28 JUNE 2021 (CEST)

AGENDA

08:00 - 08:15

CCCM Case Studies
Presentation from the Global CCCM Cluster on the latest edition of the CCCM Case Studies, a collection of experiences and lessons learned, with concrete examples of the delivery of efficient and timely responses, with a focus on the adaptation to challenges presented by COVID-19

08:15 - 08:30

Reflections on Women's Participation
Update on lessons learned from the Women's Participation Project from Cox Bazar, Bangladesh

08:30 - 08:45

Women Who Dare: Exploring experiences of participation among Rohingya refugees in Bangladesh
Key takeaways from a research project on how Rohingya refugee women experience participation in camp governance structures.

08:45 - 09:00

New Additions to the Community Coordination Toolbox
A practical guide for facilitating engagement of displaced and marginalized groups in humanitarian planning & decision making

09:00 - 09:30

Engaging Women Through Community-Led Projects - Challenges and Lessons Learned in Nigeria
Experiences of using CLP to encourage women's participation and as a means to mitigate against both social and cultural barriers that limit women's ability to take up leadership roles within their community.

09:30 - 10:00

Shelter Case Studies - Learning from the Past

10:00 - 10:30

Information, Education and Communications Materials for Shelter
Presentation on a database of tools used to help communicate with affected people and how it produced a compendium document along the way. Communicating safety messages needs to be more than a poster campaign.

10:30 - 11:00

Area Based Coordination - Lessons Learned in Yemen
Experience sharing of starting Area Based Coordination in Yemen- strategies, challenges and reflections on moving forward implementing such a system

11:00 - 11:15

Break

11:15 - 11:30

Localization Framework for CCCM in Somalia
Since the CCCM was activated in Somalia, the NGO WARO has been adamant about making tangible improvements on progressing localization initiatives

11:30 - 12:00

Towards Common Systems & Practices of Accountability
Experiences of building a common feedback and referral system in Cox Bazar, Bangladesh

12:00 - 12:30

UNHCR-UN-Habitat Settlement Profiling Tool and Settlement Profiles
Presentation of the Settlement Profiling Tool, aimed at guiding field personnel in creating cross-sectoral settlement profiles to help inform future urban development plans and policies in displacement affected contexts.

12:30 - 12:45

Brainstorming: Participatory Approaches in Camp/Settlement Planning in the 'New Normal'
An overview of UN-Habitat's lessons learned in participatory approaches applied in Camp/Settlement planning since 2016, and the recommendations going forward in the 'new normal'

12:45 - 13:00

Area-based Assessments to Inform Urban CCCM Responses in Cities in Burkina

13:00 - 13:15

Break

13:15 - 13:45

Life Cycle Analysis and Camp Management & Coordination
An overview of life cycle analysis and a Carbon Dioxide (CO_2) accounting tool developed for humanitarian operations. CO_2 accounting is useful for considering carbon footprints, for Sphere Standards and CO_2 balance sheets.

13:45 - 14:15

Fire Safety in Humanitarian Settlements
In this session, we will discuss challenges and opportunities for fire risk reduction in humanitarian contexts, and ongoing efforts to improve fire safety coordination at the settlement, country, and international levels.

14:15 - 14:45

Construction Good Practice Standards
Overview of the Construction Good Practice Standards, what they are and how they are used in practice.

14:45 - 15:15

HLP in CCCM: Update on the Joint Working Group by the CCCM Cluster and HLP AoR
A practical guide for facilitating the engagement of displaced women and marginalised groups in humanitarian planning and decision making

15:15 - 15:45

Collective Shelter Management in Latin America and the Caribbean
Overview of lessons learned through development of collective shelter management guide for 17 different countries in Latin America and Caribbean region.

15:45 - 16:00

Break

16:00 - 16:30

Introducing a Framework for Diaspora Engagement in Humanitarian Assistance
Introducing a framework developed with diasporas, institutional humanitarian actors, INGOs, and national actors to coordinate with one another for more effective humanitarian assistance.

16:30 - 17:00

Introducing an Ethical Framework for Using Models in Humanitarian Environments
This session will present the ethical framework for applying data science methods in humanitarian environments, with an overview of the "Decision Tree", an interactive tool to help practitioners think about the ethical, technical and practical considerations with humanitarian data science projects.

17:00 - 17:30

Presenting the OXFAM Community Perception Tracking Tool

17:30 - 17:45

Women's Participation in HLP

17:45 - 18:00

Engaging IDP Women in the Covid-19 Response in Somalia
Presentation about IOM Somalia's efforts to ensure IDP women had the opportunity to lead the COVID-19 response in their communities.

18:00 - 18:15

Using the Settlements Approach in Out-of-Camp CCCM Responses
