- Construction of WFP biometric center completed and started service
- A total of 2879 new arrivals from Sudan and South Sudan were registered in 2017.
- Briquette production scaled up to provide alternative sources of energy for refugees. A total of 5860 briquettes have so far been produced, out of which 4819 were distributed to 918 identified beneficiaries.
- Construction of health center with 5 rooms finalized.

## WORKING WITH PARTNERS

UNHCR provides protection and assistance/services to refugees in **Tsore** camp in collaboration with:

- **Administration for Refugee and Returnee Affairs (ARRA)** – Representing the government of Ethiopia, handles the following: Camp Management and security; primary health care and nutrition; food and CRIs distribution; protection and community services; shelter delivery; logistics; environment protection; and primary education
- **International Rescue Committee (IRC)** - WASH; SGBV; reproductive health, HIV/AIDS prevention and control and psychological support
- **International Organization for Migration (IOM)** - Resettlement related medical screenings; shelter and livelihoods activities
- **World Food Program (WFP)** – Nutrition; food supply, transportation and distribution
- **Norwegian Refugee Council (NRC)** – Education (ALP & YEP); livelihoods; shelter
- **Save the Children International (SCI)** – Early childhood education; Child Protection
- **Gaia Association** – Alternative household energy
- **Rehabilitation and Development Organization (RaDO)** - provision of assistive devices; physical rehabilitation

# MAIN ACTIVITIES

## Health

- One health centre is available for refugees and host communities wherein they receive medical care, including:
  - Comprehensive primary health care such as outpatient consultation and inpatient admission services,
  - Reproductive health & HIV services and related capacity building
  - Preventive and community-based health care and access to primary health care services
  - Vaccination for children under five years old
  - Maternity and child health services
  - Pre-departure medical screening/Medical escorts during RST and during relocation from boarder areas
  - Psychosocial counseling

## Nutrition

- With support from UNHCR's partners, refugees have access to infrastructure and receive nutritional support, including:
  - Implementation and monitoring of Supplementary Feeding Programme (SFP) for persons with special needs (PSN).
  - Treatment of severe and moderate acute malnutrition is provided for 2,102 individuals including children and women; (967 children from 6-23 months of age, 379 pregnant women, 260 lactating mothers and 496 others in need social and medical assistance 496 )

## WASH

- Refugees have access to 20 liters of potable water per person per day. 1 borehole has been installed.
- 1315 (34 %) household sanitary facilities/latrines are available in the camp. There are 66% coverage gaps.
- Environmental health and hygiene campaigns are implemented in the camp

## Protection & Community Services

- UNHCR and its partners provide protection to refugees and promote durable solutions to their plight through:
  - Establishment and ensured functioning of community based child protection structures, notably for UAM/SC
  - Provision of prevention and response services for children at risk, and capacity development on child protection
  - Provision of psychosocial counseling and community-based psychosocial programming
  - Enabling and sustaining community participation in SGBV prevention and response through capacity development
  - Provision of specific services to Persons with Disabilities (PWDs)
  - Resettlement to third country of asylum and facilitated process of family reunification
  - Registration and monitoring

## Shelter

- Construction of 1,294 transitional shelters is completed

## Core Relief Items

- Core Relief Items including sleeping mats, jerry cans, water bucket, soap and sanitary materials are distributed to refugees.

## Logistics & Site Planning

- Refugees are transported and relocated from border areas and within camps. In addition, the camp layout comprises of 3 sectors which are divided in 17 blocks.

## Education

- Three Early Childhood Education and One Primary School Education Centers are available. Besides, Vocational Skill Training Program and Accelerated Learning Program also available.

## Environment and Energy

- UNHCR and its partners seek to reduce the environmental impact in areas hosting refugees through:
  - Forest and environmental protection and capacity building on environmental protection. 184871 trees have been planted this year to mitigate the impact of the refugees' presence in the area.
  - Provision of energy saving stoves and demonstration of biogas pilot project. To date, 100 ethanol stoves and 100 Briquette multi-flex stoves have been distributed to a total of 918 individuals.
  - Pilot project to produce briquettes strengthened as an alternative source of household energy

## Food

- On a monthly basis, food is supplied, transported and distributed to all refugees. General food basket includes Sorghum, Wheat, pulse, Sugar, Famix, Oil and Soap.
