

Since the immediate aftermath of the earthquake, IOM became a key shelter responder managing the pipeline which delivers shelter and non-food items with implementation partners to the most affected district.

As the winter looms, IOM assists affected families with winter coping strategies based on their needs. IOM continues to provide the pipeline with Winterisation Packages to keep the immediate space around bodies warm and providing protection to their shelter from the elements.

HOUSEHOLD WINTER KIT

The Household Winter Kit is composed of 3 pieces of high thermal blankets, 6m² of foam sheetings, and a sealing off kit composed of a tarpaulin and a rope, to keep both immediate space around bodies and the internal spaces of their shelter.

High Thermal Blanket

Foam Sheeting (6m²)

Solar Light

Plastic Sheet

Rope

Items	Description	Qty	Unit
Blanket	High thermal, wool blanket, 170 x 200cm	3	sheet
Foam Sheeting	Polyphenylene (PE), High density (min.22-24kg/m ³), min.12mm thick, closed Cell	6	m ²
Plastic Sheet	4 x 6 m	1	sheet
Rope	Polypropylene, Φ8mm, twisted, 25m	1	roll
Solar Light	A small and lightweight portable light powered by solar panel, with a USB phone charging function.	1	pcs

HOW TO REQUEST IOM PIPELINE ITEMS

To request IOM pipeline items, please fill in the form from below to submit your interest in receiving these items for immediate distribution.

<http://bit.ly/1Nktm6D>

- IOM will request to submit the list of beneficiaries to verify against the needs, and come back with queries to allocate the items.
- Pick up of items will need to be carried out by requesting partners.
- For further information, please contact IOM Pipeline Team: iomnepaleqpipeline@iom.int
