camp-based refugees provided with emergency domestic items.

40%

non-camp refugees provided with emergency domestic items.

70%

persons with special needs supported

126 million

USD required

NB: this amount is shared with Shelter

NEEDS

With camp and non-camp refugee population in the rise, the planned response aims to ensure consistent level of humanitarian assistance to all refugees in need.

For the refugees in non-camp settings, UNHCR and partners will continue doing a regular assessment to identify and effectively address needs of refugee families and singles.

The sudden surge of refugees across the border from Syria on the 15th August 2013 has led to an immediate and increased need in the distribution of Non-Food Items (NFI) to refugees in the camps, transit areas and non-camp settings.

OBJECTIVES

- 1 Population has specific basic domestic items
- 2 People with specific needs assisted

ACTION/OUTPUTS

- Refugees in need are provided with basic domestic items including refugees with special needs

KEY SEPTEMBER DEVELOPMENTS

- NFI distributed to the majority of arrivals into the camps in Erbil , Dohuk and Suleimaniah governates in the month of September.
- Planning for winterization support for non-camp and camp refugees is continuing with partners.
