

### INTRODUCTION

The Site Tracker is a gap analysis tool developed to identify gaps in service delivery and assistance in IDP camps. This tool only covers camps where IOM CCCM Site Facilitators are deployed to support in camp management with partners soon to take over some areas. It enables stakeholders track each other's weekly activities and minimize duplication of efforts, in support of intra-sector coordination, to improve communication and to strengthen the quality of services delivered to IDPs. The DTM Site Tracker contributes to speed up the time of response by concerned partners when their intervention is needed and avoid unnecessary delays. This report must not be misconstrued to represent the situation of all the IDP camps in North-Eastern Nigeria.

### Trend of the Number of IDP's per week

### KEY FINDINGS

A good number of Internally Displaced Persons live in makeshift shelters. As the rainy season is here, a priority need for most sites is plastic sheetings. A lot of sites are still without school and source of water.

**342,692** Total number of IDP's residing in assessed sites for the week in review

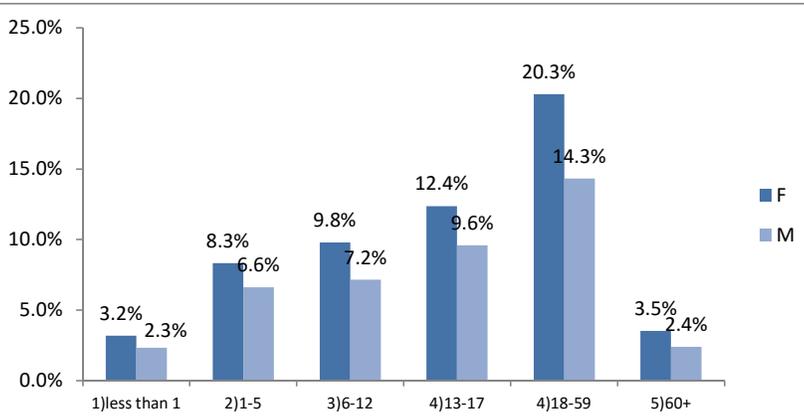

**15%** non-functional latrines  
**8%** non-functional bathrooms  
**44%** non-functional water points
