

CYBER CITY REFUGEE CAMP, IRBID GOVERNORATE, JORDAN

Analysis with WorldView-2 Data Acquired 27 May 2013 and WorldView-1 Data Acquired 13 March 2013

This map illustrates satellite-detected shelters and structures in the Cyber City refugee camp in Irbid Governorate, Jordan. As of 27 May 2013 a total of 55 structures were identified in the camp area, and an area of 20 hectares next to the main camp is under preparation for

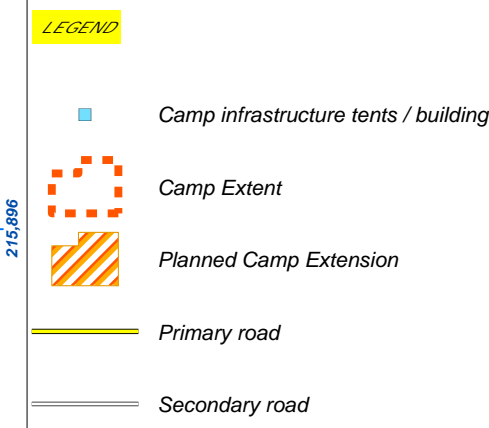

new construction. Paved and unpaved roads have been set up and some other tracks or trails define the transportation network in the camp area. This is a preliminary analysis & has not yet been validated in the field. Please send ground feedback to UNITAR / UNOSAT.
