Training Received	Brief orientation on PHC services related to JHAS and other partners if applicable. Managing peer support groups, communication skills, reporting and deliverables plus a module on managing NCDs & risk factors through nutrition & lifestyle is provided specifically to Peer Leader volunteers that are assigned on their nursing background	Sept 2013; 3 day community health worker training	Nutrition, family planning, immunisations and other health topics plus psycho-trauma management. Included topics on being a CHV and dealing with refugees suffering from trauma	October 2014: Initial 2 day IFRC CBHFA training. Included topics on being a community health worker, community mobilisation and community assessment.	April 2014: Initial 5 day IFRC CBHFA training. Included topics on being a community health worker, community mobilisation and community assessment. June 2014: 1 day workshop on various health topics September 2014: Violence Prevention and First Aid October 2014: NCDs	IYCF (Infant & Young Child Feeding) CMAM (Community Based Management of Acute Malnutrition) Outbreak Prevention	Briefing on health services supported by UNHCR; personal hygiene; immunisations; safe food and water; skin and eye infections; diarrhoea & dehydration; vital and danger signs; measles; nutrition; chronic asthma; breast feeding	6 day IYCF training which also included communication, listening & learning skill, counseling, technical information on how to deal with breast feeding problems	They are still being recruited but they will be trained in a variety of topics including: environmental health & hygiene, reproductive health, chronic diseases and their prevention (mainly diabetes, heart disease and asthma) and IYCF
Health Topics	GBV; mental health, self screening for early detection of breast cancer; nutrition and lifestyle in relation to NCDs & risk factors	Reproductive health, family planning, nutrition, health lifestyles; breast cancer, GBV	Nutrition, family planning, immunisations	Immunisations; NCDs; nutrition; ARIs; personal hygiene; water and sanitation	Immunisations; NCDs; nutrition; ARIs; care of a newborn; personal hygiene; water and sanitation	IYCF, immunisations, personal hygiene	Reproductive health; family planning; communicable diseases; personal hygiene; hypertension; water & sanitation; URTIs; immunisations; mental health	Breast feeding, EBF, complementary feeding, during illness, nutrition during pregnancy & lactation, food allergies	Environmental health and hygiene, reproductive health, chronic diseases and their prevention (mainly diabetes, heart disease and asthma) and IYCF
Activities	Home visits, group sessions	Household visits, health sessions	Household visits; group meetings	Household visits; focus group discussions	Household visits; group meetings; health committees; school groups; community campaigns	Household visits; group meetings	Household visits; referrals to MDM PHC clinic/other partners	Health education in health centres & CBOs; hospital visits for B/F counselling; home visits for IYCF follow up; sensitization for routine immunisations; capacity building for CBO staff on optimal feeding practices	Household visits
No. of visits conducted per household (e.g. once only, or other)	Only once. Follow-ups of some cases may take place in support of IMC's Mental Health and Psychosocial Support Program.		Once only	At least once per topic	Around 6 visits/per HH (once per month for the duration of the project)		Once only	It is a counselling visit so it depends on the case but not less than 4 visits	

Frequency of the household visits (e.g. once only, weekly, monthly etc)	Once only		Once only	Once per month	Once per month (or more often if required)		Once or twice depending if need follow up for referral purposes	Depends on the case - it might be weekly , one time/2 weeks or monthly	
New or different household visits each time	New visits.		New visits	The same HH	The same HH		New Household visit each time --depends if not referrals to follow up	New cases or follow-ups	
Organisation	IMC	IRD	JHAS	JRCS/GRC	JRCS/IFRC	MEDAIR	MDM	Save the Children Jordan	IRC
Beneficiaries	Iraqis, Syrians & vulnerable Jordanians	30,000 Iraqi & Syrian refugees	Syrians	Syrians and Jordanians (populations affected by the Syrian crisis)	Syrians and Jordanians (populations affected by the Syrian crisis)	Syrians	Syrian refugees and vulnerable Jordanians	Jordanians and Syrian pregnant and lactating women & children under 6	Syrians, Jordanians and others; particularly targetting women of RH age
Criteria for selection of HH/beneficiaries	Syrian refugees and Iraqi refugees of recent arrival to Jordan, and unaware about health services provided by Jordan Health Aid Society. Moreover, Syrian refugees, Iraqi refugees, and vulnerable host populations with NCDs or risk factors in need of lifestyle awareness sessions.	The CHVs are outreach volunteers who mainly do home visits, provide information about MoH PHCs services and do referrals to PHC, accompanied the families to CHCs for treatment and filling the exit interview health education sessions about RH/FP, CBV, breast cancer and healthy lifestyles to women and families	Efforts are made to cover as much geographical area as possible within the country. Syrian refugees and PoC are the target of outreach efforts but JHAS services can be available to vulnerable Jordanians as well.	Syrian refugees and/or vulnerable Jordanians. Communities were selected based on a high proportion of Syrian refugees	Syrian refugees and/or vulnerable Jordanians. Communities were selected based on a high proportion of Syrian refugees	1.Children 6-59 Months 2.Pregnant & Lactating Women	Syrian refugees and/or vulnerable Jordanians. Communities were selected based on a high proportion of Syrian refugees	Pregnant & lactating , children under 5 Years	Syrian refugees and vulnerable Jordanians (without health insurance)
No. of beneficiaries	Around 1,200 between outreach home visits and referrals as well as beneficiaries attending community based awareness sessions related to lifestyle, nutrition and NCDs	15,500	Minimum of 1000 home visits per month	Approximately 4,000	Target of 4000 but reached many more	Minimum of 44,640 over 9 months	36,000 over 2 years until the end of 2015	Since September 2013, more than 19,000 PLW & children under 5 have been reached	over 9 months - 12,000 receive RH messages

Until when: (length of project)	End of August 2015			Until end of June 2015.	Current funding period ended mid November 2014 but a proposal has been submitted to the donor to be able to continue in 2015	18/11/2013 - March 2015	31/12/2015	June 2014 till June 2015	October 2014 to October 2015
Comments	The CHVs are outreach volunteers who mainly do home visits, provide information about services available and do referrals to PHC clinics. PLVs should essentially have a background in nursing or pharmacy and carry out awareness sessions about healthy lifestyles	Nil	To increase the number of CHVs to cover the needs of the increasing number of Syrians	This is the 1st pilot phase of CBHFA running from April to July 2014. An extension has already been requested. Additional Basic Life Support 1st Aid Training has been offered to 380 Syrian refugees and 100 Jordanians during May & June 2014	If the budget allows we would like to train an additional 30 Syrians CHVs in August 2014	Nil	Nil	If our budget allows, we would like to increase the number of our IYCF staff in all locations, expand to more areas and locations, and work more in capacity building of CBO and health centre staff on optimal feeding practices
