Jordan's Integrated Context Analysis (ICA)

Livelihoods WG

27 August 2020, Amman

World Food Programme

SAVING LIVES
CHANGING LIVES

3PA: WFP's operational approach to resilience

INTEGRATED CONTEXT ANALYSIS (ICA):

National level: identifies priority geographical areas

SEASONAL LIVELIHOOD PROGRAMMING (SLP):

Sub-national level: identifies programmes and partners

COMMUNITY-BASED PARTICIPATORY PLANNING (CBPP):

Local level: inter-sectorial implementation plan and community ownership

Integrated Context Analysis (ICA)

PURPOSE

- Using trend analysis to overlay recurrence of food insecurity and natural shocks.
- Define geographical areas for medium to longer-term programme planning (**down to district level**)
- Inform targeted and coordinated efforts by government & partners for best impact.

LIVES

ICA - analysis process

- Uses national data from Department of Statistics (DoS) and other sources.
- Trend analysis for:
 - Food security.
 - Natural shocks (flood & drought hazards).
- Integrates different lenses to the analysis.
- Data analyzed at the district level.
