Preparedness Process

IASC framework for emergency preparedness						
Hazard ranking	Risk monitoring	Minimum Preparedness Actions	Risk analysis is early warning	Advanced Preparedness Actions and contingency planning	DISASTER STRIKES!	Disaster response
ALERT emergency preparedness process						
Hazard ranking	Seasonal calendar + monitor risk indicators	Maintain minimum preparedness (MPAs or Min Standards) & Develop 6 week plan/proposals (anticipatory and response planning)	Monitor Indicators and analyze risk (Indicators tell a story and provide you with early warning	Escalate to emergency ready state (APAs Advanced Preparedness/ Preparedness +) and implement anticipatory response activities		Life saving response activities and needs assessments
Description of preparedness (simple terminology)						
Know the risks	Monitor the risks	Be prepared and plan your response	Analyze the evolving situation	React to early warning; escalate preparedness and initiate anticipatory response		Escalate life-saving actions, conduct needs assessments, update plans

30 Jun 2016
Status:

Rainfall continues to be irregular. Rainfall is 40% lower than the average year. The rainfall this year has also been inconsistent with long dry periods between rains. The Department of Agriculture's early estimates are a possible crop reduction of up to 50%. Farmers we interviews are very concerned and suggest a crop yield of up to 75% less than the average yield.

by Dom Hunt

30 May 2016
Status:

Initial rainfall has been below average and intermittent. Planting has taken place but the three week dry spell post emergence is likely to reduce crop yield. Stay green but monitor closely and talk to Department of Agriculture in two weeks

by Dom Hunt

29 Apr 2016

This indicator was updated from Orange (30% less than normal year) to Green (Average for a normal year)

CREATE ACTION

Filter: Action Status | All departments | All types | Assigned to me | Agency & Network

Actions assigned to me

DUE ON
29 SEPT '16

Establish Emergency Response Team/Structure (assign people, clarified roles/functions, accountability framework, coordination and communication procedure)

In progress | 2 Notes | Mark as complete | Edit action

Budget: **£100** Type: **Mandated** Department: **Logistics** Assigned to: **Andrew Collodel** Network: **Start Network**

DUE ON
29 SEPT '16

Develop volunteer's programme/framework on emergencies

In progress | 0 Notes | Mark as complete | Edit action

Budget: **£100** Type: **Mandated** Department: **HR** Assigned to: **Andrew Collodel**

EXPIRES
13 MAY '16

Organise regular quarterly meeting of ERT

Completed | 2 Notes | 2 Doc | Edit action

Budget: **£0** Type: **Custom** Department: **HR** Assigned to: **Andrew Collodel**

EXPIRES
29 AUG '17

Identify a key communication staff member to work on communication/media outputs when there is an emergency. If this is an existing staff member, ensure this is agreed with their line manager and included in their JD.

Completed | 0 Notes | Edit action

Budget: **£100** Type: **Mandated** Department: **Logistics** Assigned to: **Andrew Collodel**
