Challenges faced during the reporting period

- The implementation of resilience projects under the Food Security was affected as only two organization out of five were successfully able to secure funding thus affecting the sector ability to promote food security, maintain sustainability and efficient use of agriculture resources.

Gaps and key priorities foreseen in the next quarter

◇ Gaps:

- Due to limited funding, the Food Security sector covered only 72 percent of the planned target with in-kind food assistance in camps. Thus reducing the sector ability to complement the provision of cash-based food assistance in camps.
- Nutrition awareness for improved food utilization is one of the key project for the food security sector that was affected with limited funding. Only 6 percent of the planned target were able to receive training in good nutritional practices.

◇ Key Priorities:

- The Food Security sector will continue advocating needs of vulnerable individuals in the camp and host communities aiming to secure sufficient food consumption for the most vulnerable, while also focusing on projects that received limited funds in the third quarter of 2017.
