The Global Compact on Refugees calls for a multi-stakeholder and partnership approach to refugee responses that meaningfully engage those they are intended to protect and assist. This side event will focus on meaningful and engaging refugee participation in national and international processes. It will bring to the Forum, inputs and recommendations from refugee-led regional summits around the world in order to provide precise, context-specific solutions. The moderator and panelists will discuss the pledge on meaningful refugee participation put forth by the Global Refugee-led Network and propose how different stakeholders can support this at the Global Refugee Forum.
