

Video for practitioners and community/research informants- Women's Participation in Coordination

These two sets of resources (video and presentation) are designed to disseminate the main findings and recommendations from the research on **Women's Participation in Coordination**, conducted in 2019 by the Norwegian Refugee Council (NRC), with support from the International Organisation for Migration (IOM). The **first set** is addressed to the **community and research informants**, while the **second set** is addressed to **CCCM practitioners and humanitarian workers**.

The research included field work in four locations (Afghanistan, Iraq, Kenya and Tanzania) and covered a range of displacement settings and different types of Camp Management interventions. The full report and the summary report of this research can be found in the 'Reports' section of this platform.

These resources can be accessed [here](#).

Video for practitioners and community/research informants – The Role of Older Women

These two sets of resources (video and presentation) are designed to disseminate the main findings and recommendations from the research on **Women's Participation: The Role of Older Women**, conducted in 2019 by the Norwegian Refugee Council (NRC), with support from the International Organisation for Migration (IOM). The **first set** is addressed to the **community and research informants**, while the **second set** is addressed to **CCCM practitioners and humanitarian workers**.

The research included field work in four locations (Afghanistan, Iraq, Kenya and Tanzania) and covered a range of displacement settings and different types of Camp Management interventions. The full report and the summary report of this research can be found in the 'Reports' section of this platform.
