The Global Compact on Refugees recognises the importance of understanding the impact of hosting, protecting and assisting refugees, and a number of initiatives are underway to measure responses and contributions made by states and other key stakeholders towards sustaining the global refugee protection system. This side event will bring together a panel of experts from the World Bank, the OECD, the IRC and the Government of Colombia to discuss these initiatives. It will offer an opportunity for participants to deliberate on challenges and constraints, and jointly identify opportunities to do better.
