

Population displacement to Cox's Bazar displayed in this map is based on information from the UN-led Inter Sector Coordination Group in Bangladesh.

With people still on the move and ongoing access restrictions, the UN is not currently able to verify numbers of people who remain internally displaced inside Rakhine State. Arrows are indicative of some of the movements that are taking place.

*According to the Government, these 27,000 people are staying in eight townships across Rakhine State. Of these, there is an estimated 6,000 people who returned.
