

6 WAYS SHELTER AND SETTLEMENTS PROGRAMMING IS HELPING TO TACKLE THE EFFECTS OF COVID-19

1

Adapting COVID safety measures for distributions and construction site management.

2

Distribution of COVID specific household items.

3

Providing temporary accommodation and shelter/ housing upgrades considering;

- a. Adequate ventilation
- b. Reducing over crowdedness
- c. Supporting various groups such as vulnerable persons, key workers, returned expatriates.

4

Decongesting and managing settlements and collective centers.

5

Planning and providing isolation, quarantine and medical facilities.

6

Tackling evictions

These are the most common short to mid-term shelter interventions carried out by shelter partners since the beginning of the COVID outbreak. For further information related to the Coronavirus disease (COVID-19) outbreak, please visit the following page: ShelterCluster.org/COVID19
