

What is Worldview?

- + Worldview is a **predictive analysis** tool that informs humanitarian leaders and practitioners on **growing risks and probable disasters**. It utilises **indicators from 10 sectors** (academically validated) to get an overall picture of a country's status.
- + It provides the ability to **assess, discern and act** through a detailed yet simple process for decision makers
- + It enables leaders to **prepare adequately, inform succinctly and respond as needed** when crisis arise.
- + It provides **cross-country and cross sectoral comparisons** to ensure leadership has the ability to make informed decisions

Worldview indicators

CONFLICT

- Civilians injured due to violence related to conflict
- Reported cases of trafficking for exploitation
- Ongoing conflict

DESTABILIZING EVENTS

- Destabilizing events potential to affect children and their families

DISPLACEMENT

- # of in country refugees
- # of out of country refugees
- # of in country IDPs
