerning serious offences.

At the regional level, Mauritius is giving due consideration to the signature and ratification of the OAU Convention on the Prevention and Combating of Terrorism adopted by the OAU Heads of State and Government in Algiers in 1999. Mauritius is also Member of the Southern African Regional Police Chiefs Cooperation Organisation (SARPCCO) and has signed in August 2001 the SARPCCO Agreement on Cooperation and Mutual Assistance (**Annex IX**) in the field of Crime Combating. The Agreement provides for sharing regional information and intelligence on organized crime and the endorsement of a Regional Organised Counter-Crime Intelligence Sharing System.

Assistance to Foreign States is also provided for in the Economic Crime and Anti-Money Laundering Act (Part VI).

Equally important, Mauritius has in August 2001 signed the SADC Protocol on Politics, Defence and Security Cooperation (**Annex X**) and the SADC Protocol on the Control of Firearms, Ammunition and Other Related Materials in the SADC Region (**Annex XI**). The main objective of this Protocol is to provide mechanisms which will assist Member-States to promote peace and security in the region and guide SADC Member States in their collaboration on matters of peace and security and to prevent, combat and eradicate illicit manufacturing of arms, ammunition and other related materials and promote and facilitate cooperation and exchange of information and experience in the region and cooperate at regional and international levels on matters of small arms and other related materials respectively.

The Extradition Act (**Annex XII**) and the Deportation Act (**Annex XIII**) in Mauritius offers the opportunity for offenders to be extradited. Moreover the Police Department is also linked to Interpol and information related to terrorists are circulated between Interpol Member States. Our Membership of the Commonwealth provides for greater international cooperation, strengthening of national, regional and international legal frameworks to combat terrorism and an important role can be played by Member-States through the Commonwealth Schemes for mutual assistance to counter crime and terrorism.

Given its geographical specificity, Mauritius does not have border controls. However, immigration controls are performed at two points of entry and exit, namely: SSR International Airport, and Port Louis Harbor.

Moreover, the National Coast Guard carry out surveillance patrols at their different posts around the island. Various sea passes are also under control.

The Immigration services have tightened control at the entry and exit at the airport and seaport by profiling passengers on entry and monitoring their movements. All the travel and other documents are scrutinized and all passengers are examined thoroughly to prevent movement of terrorists.

The address and identity of applicants for Passports, Certificates of Identity and travel Documents are verified by the Police of the Locality where the applicants reside before their issuance and visible and invisible security features are incorporated inside the pages of the passport to prevent forgery, tampering etc.

Operative Paragraph 3, (a) (b) and (c)

Relevant Ministries and Departments have been requested to identify the type of technical assistance needed for thorough implementation of Resolution 1373 and the International and Regional conventions given the wide ranging strategies would be imperative to combat international terrorism in all its forms and manifestations.

- (1) The Customs Department has informed that it lacks the necessary expertise and equipment to detect weapons, small arms, technical parts, radioactive materials and biological weapons. In this context, the Customs Department has requested for technical assistance viz Training by Experts of its Officers in the detection of the above-mentioned materials and handling of the detection Equipment. The Customs department has also expressed need for scanners and related equipment that can detect not only arms and dangerous drugs but also radioactive and bio-terrorism materials. There is a current project to equip the department with a vehicle mounted with scanning equipment but it is still at a tender stage.
- (2) The State Law Office has also informed of need for technical assistance in the formulation of appropriate legislations over and above existing laws that deal indirectly with offences related to terrorism.
- (3) Whilst Member-States are reporting on current and expected implementation of the UNSC resolutions related to Terrorism, it is of view that renowned institutions such as the Centre for International Crime Prevention could be involved in the training of National Focal Points and relevant Ministries/departments from Member-States for the fight against terrorism.

Operative Paragraph 3 (d)

As stated above, a Committee of Senior Officials has been set up to monitor implementation of UNSC Resolutions and will *inter alia* look into the implementation of Conventions (International and Regional) relating to the combating and Prevention of International Terrorism. On the 11th of November 2001 the Rt. Hon. Prime Minister of the Republic of Mauritius signed the International Convention for the Prevention and Suppression of Financing of Terrorism in New York on the margins of the 56th UNGA. (Status of Signing/Ratification and Accession to International Conventions related to Terrorism is at **Annex XIV**.)
