

Introduction:

As a result of conflict with Ethiopia and two decades of civil war, Somalia is littered with landmines, explosive remnants of war (ERW), stockpiles of weapons, and ammunition. According to reports, mine laying may have been occurring as recently as 2012 in the southern and central parts of the country and in the disputed Sool and Sanaag regions. The use of Improvised Explosive Devices (IEDs) by armed groups compounds the threats facing communities and aid organizations.

Note: Statistics and figures provided in the monthly report are subject to change. Please contact UNMAS Somalia Information Management for updated statistics, figures and maps.

Acronyms:

AP	Anti-Personal Mine	MRE	Mine Risk Education

VISDO	Voluntary Initiative for Social Development	NPA	Norwegian Peoples Aid
UNMAS	UN Mine Action service	SPF	Somalia Police Force
SFH	Solution for Humanity	UNICEF	United Nations Children's Fund

Notes:

Hazard: Refers to a piece of land that is suspected of contaminated with Landmines or Explosives of Remnants of war (ERW) or both.

Landmines: Refers to Antipersonnel (AP) and/or Anti Vehicle mines (AT).

ERW: Refers to explosives and remnants of war that are still dangerous and can cause casualties and can damage infrastructures.

Open Hazards: All those hazard areas that are registered with UNMAS but still no mine action activities conducted to clear them from the threat of Landmines and ERW.

Closed Hazards: These are hazard areas that are registered and cleared from the threats of Landmines and ERW by UNMAS.

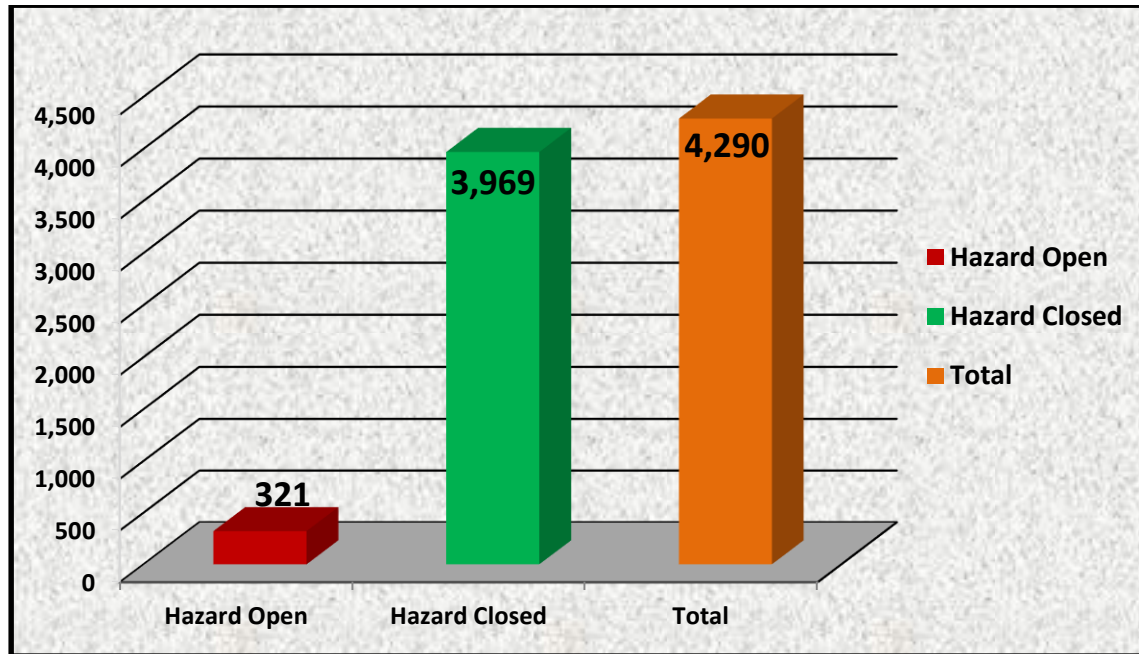

Suspected Minefields: These are hazard areas that are suspected with laid landmines by UNMAS.

MRE: Mine Risk Education refer to educational sessions conducted to audiences on the threats of Landmines and ERW.

Landmine & ERW Casualties: All casualties caused due to direct or indirect contact with landmines and/or ERW.

1. HAZARDS:

1.1 Hazards by status since the start of mine action activities:

1.2 Hazards Status by Month 2015.

Month	Hazard Registered	Hazard Closed
January	50	41
February	59	33
March	62	43
April	41	32
Grand Total	212	149

1.3 Hazards status by Time frame:

Reporting Period	Hazard Status		Hazard Total
	Open	Closed	
April	9	32	41
2015	63	149	212
Total to Date	321	3,969	4,290

1.4 Active hazard status by type of hazards registered in IMSMA:

1.5 Hazards Registered and closed by region for April, 2015.

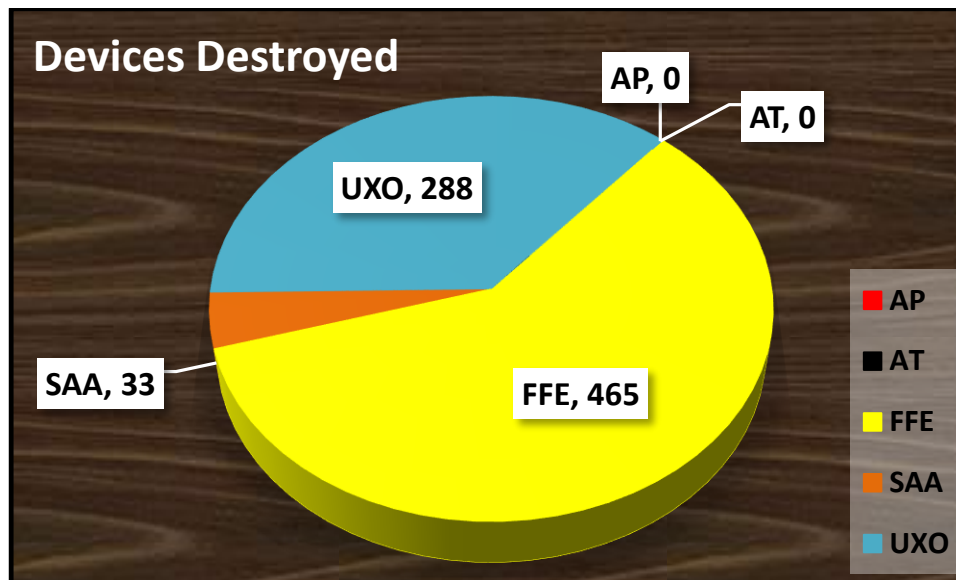

Regions	Hazards Registered	Hazards Closed
Bakool	2	
Bay	19	17
Galgaduud	15	14
Gedo	2	
Hiraan	1	
Lower Jubba	2	1
Grand Total	41	32

1.6 Hazards Registered and closed by Sector for April, 2015.

Sectors	Hazards Registered	Hazards Closed
Sector 2	1	1
Sector 3	23	17
Sector 4	1	
Sector Kismayo	1	
Outside sectors	15	14
