Women Committee 20 members (100% F)

PTAs 25 members (50% F)

Youth Committee 20 members (50% F)

Education Committee 25 members (50% F)

Community Watch 32 members (0% F)

Highlights

- Progress has been made on Phase 2 shelter construction. Beneficiaries have mudded 225 houses, an issues which has poses serious challenges in the past.
- As part of the cholera preparedness and response interventions, cholera prevention and awareness raising workshops have been conducted in Gendrassa.
- UNHCR and humanitarian partners are reviewing the WASH Plan developed to ensure uninterrupted continuity of WASH activities in the camps should international and locatable national staff be evacuated from Maban. The aim is to assess the current status of contingency stock and human resources in place to ensure the smooth progression of activities.
- Water supply in all camps remains stable. The installation of latrine and other sanitation facilities continues. No alarming WASH related concerns have been reported. Bacteriological tests are now being conducted regularly in all camps as part of the WASH water safety plan.
- Gendrassa camp based community radio station Radio Salaam has begun broadcasting programmes on SGBV issues including early/ forced marriage in Kaya and Gendrassa camps. With support from camp management partners, ACTED and DRC, the initiative is being spearheaded by refugee leaders, both male and female, to a mainly refugee audience.

UNHCR gratefully acknowledges the support of the following partners in Gendrassa Camp

Gendrassa Monthly Updates

Protection

- Alternative dispute resolution mechanisms was successfully explored by refugee leaders with the support of the CRA, ACTED, and UNHCR in a murder case involving a 14-year old girl who hacked her husband to death in Gendrassa camp. The suspect has been allowed to return to the community.
- Protection screened and cleared 19 persons in Gendrassa for registration. Some of these individuals returned from Melut, Renk and other areas after missing the biometric registration exercise.
- UNHCR received reports of the departure of 26 refugee students from Gendrassa and Batil refugee camps ostensibly to access schooling in Ethiopia's Sherhole refugee camp (Kubri Khamsa). UNHCR will continue to monitor and follow up on absent students.

SGBV	SGBV Referral System		Referral pathway finalised: health, psychosocial and material (based on individual needs) support activated.Although SGBV cases are still under reported, there is an increase on identified cases.

Education

Minimum Sectoral Data	Value	Standard	% F	Minimum Sectoral Data	Value	Standard
% of Refugees Enrolled in Primary School*	66.0%	100%	70.0%	Number of Students per Teacher**	44	40
% Average Monthly Attendance	n/a	n/a	n/a	% of Female Teachers	30.0%	50%

- 37 teachers, (23 male and 14 female), are undergoing training with JRS.
- Teachers were issued ID cards for identification purposes.

Water and sanitation

Minimum Sectoral Data	Value	Standard	Indicator	Value	Standard
Avg water available (litres/person/day)	19.2	>=20	Crude Toilet Coverage	18.9	<=20
Nbr of persons per usable water taps	121	<80	% of families with family shared latrines*	79.0%	n/a
Water collected at HH level (litres/person/day)	21.6	>=20	% of PoC receiving >=450g soap/person/month	100%**	100%

- 22,365 water containers were cleaned during the month of July in which 19,209 individuals were reached with hygiene key messages on domestic, environmental and personal hygiene and cholera sensitization/awareness messages was passed during the exercise.
- Much as water data shows below standard, the capacity to produce water exists. Due to the rainy season and availability of alternative water sources refugee family water needs from the network decreased.
- WASH team is prepared to respond in any cholera outbreak if required.

*Family latrines are shared among 4 families, based on a average household size of 5 members, to respect the standard of 20 persons per drop-hole

** Monthly soap ration have been reduced from 500 to 250 grs/p/m since January 2014 due to limitations in pre-positioning relief items and lack of access to Maban County.

Health/Nutrition

Minimum Sectoral Data	Value	Standard	Minimum Sectoral Data	Value	Standard	Minimum Sectoral Data	Value	Standard
CMR/ 10,000/day	0.15	<1	# Persons/Health Facility	4,378	<10,000	% of U5 GAM	10.0%	<10%
U5 MR/ 10,000/day	0.09	<2	Health Facility Utilisation	3.2	1-4	% of U5 SAM	1.0%	<2%

- The provision of both facility and community based primary health care services continued as usual during the month of July.
- As part of the camp level cholera preparedness and response activities, health care providers and community health workers were trained on cholera prevention and management courses.
- IMC in collaboration with ACTED completed the setting up of a 20 bed CTU for the treatment of cholera cases. One cholera treatment kit was received from UNICEF and prepositioned for the CTU. In addition, Health and WASH partners have organized sensitization workshops for community leaders including sheiks, women and youth groups. Cholera outbreak control task force was established.
- The community level health, hygiene and sanitation activities have been intensified through community awareness and surveillance activities to facilitate timely reporting of any suspected case of cholera. Meanwhile the health profile of the refugee population remains stable and no suspected case of cholera was reported from the camp during the month.
- Global Acute Malnutrition rates end of June (8.8 %), the nutrition situation in Gendrassa has improved as compared with the month before and is much more with standards (<10 %) as well as Severe Acute Malnutrition. In July. This is consistent with the decrease of SAM numbers in Gentil clinic TSFP under 5 with Plumpy Sup, BSFP under 2 with CSB++ and TSFP PLW with Cereal oil and pulses were performed by IMC as well as IYCF mother support Group activities
