Part One: General Provisions

1 Scope and Application

Adoption

- 1.1 These Classification Rules and Regulations are referred to throughout this document as the '**Classification Rules**'. They have been prepared by World Para Alpine Skiing to implement the requirements of the 2015 IPC Athlete Classification Code and International Standards.
- 1.2 The Classification Rules have been adopted by World Para Alpine Skiing on 1 August 2017.
- 1.3 These Classification Rules refer to a number of Appendices. These Appendices form an integral part of the Classification Rules.
- 1.4 These Classification Rules form part of the World Para Alpine Skiing Rules and Regulations.
- 1.5 The Classification Rules are supplemented by a number of Classification forms that have been prepared to assist Athlete Evaluation. These forms are available from World Para Alpine Skiing, and can be amended by World Para Alpine Skiing from time to time.

Classification

- 1.6 Classification is undertaken to:
 - a) define who is eligible to compete in Para sport and consequently who has the opportunity to reach the goal of becoming a Paralympic Athlete; and
 - b) group Athletes into Sport Classes which aim to ensure that the impact of Impairment is minimised and sporting excellence determines which Athlete or team is ultimately victorious.

Application

- 1.7 These Classification Rules apply to all Athletes and Athlete Support Personnel who are registered and/or licensed with World Para Alpine Skiing, and/or participate in any Events or Competitions organised, authorised or recognised by World Para Alpine Skiing.

- 1.8 These Classification Rules must be read and applied in conjunction with all other applicable rules of World Para Alpine Skiing, including but not limited to the sport technical rules of World Para Alpine Skiing. In the event of any conflict between these Classification Rules and any other rules, the Classification Rules shall take precedence.

International Classification

- 1.9 World Para Alpine Skiing will only permit an Athlete to compete in an International Competition if that Athlete has been allocated a Sport Class (other than Sport Class Not Eligible) and designated with a Sport Class Status in accordance with these Classification Rules.
- 1.10 World Para Alpine Skiing will provide opportunities for Athletes to be allocated a Sport Class and designated with a Sport Class Status in accordance with these Classification Rules at Recognised Competitions (or other such locations as defined by World Para Alpine Skiing). World Para Alpine Skiing will advise Athletes, National Bodies and National Paralympic Committees in advance as to such Recognised Competitions (or other such locations).

Interpretation and Relationship to Code

- 1.11 **References to an ‘Article’ mean an Article of these Classification Rules, references to an ‘Appendix’ mean an Appendix to these Classification Rules, and Capitalised terms used in these Classification Rules have the meaning given to them in the Glossary to these Classification Rules.**
- 1.12 **References to a ‘sport’ in these Classification Rules refer to both a sport and an individual discipline within World Para Alpine Skiing (e.g. Slalom).**
- 1.13 The Appendices to these Classification Rules are part of these Classification Rules both of which may be amended, supplemented and/or replaced by the World Para Alpine Skiing from time to time.
- 1.14 Headings used in these Classification Rules are used for convenience only and have no meaning that is separate from the Article or Articles to which they refer.
- 1.15 These Classification Rules are to be applied and interpreted as an independent text but in a manner that is consistent with the 2015 IPC Athlete Classification Code and the accompanying International Standards.

2 Roles and Responsibilities

2.1 It is the personal responsibility of Athletes, Athlete Support Personnel, and Classification Personnel to familiarise themselves with all the requirements of these Classification Rules.

Athlete Responsibilities

2.2 The roles and responsibilities of Athletes include to:

- a) be knowledgeable of and comply with all applicable policies, rules and processes established by these Classification Rules;
- b) participate in Athlete Evaluation in good faith;
- c) ensure when appropriate that adequate information related to Health Conditions and Eligible Impairments is provided and/or made available to World Para Alpine Skiing;
- d) cooperate with any investigations concerning violations of these Classification Rules; and
- e) actively participate in the process of education and awareness, and Classification research, through exchanging personal experiences and expertise.

Athlete Support Personnel Responsibilities

2.3 The roles and responsibilities of Athlete Support Personnel include to:

- a) be knowledgeable of and comply with all applicable policies, rules and processes established by these Classification Rules;
- b) use their influence on Athlete values and behaviour to foster a positive and collaborative Classification attitude and communication;
- c) assist in the development, management and implementation of Classification Systems; and
- d) cooperate with any investigations concerning violations of these Classification Rules.

Classification Personnel Responsibilities

2.4 The roles and responsibilities of Classification Personnel include to:

- a) have a complete working knowledge of all applicable policies, rules and processes established by these Classification Rules;

- b) use their influence to foster a positive and collaborative Classification attitude and communication;
- c) assist in the development, management and implementation of Classification Systems, including participation in education and research; and
- d) cooperate with any investigations concerning violations of these Classification Rules.

Part Two: Classification Personnel

3 Classification Personnel

- 3.1 Classification Personnel are fundamental to the effective implementation of these Classification Rules. World Para Alpine Skiing will appoint a number of Classification Personnel, each of whom will have a key role in the organisation, implementation and administration of Classification for the World Para Alpine Skiing.

Head of Classification

- 3.2 World Para Alpine Skiing must appoint a Head of Classification. The Head of Classification is a person responsible for the direction, administration, co-ordination and implementation of Classification matters for World Para Alpine Skiing.
- 3.3 If a Head of Classification cannot be appointed, World Para Alpine Skiing may appoint another person, or group of persons collectively (provided such person or group of persons agrees to comply with the Classifier Code of Conduct), to act as the Head of Classification.
- 3.4 The Head of Classification is not required to be a certified Classifier.
- 3.5 The Head of Classification may delegate specific responsibilities and/or the transfer specific tasks to designated Classifiers, or other persons authorised by World Para Alpine Skiing.
- 3.6 Nothing in these Classification Rules prevents the Head of Classification (if certified as a Classifier) from also being appointed as a Classifier and/or Chief Classifier.

Classifiers

- 3.7 A Classifier is a person authorised as an official and certified by the World Para Alpine Skiing to conduct some or all components of Athlete Evaluation as a member of a Classification Panel.

Chief Classifiers

- 3.8 A Chief Classifier is a Classifier appointed to direct, administer, co-ordinate and implement Classification matters for a specific Competition or at such other location as defined by World Para Alpine Skiing. In particular, a Chief Classifier may be required by World Para Alpine Skiing to do the following:
- 3.8.1 identify those Athletes who will be required to attend an Evaluation Session;

- 3.8.2 supervise Classifiers to ensure that these Classification Rules are properly applied during Classification;
 - 3.8.3 manage Protests in consultation with World Para Alpine Skiing; and
 - 3.8.4 liaise with the relevant Competition organisers to ensure that all travel, accommodation and other logistics are arranged in order that Classifiers may carry out their duties at the Competition.
- 3.9 A Chief Classifier may delegate specific responsibilities and/or transfer specific tasks to other appropriately qualified Classifiers, or other appropriately qualified World Para Alpine Skiing officers or representatives, and/or appropriately qualified persons in the local organising committee of a Competition.

Trainee Classifiers

- 3.10 A Trainee Classifier is a person who is in the process of formal training by World Para Alpine Skiing.
- 3.11 World Para Alpine Skiing may appoint Trainee Classifiers to participate in some or all components of Athlete Evaluation under the supervision of a Classification Panel, to develop Classifier Competencies.

4 Classifier Competencies, Training and Certification

- 4.1 A Classifier will be authorised to act as a Classifier if that Classifier has been certified by World Para Alpine Skiing as having the relevant Classifier Competencies.
- 4.2 World Para Alpine Skiing must provide training and education to Classifiers to ensure Classifiers obtain and/or maintain Classifier Competencies.
- 4.3 World Para Alpine Skiing must specify and publish Classifier Competencies in a manner that is transparent and accessible. The Classifier Competencies must include that a Classifier has:
 - 4.3.1 a thorough understanding of these Classification Rules;
 - 4.3.2 an understanding of Para alpine skiing, including an understanding of the technical rules of the sport;
 - 4.3.3 an understanding of the Code and the International Standards; and

- 4.3.4 a professional qualification(s), level of experience, skills and/or competencies in order to act as a Classifier for World Para Alpine Skiing. These include that Classifiers must be a certified health professional in a field relevant to the Eligible Impairment category which World Para Alpine Skiing at its sole discretion deems acceptable, such as a physician or physiotherapist for Athletes with a Physical Impairment or an ophthalmologist or optometrist for Athletes with a Vision Impairment.
- 4.4 World Para Alpine Skiing must establish a process of Classifier Certification by which Classifier Competencies are assessed. This process must include:
 - 4.4.1 a process for the certification of Trainee Classifiers;
 - 4.4.2 quality assessment for the period of certification;
 - 4.4.3 a process for handling substandard performance, including options for remediation and/or withdrawal of certification; and
 - 4.4.4 a process for Re-certification of Classifiers.
- 4.5 World Para Alpine Skiing must specify Entry-Level Criteria applicable to persons who wish to become Trainee Classifiers. World Para Alpine Skiing will provide Entry-Level Education to Trainee Classifiers.
- 4.6 World Para Alpine Skiing must provide Continuing Education to Classifiers for the purposes of Certification and Re-certification.
- 4.7 World Para Alpine Skiing may provide that a Classifier is subject to certain limitations, including (but not limited to):
 - 4.7.1 a limitation on the Impairment type for which a Classifier is certified to act as a Classifier;
 - 4.7.2 a limitation on the components of Athlete Evaluation that a Classifier is certified to conduct;
 - 4.7.3 a limitation on the level of Competition or Event that a Classifier is authorised to act as a Classifier;
 - 4.7.4 the maximum time that a Classifier Certification is valid;
 - 4.7.5 that Classifier Certification is subject to review within a specific time frame by reference to the Classifier Competencies;

- 4.7.6 that a Classifier may lose Classifier Certification if World Para Alpine Skiing is not satisfied that the Classifier possesses the required Classifier Competencies; and/or
- 4.7.7 that a Classifier may regain Classifier Certification if World Para Alpine Skiing is satisfied that the Classifier possesses the required Classifier Competencies.

5 Classifier Code of Conduct

- 5.1 The integrity of Classification in World Para Alpine Skiing depends on the conduct of Classification Personnel. World Para Alpine Skiing has therefore adopted a set of **professional conduct standards referred to as the 'Classifier Code of Conduct'**.
- 5.2 All Classification Personnel must comply with the Classifier Code of Conduct.
- 5.3 Any person who believes that any Classification Personnel may have acted in a manner that contravenes the Classifier Code of Conduct must report this to World Para Alpine Skiing.
- 5.4 If World Para Alpine Skiing receives such a report it will investigate the report and, if appropriate, take disciplinary measures.
- 5.5 World Para Alpine Skiing has discretion to determine whether or not a Classifier has an actual, perceived and/or potential conflict of interest.

Part Three: Athlete Evaluation

6 General Provisions

- 6.1 World Para Alpine Skiing has specified in these Classification Rules the process, assessment criteria and methodology whereby Athletes will be allocated a Sport Class and designated a Sport Class Status. This process is referred to as Athlete Evaluation.
- 6.2 Athlete Evaluation encompasses a number of steps and these Classification Rules therefore include provisions regarding:
 - 6.2.1 an assessment of whether or not an Athlete has an Eligible Impairment for the sport;
 - 6.2.2 an assessment of whether an Athlete complies with Minimum Impairment Criteria for the sport; and
 - 6.2.3 the allocation of a Sport Class (and designation of a Sport Class Status) depending on the extent to which an Athlete is able to execute the specific tasks and activities fundamental to the sport (with the exception for athletes with Vision Impairment, where the current assessment criteria is not yet sport specific and does not include a requirement that the Athletes are assessed in respect of the 'extent to which the Athlete is able to execute the specific tasks and activities fundamental to the sport')

7 Eligible Impairment

- 7.1 Any Athlete wishing to compete in a sport governed by World Para Alpine Skiing must have an Eligible Impairment and that Eligible Impairment must be Permanent.
- 7.2 Appendices Appendix One and Appendix Two of these Classification Rules specify the Eligible Impairment(s) an Athlete must have in order to compete in a sport governed by World Para Alpine Skiing.
- 7.3 Any Impairment that is not listed as an Eligible Impairment in Appendices Appendix One and Appendix Two is referred to as a Non-Eligible Impairment. Appendix includes examples of Non-Eligible Impairments.

Assessment of Eligible Impairment

- 7.4 World Para Alpine Skiing must determine if an Athlete has an Eligible Impairment.

- 7.4.1 In order to be satisfied that an Athlete has an Eligible Impairment, World Para Alpine Skiing may require any Athlete to demonstrate that he or she has an Underlying Health Condition. Appendix lists examples of Health Conditions that are not Underlying Health Conditions.
- 7.4.2 The means by which World Para Alpine Skiing determines that an individual Athlete has an Eligible Impairment is at the sole discretion of World Para Alpine Skiing. World Para Alpine Skiing may consider that **an Athlete's Eligible Impairment** is sufficiently obvious and therefore not require evidence that **demonstrates the Athlete's Eligible Impairment**.
- 7.4.3 If in the course of determining if an Athlete has an Eligible Impairment World Para Alpine Skiing becomes aware that the Athlete has a Health Condition, and believes that the impact of that Health Condition may be that it is unsafe for that Athlete to compete or there is a risk to the health of the Athlete (or other Athletes) if that Athlete competes, it may designate the Athlete as Classification Not Completed (CNC) in accordance with Article 10 of these Classification Rules. In such instances World Para Alpine Skiing will explain the basis of its designation to the relevant National Body and/or National Paralympic Committee.
- 7.5 An Athlete must supply World Para Alpine Skiing with Diagnostic Information that must be provided as follows:
- 7.5.1 The relevant National Body and/or National Paralympic Committee must submit a Medical Diagnostics Form to World Para Alpine Skiing, upon completing the registration of an Athlete.
- 7.5.2 The Medical Diagnostics Form must be completed in English and dated and signed by a certified medical doctor.
- 7.5.3 The Medical Diagnostic Form must be submitted with supportive Diagnostic Information if required by World Para Alpine Skiing.
- 7.6 World Para Alpine Skiing may require an Athlete to re-submit the Medical Diagnostics Form (with necessary supportive Diagnostic Information) if the World Para Alpine Skiing at its sole discretion considers the Medical Diagnostic Form and/or the Diagnostic Information to be incomplete or inconsistent.
- 7.7 If World Para Alpine Skiing requires an Athlete to provide Diagnostic Information it may consider the Diagnostic Information itself, and/or may appoint an Eligibility Assessment Committee to do so.

- 7.8 The process by which an Eligibility Assessment Committee is formed and considers Diagnostic Information is as follows:
- 7.8.1 The Head of Classification will notify the relevant National Body or National Paralympic Committee that Diagnostic Information must be provided on behalf of the Athlete. The Head of Classification will explain what Diagnostic Information is required, and the purposes for which it is required.
 - 7.8.2 The Head of Classification will set timelines for the production of Diagnostic Information.
 - 7.8.3 The Head of Classification will appoint an Eligibility Assessment Committee. The Eligibility Assessment Committee must, if practicable, be comprised of the Head of Classification and at least two other experts with appropriate medical qualifications. All members of the Eligibility Assessment Committee must sign confidentiality undertakings.
 - 7.8.4 If the Head of Classification believes that he or she does not hold the necessary competencies to assess the Diagnostic Information, he or she will not participate in the review of the Diagnostic Information, but will assist the Eligibility Assessment Committee.
 - 7.8.5 Wherever possible all references to the individual Athlete and the source(s) of the Diagnostic Information should be withheld from the Eligibility Assessment Committee. Each member of the Eligibility Assessment Committee will review the Diagnostic Information and decide whether such information establishes the existence of an Eligible Impairment.
 - 7.8.6 If the Eligibility Assessment Committee concludes that the Athlete has an Eligible Impairment the Athlete will be permitted to complete Athlete Evaluation with a Classification Panel.
 - 7.8.7 If the Eligibility Assessment Committee is not satisfied that the Athlete has an Eligible Impairment the Head of Classification will provide a decision to this effect in writing to the relevant National Body or National Paralympic Committee. The National Body or National Paralympic Committee will be given an opportunity to comment on the decision and may provide further Diagnostic Information to the Eligibility Assessment Committee for review. If the decision is subsequently revised, the Head of Classification will inform the National Body or National Paralympic Committee.

- 7.8.8 If the decision is not changed, the Head of Classification will issue a final decision letter to the National Body or National Paralympic Committee and the Athlete will be allocated Sport Class Not Eligible (NE) in accordance with the provisions of Article 18.3 of these Classification Rules.
- 7.8.9 The Eligibility Assessment Committee may make its decisions by a majority. If the Head of Classification is part of the Eligibility Assessment Committee, he or she may veto any decision if he or she does not agree that the Diagnostic Information supports the conclusion that the Athlete has an Eligible Impairment.
- 7.9 World Para Alpine Skiing may delegate one or more of the functions described above to a Classification Panel.

8 Minimum Impairment Criteria

- 8.1 An Athlete who wishes to compete in a sport must have an Eligible Impairment that complies with the relevant Minimum Impairment Criteria for that sport.
- 8.2 World Para Alpine Skiing has set Minimum Impairment Criteria to ensure that an **Athlete's Eligible** Impairment affects the extent to which an Athlete is able to execute the specific tasks and activities fundamental to the sport.
- 8.3 Appendices Appendix One and Appendix Two of these Classification Rules specify the Minimum Impairment Criteria applicable to each sport and the process by which **an Athlete's compliance with Minimum** Impairment Criteria is to be assessed by a Classification Panel as part of an Evaluation Session.
- 8.4 Any Athlete who does not comply with the Minimum Impairment Criteria for a sport must be allocated Sport Class Not Eligible (NE) for that sport.
- 8.5 A Classification Panel must assess whether or not an Athlete complies with Minimum Impairment Criteria. This will take place as part of an Evaluation Session. Prior to participating in an Evaluation Session, an Athlete must first satisfy the World Para Alpine Skiing that he or she has an Eligible Impairment.
- 8.6 In relation to the use of Adaptive Equipment, World Para Alpine Skiing has set Minimum Impairment Criteria as follows:

- 8.6.1 for Eligible Impairments other than Vision Impairment, Minimum Impairment Criteria must *not* consider the extent to which the use of Adaptive Equipment might affect how the Athlete is able to execute the specific tasks and activities fundamental to the sport;
- 8.6.2 for Vision Impairment, Minimum Impairment Criteria must consider the extent to which the use of Adaptive Equipment might affect how the Athlete is able to execute the specific tasks and activities fundamental to the sport.

9 Sport Class

- 9.1 A Sport Class is a category defined by World Para Alpine Skiing in these Classification Rules, in which Athletes are grouped by reference to the impact of an Eligible Impairment on their ability to execute the specific tasks and activities fundamental to a sport.
 - 9.1.1 An Athlete who does not have an Eligible Impairment or does not comply with the Minimum Impairment Criteria for a sport must be allocated Sport Class Not Eligible (NE) for that sport in accordance with the provisions of Article 18 of these Classification Rules.
 - 9.1.2 An Athlete who complies with the Minimum Impairment Criteria for a sport must be allocated a Sport Class (subject to the provisions in these Classification Rules concerning Failure to Attend Athlete Evaluation and Suspension of Athlete Evaluation).
 - 9.1.3 Except for the allocation of Sport Class Not Eligible (NE) by World Para Alpine Skiing (in accordance with Article 18.1), the allocation of a Sport Class must be based solely on an evaluation by a Classification Panel of the extent to which **the Athlete's Eligible** Impairment affects the specific tasks and activities fundamental to sport. This evaluation must take place in a controlled non-competitive environment, which allows for the repeated observation of key tasks and activities.
- 9.2 Appendices Appendix One and Appendix Two of these Classification Rules specify the assessment methodology and assessment criteria for the allocation of a Sport Class and the designation of Sport Class Status.

10 Classification Not Completed

- 10.1 If at any stage of Athlete Evaluation World Para Alpine Skiing or a Classification Panel is unable to allocate a Sport Class to an Athlete, the Head of Classification or the relevant Chief Classifier may designate that Athlete as Classification Not Completed (CNC).
- 10.2 The designation Classification Not Completed (CNC) is not a Sport Class and is not subject to the provisions in these Classification Rules concerning Protests. The designation Classification Not Completed (CNC) will however be recorded for the purpose of the World Para Alpine Skiing Classification Master List.
- 10.3 An Athlete who is designated as Classification Not Completed (CNC) may not compete in the sport of World Para Alpine Skiing. See Article 30 for remediation.

Part Four: Athlete Evaluation and the Classification Panel

11 The Classification Panel

- 11.1 A Classification Panel is a group of Classifiers appointed by World Para Alpine Skiing to conduct some or all of the components of Athlete Evaluation including as part of an Evaluation Session.

General Provisions

- 11.2 A Classification Panel must be comprised of at least of two certified Classifiers. In exceptional circumstances a Chief Classifier may provide that a Classification Panel comprise only one Classifier, subject to that Classifier holding a valid medical qualification.
- 11.3 A Trainee Classifier may be part of a Classification Panel in addition to the required number of certified Classifiers, and may participate in Athlete Evaluation.

12 Classification Panel Responsibilities

- 12.1 A Classification Panel is responsible for conducting an Evaluation Session. As part of the Evaluation Session the Classification Panel must:
- 12.1.1 assess whether an Athlete complies with Minimum Impairment Criteria for the sport;
 - 12.1.2 assess the extent to which an Athlete is able to execute the specific tasks and activities fundamental to the sport; and
 - 12.1.3 conduct (if required) Observation in Competition.
- 12.2 Following the Evaluation Session the Classification Panel must allocate a Sport Class and designate a Sport Class Status, or designate Classification Not Completed (CNC).
- 12.3 Prior to the Evaluation Session, the assessment as to whether an Athlete has an Eligible Impairment must be undertaken by World Para Alpine Skiing, unless World Para Alpine Skiing requests this to be undertaken by a Classification Panel.
- 12.4 The Evaluation Session must take place in a controlled non-competitive environment that allows for the repeated observation of key tasks and activities.

- 12.4.1 Although other factors such as low fitness level, poor technical proficiency and aging may also affect the fundamental tasks and activities of the sport, the allocation of Sport Class must not be affected by these factors.
- 12.5 An Athlete who has a Non-Eligible Impairment and an Eligible Impairment may be evaluated by a Classification Panel on the basis of the Eligible Impairment, provided the Non-Eligible Impairment **does not affect the Classification Panel's ability to allocate a Sport Class.**
- 12.6 The Sport Class allocated to the Athlete will be in accordance with the processes specified in Appendices Appendix One and Appendix Two.

13 Evaluation Sessions

- 13.1 This Article applies to all Evaluation Sessions.
- 13.2 **The Athlete's National Body or National Paralympic Committee is responsible for ensuring that Athletes comply with their duties in relation to the provisions in this Article.**
- 13.3 In respect of Athletes:
 - 13.3.1 Athletes have the right to be **accompanied by a member of the Athlete's National Body or National Paralympic Committee** when attending an Evaluation Session. The Athlete must be accompanied if the Athlete is a minor or has an Intellectual Impairment.
 - 13.3.2 The person chosen by the Athlete to accompany the Athlete at an Evaluation Session **should be familiar with the Athlete's** Impairment and sport history.
 - 13.3.3 The Athlete and accompanying person must acknowledge the terms of the Athlete Evaluation Agreement Form as specified by World Para Alpine Skiing.
 - 13.3.4 The Athlete must verify his or her identity to the satisfaction of the Classification Panel, by providing a document such as a passport, ID card, World Para Alpine Skiing license card or event accreditation.
 - 13.3.5 The Athlete must attend the Evaluation Session with any sports attire or equipment relevant to the sport for which the Athlete wishes to be allocated a Sport Class.

- 13.3.6 The Athlete must disclose the use of any medication and/or medical device/implant to the Classification Panel.
- 13.3.7 The Athlete must comply with all reasonable instructions given by a Classification Panel.
- 13.4 In respect of the Classification Panel:
 - 13.4.1 The Classification Panel may request that an Athlete provide medical **documentation relevant to the Athlete's** Eligible Impairment if the Classification Panel believes that this will be necessary in order for it to allocate a Sport Class.
 - 13.4.2 The Classification Panel will conduct Evaluation Sessions in English unless otherwise stipulated by World Para Alpine Skiing. If the Athlete requires an **interpreter, a member of the Athlete's National Body or National Paralympic Committee** will be responsible for arranging for an interpreter. The interpreter is permitted to attend the Evaluation Session in addition to the person referred to in Article 13.3.1 above.
 - 13.4.3 The Classification Panel may at any stage seek medical, technical or scientific opinion(s), with the agreement of the Head of Classification and/or a Chief Classifier if the Classification Panel feels that such opinion(s) is necessary in order to allocate a Sport Class.
 - 13.4.4 In addition to any opinion(s) sought in accordance with Article 13.4.3, a Classification Panel may only have regard to evidence supplied to it by the relevant Athlete, National Body, National Paralympic Committee and World Para Alpine Skiing (from any source) when allocating a Sport Class.
 - 13.4.5 The Classification Panel may make, create or use video footage and/or other records to assist it when allocating a Sport Class.

14 Observation in Competition

- 14.1 A Classification Panel may require that an Athlete undertake Observation in Competition Assessment before it allocates a final Sport Class and designates a Sport Class Status to that Athlete.
- 14.2 The methods by which Observation in Competition Assessment may be undertaken, and the matters to be observed, are set out in Appendix Appendix One.

- 14.3 If a Classification Panel requires an Athlete to complete Observation in Competition Assessment, the Athlete will be entered in the Competition with the Sport Class allocated by the Classification Panel after the conclusion of the initial components of the Evaluation Session.
- 14.4 An Athlete who is required to complete Observation in Competition Assessment will be designated with Tracking Code: Observation Assessment (OA). This replaces the **Athlete's Sport Class Status** for the duration of Observation in Competition Assessment.
- 14.5 Observation in Competition Assessment must take place during First Appearance. In this regard:
- 14.5.1 First Appearance is the first time an Athlete competes in an Event during a Competition in a particular Sport Class.
 - 14.5.2 First Appearance within a Sport Class applies to participation in all Events within the same Sport Class.
- 14.6 If an Athlete is:
- a) subject to a Protest following Observation in Competition; and
 - b) the second Evaluation Session is conducted at that same Competition; and
 - c) pursuant to the second Evaluation Session the Athlete is required to undergo Observation in Competition,
- Observation in Competition must take place at the next opportunity within the Sport Class allocated to the Athlete by the Protest Panel with Tracking Code Observation Assessment (OA).
- 14.6.1 The Classification Panel must allocate a Sport Class and **replace the Athlete's** Tracking Code Observation Assessment (OA) by designating a Sport Class Status upon completion of First Appearance (or completion of any Observation in Competition conducted as part of a Protest). **If changes to an Athlete's Sport Class or Sport Class Status** are made following Observation in Competition, the changes are effective immediately.
- 14.7 The impact of an Athlete changing Sport Class after First Appearance on medals, records and results is detailed in the World Para Alpine Skiing Rules and Regulations.

15 Sport Class Status

- 15.1 If a Classification Panel allocates a Sport Class to an Athlete, it must also designate a Sport Class Status. Sport Class Status indicates whether or not an Athlete will be **required to undertake Athlete Evaluation in the future**; and if the Athlete's Sport Class may be subject to Protest.
- 15.2 The Sport Class Status designated to an Athlete by a Classification Panel at the conclusion of an Evaluation Session will be one of the following:
- Confirmed (C)
 - Review (R)
 - Review with a Fixed Review Date (FRD)

Sport Class Status New

- 15.3 An Athlete is allocated Sport Class Status New (N) by World Para Alpine Skiing prior to attending the **Athlete's** first Evaluation Session. An Athlete with Sport Class Status New (N) must attend an Evaluation Session prior to competing at any International Competition, unless World Para Alpine Skiing specifies otherwise.

Sport Class Status Confirmed

- 15.4 An Athlete will be designated with Sport Class Status Confirmed (C) if the Classification Panel is satisfied that both **the Athlete's Eligible Impairment** and the **Athlete's ability to execute the specific tasks and activities fundamental to the sport** are and will remain stable (with the exception for Athletes with Vision Impairment as referred to in Article 6.2.3).
- 15.4.1 An Athlete with Sport Class Status Confirmed (C) is not required to undergo any further Athlete Evaluation (save pursuant to the provisions in these Classification Rules concerning Protests (Article 19), Medical Review (Article 31) and changes to Sport Class criteria (Article 15.7)).
- 15.4.2 A Classification Panel that consists of only one Classifier may not designate an Athlete with Sport Class Status Confirmed (C) but must designate the Athlete with Sport Class Status Review (R).

Sport Class Status Review

- 15.5 An Athlete will be designated Sport Class Status Review (R) if the Classification Panel believes that further Evaluation Sessions will be required.

- 15.5.1 A Classification Panel may base its belief that further Evaluation Sessions will be required based on a number of factors, including but not limited to situations where the Athlete has only recently entered Competitions sanctioned or recognised by World Para Alpine Skiing; has a fluctuating and/or progressive Impairment/Impairments that is/are permanent but not stable; and/or has not yet reached full muscular skeletal or sports maturity.
- 15.5.2 An Athlete with Sport Class Status Review (R) must complete Athlete Evaluation prior to competing at any subsequent International Competition, unless World Para Alpine Skiing specifies otherwise.

Sport Class Status Review with Fixed Review Date

- 15.6 An Athlete may be designated Sport Class Status Review with a Fixed Review Date (FRD) if the Classification Panel believes that further Athlete Evaluation will be required but will not be necessary before a set date, being the Fixed Review Date.
 - 15.6.1 An Athlete with Sport Class Status Review with a Fixed Review Date (FRD) will be required to attend an Evaluation Session at the first opportunity after the relevant Fixed Review Date. For example, an Athlete with Sport Class Status Review with a Fixed Review Date of 2018 will be required to attend an Evaluation Session at the first opportunity after 1 July 2018.
 - 15.6.2 An Athlete who has been allocated Sport Class Status Review with a Fixed Review Date (FRD) may not attend an Evaluation Session prior to the relevant Fixed Review Date save pursuant to a Medical Review Request and/or Protest.
 - 15.6.3 A Classification Panel that consists of only one Classifier may not designate an Athlete with Sport Class Status Review with a Fixed Review Date (FRD) but must designate the Athlete with Sport Class Status Review (R).

Changes to Sport Class Criteria

- 15.7 If World Para Alpine Skiing changes any Sport Class criteria and/ or assessment methods defined in the Appendices to these Rules, then:
 - 15.7.1 World Para Alpine Skiing may re-assign any Athlete who holds Sport Class Status Confirmed (C) with Sport Class Status Review (R) and require that the Athlete attend an Evaluation Session at the earliest available opportunity; or
 - 15.7.2 World Para Alpine Skiing may remove the Fixed Review Date for any Athlete and require that the Athlete attend an Evaluation Session at the earliest available opportunity; and

- 15.7.3 in both instances the relevant National Body or National Paralympic Committee shall be informed as soon as is practicable.

16 Multiple Sport Classes

- 16.1 This Article applies to Athletes who are potentially eligible to be allocated more than one Sport Class.

Multiple Eligible Impairments

- 16.2 An Athlete who has a Physical and Vision Impairment may be eligible to be allocated more than one Sport Class in relation to those Eligible Impairments. In such instances:
- 16.2.1 the Athlete's **National Body or National Paralympic Committee must notify World Para Alpine Skiing as to the Athlete's Eligible Impairments** and the Athlete's eligibility to be allocated more than one Sport Class in respect of those Impairment types, and provide all necessary medical diagnostic information as required;
 - 16.2.2 the Athlete must be offered the opportunity to participate in an Evaluation Session in respect of each Sport Class relevant to his or her multiple Impairments, either at the relevant Competition or the subsequent Competition;
 - 16.2.3 at the conclusion of the Evaluation Sessions referred to in Article 16.2.2 the Athlete must choose the **Sport Class that he or she wishes to compete in ('the preferred Sport Class')**. If the allocation of any Sport Class is subject to Observation in Competition the Athlete must select the preferred Sport Class before making any First Appearance;
 - 16.2.4 the selection of Sport Class will be subject to all applicable World Para Alpine Skiing Rules and Regulations (including but not limited to those in relation to the use of equipment, the weight of equipment, and the use of guides); and
 - 16.2.5 the Athlete will be permitted to compete in the preferred Sport Class and **details of the Athlete's preferred Sport Class will be published.**

Athletes with Physical Impairment

- 16.3 An Athlete who has a Physical Impairment may be allocated more than one Sport Class relevant to that Physical Impairment subject to any applicable World Para Alpine Skiing Rules and Regulations.
- 16.4 Any such Athlete must not be allocated more than one Sport Class if the combination of those Sport Classes would allow the Athlete to compete sitting in one Event, and standing in another Event, at the same Competition.

Changing Sport Class

- 16.5 An Athlete who has a Physical and Vision Impairment may request to change his or her preferred Sport Class:
- a) **at the end of the season when the Athlete's** first Evaluation Session was completed; or
 - b) after the close of the Paralympic Winter Games and before the start of the next season thereafter.
- 16.6 A request to change a preferred Sport Class must be made to World Para Alpine Skiing by the Athlete's **National Body or National Paralympic** Committee. The application must be submitted to World Para Alpine Skiing in accordance with the time frame identified under Article 16.5.
- 16.7 Nothing in this Article 0 precludes an Athlete from making a Medical Review Request at any time in respect of any Sport Class.

17 Notification

- 17.1 The outcome of Athlete Evaluation must be notified to the Athlete and/or National Body or National Paralympic Committee and published as soon as practically possible after completion of Athlete Evaluation.
- 17.2 World Para Alpine Skiing must publish the outcome of Athlete Evaluation at the Competition following Athlete Evaluation, and the outcomes must be made available post Competition via the Classification Master List at World Para Alpine Skiing website.

Part Five: Sport Class Not Eligible

18 Sport Class Not Eligible

General Provisions

- 18.1 If World Para Alpine Skiing determines that an Athlete:
- 18.1.1 has an Impairment that is not an Eligible Impairment; or
 - 18.1.2 does not have an Underlying Health Condition,
World Para Alpine Skiing must allocate that Athlete Sport Class Not Eligible (NE).
- 18.2 If a Classification Panel determines that an Athlete who has an Eligible Impairment does not comply with Minimum Impairment Criteria for a sport that Athlete must be allocated Sport Class Not Eligible (NE) for that sport.

Absence of Eligible Impairment

- 18.3 If World Para Alpine Skiing determines that an Athlete does not have an Eligible Impairment, that Athlete:
- 18.3.1 will not be permitted to attend an Evaluation Session; and
 - 18.3.2 will be allocated with Sport Class Not Eligible (NE) and designated with Sport Class Status Confirmed (C) by World Para Alpine Skiing.
- 18.4 If another International Sport Federation has allocated an Athlete with Sport Class Not Eligible (NE) because the Athlete does not have an Eligible Impairment World Para Alpine Skiing may likewise do so without the need for the process detailed in Article 7 of these Classification Rules.
- 18.5 An Athlete who is allocated Sport Class Not Eligible (NE) by World Para Alpine Skiing or a Classification Panel (if delegated by World Para Alpine Skiing) because that Athlete has
- 18.5.1 an Impairment that is not an Eligible Impairment; or
 - 18.5.2 a Health Condition that is not an Underlying Health Condition;
- has no right to request such determination be reviewed by a second Classification Panel and will not be permitted to participate in any sport.

Absence of Compliance with Minimum Impairment Criteria

- 18.6 A second Classification Panel must review by way of a second Evaluation Session any Athlete who is allocated Sport Class Not Eligible (NE) on the basis that a Classification Panel determines that the Athlete does not comply with Minimum Impairment Criteria. This must take place as soon as is practicable.
- 18.6.1 Pending the second Evaluation Session the Athlete will be allocated Sport Class Not Eligible (NE) and designated Sport Class Status Review (R). The Athlete will not be permitted to compete before such re-assessment.
- 18.6.2 If the second Classification Panel determines the Athlete does not comply with Minimum Impairment Criteria (or if the Athlete declines to participate in a second Evaluation Session at the time set by the Chief Classifier); Sport Class Not Eligible (NE) will be allocated and the Athlete designated with Sport Class Status Confirmed (C).
- 18.7 If an Athlete makes (or is subject to) a Protest on a previously allocated Sport Class other than Not Eligible (NE) and is allocated Sport Class Not Eligible (NE) by a Protest Panel, the Athlete must be provided with a further and final Evaluation Session which will review the decision to allocate Sport Class Not Eligible (NE) made by the Protest Panel.
- 18.8 If a Classification Panel allocates Sport Class Not Eligible (NE) on the basis that it has determined that an Athlete does not comply with Minimum Impairment Criteria for a sport the Athlete may be eligible to compete in another sport, subject to Athlete Evaluation for that sport.
- 18.9 If an Athlete is allocated Sport Class Not Eligible (NE), this does not question the presence of a genuine Impairment. It is only a ruling on the eligibility of the Athlete to compete in the sport of World Para Alpine Skiing.

Part Six: Protests

Protests

19 Scope of a Protest

- 19.1 A Protest may only be made in respect of an Athlete's Sport Class. A Protest may not be made in respect of an Athlete's Sport Class Status.
- 19.2 A Protest may not be made in respect of an Athlete who has been allocated Sport Class Not Eligible (NE).

20 Parties Permitted to Make a Protest

A Protest may only be made by one of the following bodies:

- 20.1 a National Body (see Articles 21-22); or
- 20.2 a National Paralympic Committee (see Articles 21-22); or
- 20.3 World Para Alpine Skiing (see Articles 23-24).

21 National Protests

- 21.1 A National Body or a National Paralympic Committee may only make a Protest in respect of an Athlete under its jurisdiction at a Competition or venue set aside for Athlete Evaluation.
- 21.2 If the outcome of Athlete Evaluation is published during a Competition (pursuant to Article 17 of these Classification Rules) a National Protest must be submitted within one (1) hour of that outcome being published. If the outcome of Athlete Evaluation is published following Observation in Competition a National Protest must be submitted within fifteen (15) minutes of that outcome being published.
- 21.3 If an Athlete is required by a Classification Panel to undergo Observation in Competition Assessment, a National Body or a National Paralympic Committee may make a Protest before or after First Appearance takes place. If a Protest is made before First Appearance takes place the Athlete must not be permitted to compete until the Protest has been resolved.

22 National Protest Procedure

- 22.1 To submit a National Protest, a National Body or a National Paralympic Committee must show that the Protest is bona fide with supporting evidence and complete a Protest Form, that must be made available by World Para Alpine Skiing at the Competition and via World Para Alpine Skiing website, and must include the following:
- 22.1.1 the name and SDMS ID of the Protested Athlete;
 - 22.1.2 the details of the Protested Decision and/or a copy of the Protested Decision;
 - 22.1.3 an explanation as to why the Protest has been made and the basis on which the National Body or National Paralympic Committee believes that the Protested Decision is flawed;
 - 22.1.4 reference to the specific rule(s) alleged to have been breached; and
 - 22.1.5 the Protest Fee of **€100**.
- 22.2 The Protest Documents must be submitted to the Chief Classifier of the relevant Competition within the timeframes specified by World Para Alpine Skiing. Upon receipt of the Protest Documents the Chief Classifier must conduct a review of the Protest, in consultation with World Para Alpine Skiing, of which there are two possible outcomes:
- 22.2.1 the Chief Classifier may dismiss the Protest if, in the discretion of the Chief Classifier, the Protest does not comply with the Protest requirements in this Article 22; or
 - 22.2.2 the Chief Classifier may accept the Protest if, in the discretion of the Chief Classifier, the Protest complies with the Protest requirements in this Article 22.
- 22.3 If the Protest is dismissed the Chief Classifier must notify all relevant parties and provide a written explanation to the National Body or National Paralympic Committee as soon as practicable. The Protest Fee will be forfeited.
- 22.4 If the Protest is accepted:
- 22.4.1 **the Protested Athlete's Sport Class must remain unchanged pending the outcome of the Protest but the Protested Athlete's Sport Class Status must immediately be changed to Review (R) unless the Protested Athlete's Sport Class Status is already Review (R);**
 - 22.4.2 the Chief Classifier must appoint a Protest Panel to conduct a new Evaluation

- Session as soon as possible, which must be either at the Competition the Protest was made or at the next Competition; and
- 22.4.3 World Para Alpine Skiing must notify all relevant parties of the time and date the new Evaluation Session is to be conducted by the Protest Panel.

23 World Para Alpine Skiing Protests

- 23.1 World Para Alpine Skiing may, in its discretion, make a Protest at any time in respect of an Athlete under its jurisdiction if:
- 23.1.1 it considers an Athlete may have been allocated an incorrect Sport Class; or
 - 23.1.2 a National Body or National Paralympic Committee makes a documented request to World Para Alpine Skiing. The assessment of the validity of the request is at the sole discretion of World Para Alpine Skiing

24 World Para Alpine Skiing Protest Procedure

- 24.1 If World Para Alpine Skiing decides to make a Protest, the Head of Classification must advise the relevant National Body or National Paralympic Committee of the Protest at the earliest possible opportunity.
- 24.2 The Head of Classification must provide the relevant National Body or National Paralympic Committee with a written explanation as to why the Protest has been made and the basis on which the Head of Classification considers it is justified.
- 24.3 If World Para Alpine Skiing makes a Protest:
- 24.3.1 **the Protested Athlete's Sport Class must remain unchanged pending the outcome of the Protest;**
 - 24.3.2 **the Protested Athlete's Sport Class Status must immediately be changed to Review (R) unless the Protested Athlete's Sport Class Status is already Review (R); and**
 - 24.3.3 a Protest Panel must be appointed to resolve the Protest as soon as is reasonably possible.

25 Protest Panel

- 25.1 A Chief Classifier may fulfil one or more of the Head of Classification's obligations in this Article 25 if authorised to do so by the Head of Classification.
- 25.2 A Protest Panel must be appointed by the Head of Classification in a manner consistent with the provisions for appointing a Classification Panel in these Classification Rules.
- 25.3 A Protest Panel must not include any person who was a member of the Classification Panel that:
- 25.3.1 made the Protested Decision; or
 - 25.3.2 conducted any component of Athlete Evaluation in respect of the Protested Athlete within a period of 12 months prior to the date of the Protested Decision, unless otherwise agreed by the National Body or National Paralympic Committee (whichever is relevant) and World Para Alpine Skiing.
- 25.4 The Head of Classification must notify all relevant parties of the time and date for the Evaluation Session that must be conducted by the Protest Panel.
- 25.5 The Protest Panel must conduct the new Evaluation Session in accordance with these Classification Rules. The Protest Panel may refer to the Protest Documents when conducting the new Evaluation Session.
- 25.6 The Protest Panel must allocate a Sport Class and designate a Sport Class Status. All **relevant parties must be notified of the Protest Panel's decision** in a manner consistent with the provisions for notification in these Classification Rules.
- 25.7 The decision of a Protest Panel in relation to both a National Protest and a World Para Alpine Skiing Protest is final. A National Body, National Paralympic Committee or World Para Alpine Skiing may not make another Protest at the relevant Competition.
- 25.8 If the decision of the Protest Panel results in the Sport Class of the Athlete being changed, the Protest Fee will be refunded to the National Body or National Paralympic Committee (whichever is relevant).

26 Provisions Where No Protest Panel is Available

- 26.1 If a Protest is made at a Competition but there is no opportunity for the Protest to be

resolved at that Competition:

- 26.1.1 the Protested Athlete must be permitted to compete in the Sport Class that is the subject of the Protest with Sport Class Status Review (R), pending the resolution of the Protest; and
- 26.1.2 all reasonable steps must be taken to ensure that the Protest is resolved at the earliest opportunity.

27 Special Provisions

- 27.1 World Para Alpine Skiing may make arrangements (subject to the approval of the IPC) for some or all of the components of Athlete Evaluation to be carried out at a place and at a time away from a Competition. If so, World Para Alpine Skiing must also implement Protest provisions to enable Protests to take place in respect of any Evaluation Sessions carried out away from a Competition.

Application during Major Competitions

28 Ad Hoc Provisions Relating to Protests

- 28.1 The IPC and/or World Para Alpine Skiing may issue special ad hoc provisions to operate during the Paralympic Games or other Competitions.

Part Seven: Misconduct during Evaluation Session

29 Failure to Attend Evaluation Session

- 29.1 An Athlete is personally responsible for attending an Evaluation Session.
- 29.2 **An Athlete's National Body or National Paralympic Committee** must take reasonable steps to ensure that the Athlete attends an Evaluation Session.
- 29.3 If an Athlete fails to attend an Evaluation Session, the Classification Panel will report the failure to the Chief Classifier. The Chief Classifier may, if satisfied that a reasonable explanation exists for the failure to attend and subject to the practicalities at a Competition, specify a revised date and time for the Athlete to attend a further Evaluation Session before the Classification Panel.
- 29.4 If the Athlete is unable to provide a reasonable explanation for non-attendance, or if the Athlete fails to attend an Evaluation Session on a second occasion, no Sport Class will be allocated and the Athlete will not be permitted to compete at the relevant Competition.

30 Suspension of Evaluation Session

- 30.1 A Classification Panel, in consultation with the Chief Classifier, may suspend an Evaluation Session if it cannot allocate a Sport Class to the Athlete, including but not limited to, in one or more of the following circumstances:
 - 30.1.1 a failure on the part of the Athlete to comply with any part of these Classification Rules;
 - 30.1.2 a failure on the part of the Athlete to provide any medical information that is reasonably required by the Classification Panel;
 - 30.1.3 the Classification Panel believes that the use (or non-use) of any medication and/or medical procedures/device/implant disclosed by the Athlete will affect the ability to conduct its determination in a fair manner;
 - 30.1.4 the Athlete has a Health Condition that may limit or prohibit complying with requests by the Classification Panel during an Evaluation Session, which the Classification Panel considers will affect its ability to conduct the Evaluation Session in a fair manner;

- 30.1.5 the Athlete is unable to communicate effectively with the Classification Panel;
 - 30.1.6 the Athlete refuses or is unable to comply with any reasonable instructions given by any Classification Personnel to such an extent that the Evaluation Session cannot be conducted in a fair manner; and/or
 - 30.1.7 the Athlete's **representation of his or her abilities is inconsistent with any information available to the Classification Panel to such an extent that the Evaluation Session cannot be conducted in a fair manner.**
- 30.2 If an Evaluation Session is suspended by a Classification Panel, the following steps must be taken:
- 30.2.1 an explanation for the suspension and details of the remedial action that is required on the part of the Athlete will be provided to the Athlete and/or the relevant National Body or National Paralympic Committee;
 - 30.2.2 if the Athlete takes the remedial action to the satisfaction of the Chief Classifier or Head of Classification, the Evaluation Session will be resumed; and
 - 30.2.3 if the Athlete fails to comply and does not take the remedial action within the timeframe specified, the Evaluation Session will be terminated, and the Athlete must be precluded from competing at any Competition until the determination is completed.
- 30.3 If an Evaluation Session is suspended by a Classification Panel, the Classification Panel may designate the Athlete as Classification Not Completed (CNC) in accordance with Article 10 of these Classification Rules.
- 30.4 A Suspension of an Evaluation Session may be subject to further investigation into any possible Intentional Misrepresentation.

Part Eight: Medical Review

31 Medical Review

- 31.1 This Article applies to any Athlete who has been allocated a Sport Class with Sport Class Status Confirmed (C) or Review with Fixed Review Date (FRD).
- 31.2 A Medical Review Request must be made if a change in the nature or degree of an **Athlete's Impairment changes the Athlete's ability to execute the specific tasks and activities** required by a sport in a manner that is clearly distinguishable from changes attributable to levels of training, fitness and proficiency.
- 31.3 **A Medical Review Request must be made by the Athlete's National Body** or National Paralympic Committee (together with a **€100 non-refundable** fee and any supporting documentation). The Medical Review Request must explain how and to what extent **the Athlete's Impairment has changed and why it is believed that the Athlete's ability to execute the specific tasks and activities required by a sport has changed.**
- 31.4 A Medical Review Request must be received by World Para Alpine Skiing as soon as reasonably practicable.
- 31.5 The Head of Classification must decide whether or not the Medical Review Request is upheld as soon as is practicable following receipt of the Medical Review Request.
- 31.6 Any Athlete or Athlete Support Personnel who becomes aware of such changes outlined in Article 31.2 but fails to draw those to the attention of their National Body, National Paralympic Committee or World Para Alpine Skiing may be investigated in respect of possible Intentional Misrepresentation.
- 31.7 **If a Medical Review Request is accepted, the Athlete's Sport Class Status will be changed to Review (R) with immediate effect.**
- 31.8 If a Medical Review Request does not include sufficient evidence to explain how and **to what extent the Athlete's Impairment has changed and why it is believed that the Athlete's ability to execute the specific tasks and activities required by the sport of Para alpine skiing has changed,** the Medical Review will not be accepted and the Athletes Sport Class Status will not be changed.

Part Nine: Intentional Misrepresentation

32 Intentional Misrepresentation

- 32.1 It is a disciplinary offence for an Athlete to intentionally misrepresent (either by act or omission) his or her skills and/or abilities and/or the degree or nature of Eligible Impairment during Athlete Evaluation and/or at any other point after the allocation of a Sport Class. This disciplinary offence is referred to as 'Intentional Misrepresentation'.
- 32.2 It will be a disciplinary offence for any Athlete or Athlete Support Personnel to assist an Athlete in committing Intentional Misrepresentation or to be in any other way involved in any other type of complicity involving Intentional Misrepresentation, including but not limited to covering up Intentional Misrepresentation or disrupting any part of the Athlete Evaluation process.
- 32.3 In respect of any allegation relating to Intentional Misrepresentation a hearing will be convened by World Para Alpine Skiing to determine whether the Athlete or Athlete Support Personnel has committed Intentional Misrepresentation.
- 32.4 The consequences to be applied to an Athlete or Athlete Support Personnel who is found to have been guilty of Intentional Misrepresentation and/or complicity involving Intentional Misrepresentation will be one or more of the following:
- 32.4.1 disqualification from all events at the Competition at which the Intentional Misrepresentation occurred, and any subsequent Competitions at which the Athlete competed;
 - 32.4.2 being allocated with Sport Class Not Eligible (NE) and designated a Review with Fixed Review Date (FRD) Sport Class Status for a specified period of time ranging from 1 to 4 years;
 - 32.4.3 suspension from participation in Competitions in all sport for a specified period of time ranging from 1 to 4 years; and
 - 32.4.4 publication of their names and suspension period.
- 32.5 Any Athlete who is found to have been guilty of Intentional Misrepresentation and/or complicity involving Intentional Misrepresentation on more than one occasion will be allocated Sport Class Not Eligible with Fixed Review Date Status for a period of time from four years to life.

- 32.6 Any Athlete Support Personnel who is found to have been guilty of Intentional Misrepresentation and/or complicity involving Intentional Misrepresentation on more than one occasion will be suspended from participation in any Competition for a period of time from four years to life.
- 32.7 If another International Sports Federation brings disciplinary proceedings against an Athlete or Athlete Support Personnel in respect of Intentional Misrepresentation which results in consequences being imposed on that Athlete or Athlete Support Personnel, those consequences will be recognised, respected and enforced by World Para Alpine Skiing.
- 32.8 Any consequences to be applied to teams, which include an Athlete or Athlete Support Personnel who is found to have been guilty of Intentional Misrepresentation and/or complicity involving Intentional Misrepresentation, will be at the discretion of World Para Alpine Skiing.
- 32.9 Any disciplinary action taken by World Para Alpine Skiing pursuant these Classification Rules must be resolved in accordance with the applicable Board of Appeal of Classification Bylaws.

Part Ten: Use of Athlete Information

33 Classification Data

- 33.1 World Para Alpine Skiing may only Process Classification Data if such Classification Data is considered necessary to conduct Classification.
- 33.2 All Classification Data Processed by World Para Alpine Skiing must be accurate, complete and kept up-to-date.

34 Consent and Processing

- 34.1 Subject to Article 34.3, World Para Alpine Skiing may only Process Classification Data with the consent of the Athlete to whom that Classification Data relates.
- 34.2 If an Athlete cannot provide consent (for example because the Athlete is under age) the legal representative, guardian or other designated representative of that Athlete must give consent on their behalf.
- 34.3 World Para Alpine Skiing may only Process Classification Data without consent of the relevant Athlete if permitted to do so in accordance with National Laws.

35 Classification Research

- 35.1 World Para Alpine Skiing may request that an Athlete provide it with Personal Information for Research Purposes.
- 35.2 The use by World Para Alpine Skiing of Personal Information for Research Purposes must be consistent with these Classification Rules and all applicable ethical use requirements.
- 35.3 Personal Information that has been provided by an Athlete to World Para Alpine Skiing solely and exclusively for Research Purposes must not be used for any other purpose.
- 35.4 World Para Alpine Skiing may only use Classification Data for Research Purposes with the express consent of the relevant Athlete. If World Para Alpine Skiing wishes to publish any Personal Information provided by an Athlete for Research Purposes, it must obtain consent to do so from that Athlete prior to any publication. This

restriction does not apply if the publication is anonymised so that it does not identify any Athlete(s) who consented to the use of their Personal Information.

36 Notification to Athletes

- 36.1 World Para Alpine Skiing must notify an Athlete who provides Classification Data as to:
- 36.1.1 that fact that World Para Alpine Skiing is collecting the Classification Data; and
 - 36.1.2 the purpose for the collection of the Classification Data; and
 - 36.1.3 the duration that the Classification Data will be retained.

37 Classification Data Security

- 37.1 World Para Alpine Skiing must:
- 37.1.1 protect Classification Data by applying appropriate security safeguards, including physical, organisational, technical and other measures to prevent the loss, theft or unauthorised access, destruction, use, modification or disclosure of Classification Data; and
 - 37.1.2 take reasonable steps to ensure that any other party provided with Classification Data uses that Classification Data in a manner consistent with these Classification Rules.

38 Disclosures of Classification Data

- 38.1 World Para Alpine Skiing must not disclose Classification Data to other Classification Organisations except where such disclosure is related to Classification conducted by another Classification Organisation and/or the disclosure is consistent with applicable National Laws.
- 38.2 World Para Alpine Skiing may disclose Classification Data to other parties only if such disclosure is in accordance with these Classification Rules and permitted by National Laws.

39 Retaining Classification Data

- 39.1 World Para Alpine Skiing must ensure that Classification Data is only retained for as long as it is needed for the purpose it was collected. If Classification Data is no longer necessary for Classification purposes, it must be deleted, destroyed or permanently anonymised.
- 39.2 World Para Alpine Skiing must publish guidelines regarding retention times in relation to Classification Data.
- 39.3 World Para Alpine Skiing must implement policies and procedures that ensure that Classifiers and Classification Personnel retain Classification Data for only as long as is necessary in order for them to carry out their Classification duties in relation to an Athlete.

40 Access Rights to Classification Data

- 40.1 Athletes may request from World Para Alpine Skiing:
 - 40.1.1 confirmation of whether or not that World Para Alpine Skiing Processes Classification Data relating to them personally and a description of the Classification Data that is held;
 - 40.1.2 a copy of the Classification Data held by World Para Alpine Skiing; and/or
 - 40.1.3 correction or deletion of the Classification Data held by World Para Alpine Skiing.
- 40.2 A request may be made by an Athlete or a National Body or a National Paralympic Committee **on an Athlete's behalf and must be complied with within a reasonable period of time.**

41 Classification Master Lists

- 41.1 World Para Alpine Skiing must maintain a Classification Master List of Athletes, **which must include the Athlete's name, gender, year of birth, country, Sport Class and Sport Class Status.** The Classification Master List must identify Athletes that enter International Competitions.
- 41.2 World Para Alpine Skiing must make available the Classification Master List to all relevant National Bodies on the World Para Alpine Skiing website.

Part Eleven: Appeals

42 Appeal

42.1 An Appeal is the process by which a formal objection to how Athlete Evaluation and/or Classification procedures have been conducted is submitted and subsequently resolved.

43 Parties Permitted to Make an Appeal

43.1 An Appeal may only be made by one of the following bodies:

43.1.1 a National Body; or

43.1.2 a National Paralympic Committee.

44 Appeals

44.1 If a National Body or National Paralympic Committee considers there have been procedural errors made in respect of the allocation of a Sport Class and/or Sport Class Status and as a consequence an Athlete has been allocated an incorrect Sport Class or Sport Class Status, it may submit an Appeal.

44.2 The Board of Appeal of Classification (BAC) will act as the hearing body for the resolution of Appeals.

44.3 An Appeal must be made and resolved in accordance with the applicable BAC Bylaws.

45 Ad Hoc Provisions Relating to Appeals

45.1 The IPC and/or World Para Alpine Skiing may issue special ad hoc provisions to operate during the Paralympic Games or other Competitions.

Part Twelve: Glossary

Adaptive Equipment: Implements and apparatus adapted to the special needs of Athletes, and used by Athletes during Competition to facilitate participation and/or to achieve results.

Appeals: The means by which a complaint that World Para Alpine Skiing has made an unfair decision during the Classification process is resolved.

Athlete: For purposes of Classification, any person who participates in sport at the international level (as defined by World Para Alpine Skiing) or national level (as defined by each National Federation) and any additional person who participates in sport at a lower level if designated by the person's National Federation.

Athlete Evaluation: The process by which an Athlete is assessed in accordance with these Classification Rules in order that an Athlete may be allocated a Sport Class and Sport Class Status.

Athlete Support Personnel: Any coach, trainer, manager, interpreter, agent, team staff, official, medical or para-medical personnel working with or treating Athletes participating in or preparing for training and/or Competition.

BAC: The IPC Board of Appeal of Classification.

Chief Classifier: A classifier appointed by World Para Alpine Skiing to direct, administer, coordinate and implement Classification matters for a specific Competition according to these Classification Rules.

Classification: Grouping Athletes into Sport Classes according to how much their Impairment affects fundamental activities in each specific sport or discipline. This is also referred to as Athlete Classification.

Classification Data: Personal Information and/or sensitive Personal Information provided by an Athlete and/or a National Body and/or any other person to a Classification Organisation in connection with Classification.

Classification Intelligence: Information obtained and used by an International Sport Federation in relation to Classification.

Classification Master List: A list made available by the World Para Alpine Skiing that identifies Athletes who have been allocated a Sport Class and designated a Sport Class Status.

Classification Not Completed: the designation applied to an Athlete who has commenced but not completed Athlete Evaluation to the satisfaction of Para Sport.

Classification Organisation: Any organisation that conducts the process of Athlete Evaluation and allocates Sport Classes and/or holds Classification Data.

Classification Panel: A group of Classifiers, appointed by World Para Alpine Skiing, to determine Sport Class and Sport Class Status in accordance with these Classification Rules.

Classification Personnel: Persons, including Classifiers, acting with the authority of a Classification Organisation in relation to Athlete Evaluation, for example administrative officers.

Classification Rule: Also referred to as Classification Rules and Regulations. The policies, procedures, protocols and descriptions adopted by World Para Alpine Skiing in connection with Athlete Evaluation.

Classification System: The framework used by World Para Alpine Skiing to develop and designate Sport Classes within a Para sport.

Classifier: A person authorised as an official by World Para Alpine Skiing to evaluate Athletes as a member of a Classification Panel.

Classifier Certification: The processes by which World Para Alpine Skiing must assess that a Classifier has met the specific Classifier Competencies required to obtain and maintain certification or licensure.

Classifier Competencies: The qualifications and abilities that World Para Alpine Skiing deems necessary for a Classifier to be competent to conduct Athlete Evaluation for sport(s) governed by World Para Alpine Skiing.

Classifier Code of Conduct: The behavioural and ethical standards for Classifiers specified by World Para Alpine Skiing.

Code: The Athlete Classification Code 2015 together with the International Standards for: Athlete Evaluation; Eligible Impairments; Protests and Appeals; Classifier Personnel and Training; and Classification Data Protection.

Competition: A series of individual events conducted together under one ruling body.

Compliance: The implementation of rules, regulations, policies and processes that adhere to the text, spirit and intent of the Code as defined by the IPC. Where terms such as (but not limited to) 'comply', 'conform' and 'in accordance' are used in the Code they shall have the same meaning as 'Compliance.'

Continuing Education: The delivery of higher knowledge and practical skills specified by World Para Alpine Skiing to preserve and/or advance knowledge and skills as a Classifier in the sport(s) under its governance.

Diagnostic Information: Medical records and/or any other documentation that enables World Para Alpine Skiing to assess the existence or otherwise of an Eligible Impairment or Underlying Health Condition

Eligible Impairment: An Impairment designated as being a prerequisite for competing in Para sport, as detailed in these Classification Rules.

Eligibility Assessment Committee: An ad hoc body formed to assess the existence or otherwise of an Eligible Impairment.

Entry Criteria: Standards set by World Para Alpine Skiing relating to the expertise or experience levels of persons who wish to be Classifiers. This may be, for example, former Athletes or coaches, sports scientists, physical educators and medical professionals, all of whom have the qualifications and abilities relevant to conduct all, or specific parts of, Athlete Evaluation.

Entry-level Education: the basic knowledge and practical skills specified by World Para Alpine Skiing to begin as a Classifier in the sport(s) under its governance.

Evaluation Session: the session an Athlete is required to attend for a Classification Panel to assess **that Athlete's** compliance with the Minimum Impairment Criteria for a sport; and allocation of a Sport Class and Sport Class Status depending on the extent to which that Athlete is able to execute the specific tasks and activities fundamental to that sport. An Evaluation Session may include Observation in Competition.

Event: A single race, match, game or singular sport contest.

First Appearance: The first time an Athlete competes in an Event during a Competition in a particular Sport Class.

Fixed Review Date: A date set by a Classification Panel prior to which an Athlete designated with a Sport Class Status Review with a Fixed Review Date will not be required to attend an Evaluation Session save pursuant to a Medical Review Request and/or Protest.

Head of Classification: A person appointed by World Para Alpine Skiing to direct, administer, co-ordinate and implement Classification matters for World Para Alpine Skiing.

Health Condition: A pathology, acute or chronic disease, disorder, injury or trauma.

Impairment: A Physical, Vision or Intellectual Impairment.

Intellectual Impairment: A limitation in intellectual functioning and adaptive behaviour as expressed in conceptual, social and practical adaptive skills that originates before the age of eighteen (18).

Intentional Misrepresentation: A deliberate attempt (either by fact or omission) to mislead an International Sport Federation or National Body as to the existence or extent of skills and/or abilities relevant to a Para sport and/or the degree or nature of Eligible Impairment during Athlete Evaluation and/or at any other point after the allocation of a Sport Class.

International Competitions: A Competition where the IPC, an International Sport Federation or a Major Competition Organisation is the governing body for the Competition and/or appoints the technical officials for the Competition.

International Sport Federation: A sport federation recognised by the IPC as the sole world-wide representative of a sport for Athletes with an Impairment that has been granted the status as a Para sport by the IPC. The IPC and the International Organisations of Sports for the Disabled act as an International Sport Federation for certain sports.

International Standards: A document complementing the Code and providing additional technical and operational requirements for Classification.

IPC: International Paralympic Committee.

Maintaining Certification: The advanced training, education and practice necessary for continued competency as a Classifier.

Major Competition Organiser: An organisation that functions as the ruling body for an International Competition.

Medical Diagnostics Form: a form that a National Body or National Paralympic Committee must submit in order for an **Athlete to undergo Athlete Evaluation, identifying the Athlete's Health Condition** if so required.

Medical Review: The process by which World Para Alpine Skiing identifies if a change in the **nature or degree of an Athlete's Impairment** means that some or all of the components of Athlete Evaluation are required to be undertaken in order to ensure that any Sport Class allocated to that Athlete is correct.

Medical Review Request: A request made by a National Body or National Paralympic Committee for Medical Review, made on behalf of an Athlete.

Models of Best Practice: An ad hoc guidance document prepared by the IPC to assist in the implementation of the Code and International Standards.

National Body: Refers to the national member of an International Sport Federation.

National Laws: The national data protection and privacy laws, regulations and policies applicable to a Classification Organisation.

National Paralympic Committees: The national member of the IPC who is the sole representative of Athletes with an Impairment in that country or territory. These are the national members of the IPC.

National Protest: A Protest made by a National Body or a National Paralympic Committee in respect of an Athlete under its jurisdiction.

Non-Competition Venue: Any place or location (outside of a Competition) designated by World Para Alpine Skiing as being a place or location where Athlete Evaluation is made available to Athletes in order that they may be allocated a Sport Class and designated with a Sport Class Status.

Observation in Competition: The observation of an Athlete in a Competition by a Classification Panel so that the Classification Panel can complete its determination as to the extent to which an Eligible Impairment **affects that Athlete's ability** to execute the specific tasks and activities fundamental to the sport.

Paralympic Games: Umbrella term for both Paralympic Games and Paralympic Winter Games.

Permanent: The term Permanent as used in the Code and Standards describes an Impairment that is unlikely to be resolved meaning the principle effects are lifelong.

Personal Information: Any information that refers to, or relates directly to, an Athlete.

Physical Impairment: an Impairment **that affects an Athlete's biomechanical execution of** sporting activities, comprising Ataxia, Athetosis, Hypertonia, Impaired Muscle Power, Impaired Passive Range of Movement, Limb Deficiency, Leg Length Difference and Short Stature.

Process/Processing: The collection, recording, storage, use or disclosure of Personal Information and/or sensitive Personal Information.

Protested Athlete: An Athlete whose Sport Class is being challenged.

Protested Decision: The Sport Class decision being challenged.

Protest Documents: The information provided in the Protest Form together with the Protest Fee.

Protest Fee: The fee prescribed by World Para Alpine Skiing, payable by the National Body or National Paralympic Committee when submitting a Protest.

Protest Form: The form on which a National Protest must be submitted.

Protest: The procedure by which a reasoned objection to an Athlete's Sport Class is submitted and subsequently resolved.

Protest Panel: A Classification Panel appointed by the Chief Classifier to conduct an Evaluation Session as a result of a Protest

Re-certification: The process by which World Para Alpine Skiing must assess that a Classifier has maintained specific Classifier Competencies.

Recognised Competition: a Competition that is sanctioned or approved by World Para Alpine Skiing.

Research Purposes: Research into matters pertaining to the development of sports within the Paralympic Movement, including the impact of Impairment on the fundamental activities in each specific sport and the impact of assistive technology on such activities.

Signatories: Any organisation that accepts the Code and commits to implement it and the International Standards by way of its Classification Rules.

Sport Class: A category for Competition defined by World Para Alpine Skiing by reference to the extent to which an Athlete can perform the specific tasks and activities required by a sport.

Sport Class Status: A designation applied to a Sport Class to indicate the extent to which an Athlete may be required to undertake Athlete Evaluation and/or be subject to a Protest.

Tracking Code Observation Assessment (OA): a designation given to an Athlete that replaces the Athlete's Sport Class Status until Observation in Competition has been completed.

Underlying Health Condition: a Health Condition that may lead to an Eligible Impairment.

Vision Impairment: an Impairment of the eye structure, optical nerves or optical pathways, or visual cortex of the central brain that adversely affects an Athlete's vision.

Appendix One

Athletes with Physical Impairment

1 Eligible Impairment Types

Eligible Impairment	Examples of Health Conditions
<p>Impaired Muscle Power</p> <p>Athletes with Impaired Muscle Power have a Health Condition that either reduces or eliminates their ability to voluntarily contract their muscles in order to move or to generate force.</p>	<p>Examples of an Underlying Health Condition that can lead to Impaired Muscle Power include spinal cord injury (complete or incomplete, tetra-or paraplegia or paraparesis), muscular dystrophy, post-polio syndrome and spina bifida.</p>
<p>Limb Deficiency</p> <p>Athletes with Limb Deficiency have total or partial absence of bones or joints as a consequence of trauma.</p>	<p>Examples of an Underlying Health Condition that can lead to Limb Deficiency include: traumatic amputation, illness (for example amputation due to bone cancer) or congenital Limb Deficiency (for example dysmelia).</p>
<p>Leg Length Difference</p> <p>Athletes with Leg Length Difference have a difference in the length of their legs.</p>	<p>Examples of an Underlying Health Condition that can lead to Leg Length Difference include: dysmelia and congenital or traumatic disturbance of limb growth.</p>
<p>Hypertonia</p> <p>Athletes with hypertonia have an increase in muscle tension and a reduced ability of a muscle to stretch caused by damage to the central nervous system.</p>	<p>Examples of an Underlying Health Condition that can lead to Hypertonia include cerebral palsy, traumatic brain injury and stroke.</p>
<p>Ataxia</p> <p>Athletes with Ataxia have uncoordinated movements caused by damage to the</p>	<p>Examples of an Underlying Health Condition that can lead to Ataxia include: cerebral palsy, traumatic brain injury, stroke and multiple</p>

Eligible Impairment	Examples of Health Conditions
central nervous system.	sclerosis.
Athetosis Athletes with Athetosis have continual slow involuntary movements.	Examples of an Underlying Health Condition that can lead to Athetosis include cerebral palsy, traumatic brain injury and stroke.
Impaired Passive Range of Movement Athletes with Impaired Passive Range of Movement have a restriction or a lack of passive movement in one or more joints.	Examples of an Underlying Health Condition that can lead to Impaired Passive Range of Movement include arthrogyrosis and contracture resulting from chronic joint immobilisation or trauma affecting a joint.

2 Assessment Methodology

- 2.1 An Athlete must undertake physical and technical assessment in order to be allocated a Sport Class. This is required in order to establish that the Athlete exhibits an Impairment that qualifies the Athlete for Competition, and that the Athlete exhibits activity limitations resulting from that Impairment that affect the **Athlete's** ability to compete. Both of these components are part of the overall eligibility assessment process that is an integral feature of Athlete Evaluation. The physical and technical assessment detailed in this section are complemented with observation in training and/or Competition if required by the Classification Panel.
- 2.2 In order to complete the physical and technical assessment, a Classification Panel must have access to medical documentation regarding the **Athlete's** Impairment.
- 2.3 Athletes are required to attend an Evaluation Session with any prosthetics, braces, strapping, and supports as well as modified ski boots.

Muscle Strength testing (Oxford Scale)

- 2.4 Muscle strength must be measured with the Oxford Scale (Daniels and Worthingham 2013). The scores defining the Sport Class profiles make use of this scale.

- 0 - Complete absence of muscle contraction.
- 1 - Faint contraction noted without any movement of the limb.
- 2 - Contraction with very weak movement through full range of movement when gravity is eliminated.
- 3 - Contraction moving joint through the full range of movement against gravity.
- 4 - Contraction with full range movement against gravity plus some resistance.
- 5 - Normal strength through full range of movement against full resistance.

Spasticity Grading (Ashworth Scale)

2.5 Spasticity must be measured with the Ashworth Scale. The scores defining the Sport Class profiles make use of this scale.

- 0 - No increase in muscle tone.
- 1 - **Slight increase in tone giving a “catch” when affected** part is moved in flexion or extension.
- 2 - More marked increase in tone but affected part is easily flexed.
- 3 - Considerable increase in tone; passive movement difficult.
- 4 - Affected part is rigid in flexion or extension.

2.5.1 In conducting the assessment, the Classification Panel must be satisfied that the resistance to passive lengthening of the muscle is related to an underlying Impairment. The following signs may be useful indicators in this regard:

- presence of non-dampening clonus on the side which the tone is increased;
- abnormal brisk reflexes in the limb in which the tone is increased;
- mild atrophy in the limb in which the tone is increased;
- positive Babinski response on the side in which the tone is increased.

2.5.2 In conducting the assessment, the Classification Panel must be satisfied that ataxic movements are demonstrable and clearly evident and related to an underlying Impairment. Tests that may be useful for determining this include, but are not limited to:

- finger-to-nose test (Athlete touching own nose from the crucifix position);

- finger-to-finger test (Classifier presents his/her index finger and asks the Athlete to touch it with his/her own index finger);
- toe-to-finger test (Classifier presents his/her index finger and asks the Athlete to touch it with his/her toe);
- heel shin test (drawing the heel of one leg along the length of the contralateral shin, from ankle to knee and then in reverse direction);
- tandem walk;
- gait.

2.5.3 In conducting the assessment, the Classification Panel must be satisfied that athetotic movements are demonstrable and clearly evident and related to an underlying Impairment. Tests that may be useful for determining this include, but are not limited to:

- involuntary movement of the fingers or upper extremities despite the Athlete trying to remain still;
- involuntary movement of the toes or lower extremities despite the Athlete trying to remain still;
- inability to hold the body still – swaying of the body. Swaying must not be due to other neurological deficits such as vestibular or proprioceptive Impairments and therefore must not be exacerbated by closing the eyes during the test;
- characteristic athetoid posturing of the limbs and/or trunk.

Board test for trunk function

2.6 To conduct the board test, the following equipment is required:

- Testing board with 3 straps (as seen in the below pictures)
- 1 kg medicine ball
- Knee flexion roll
- Foam wedges to stabilize board

2.6.1 The testing board requires the following components:

- Wooden top board and two rockers
- Slits cut on both sides
- Straps in slits to hold **Athlete's** hips, knees and ankles firm during testing
- Velcro or snap fastenings on straps

- Top can be covered with thin compressed foam to stop Athlete slipping

2.7 Trunk function is assessed by way of the board test, which consists of the following six tests:

- 2.7.1 Test 1: Upper extremity testing of strength, range of movement and function. The test board is secured for this test.
- 2.7.2 Test 2: Sitting balance, in the sagittal plane.

Sitting with the hands behind the neck, flex forwards at the waist as much as possible. Then extend the trunk and lift to a position of 45° forward flexion. Hold that position, keeping the hands behind the neck. The test board is secured for this test.

2.7.3 Test 3: Sitting balance in the sagittal plane.

Arms folded over the chest, extend back to hold 45° backward extension.

2.7.4 Test 4: Sitting balance in the sagittal and frontal planes.

Free rotation of the trunk, in sitting, arms fully abducted.

2.7.5 Test 5: Sitting balance in the frontal plane.

The Athlete has arms abducted and tilts the testing board from side to side, shifting the body weight sideways and maintaining the maximum tilt without losing balance.

2.7.6 Test 6: Sitting balance, in the frontal and sagittal planes to test stability of trunk and pelvis.

A 1kg ball is placed beside the **Athlete's** hip at the level of the testing board. The Athlete picks up the ball with both hands and lifts the ball above the head to place it beside the hip on the opposite side of the testing board. Repeat in the other direction.

2.8 For each test of the board test, one of the following scores are allocated:

0 = No function, test impossible

1 = Weak or poor function

2 = Fair function

3 = Normal function

2.9 The total score of all six parts of the board test translate into Sport Classes as follows:

LW 10 score 0 – 8

LW11 score 9 – 15

LW 12 score 16 – 18

Upper limb assessment

2.10 The following aspects should be considered when assessing the upper limbs:

- Muscle power
- Muscle tone
- Reflexes
- Passive range of movement
- Co-ordination (describe, left and right):
 - Hand grasp and release
 - Finger opposition
 - Finger to nose
 - Rapid palm up/palm down on lap
 - Bilateral finger opposition in front of body

2.11 The aim of an upper limb neurological assessment is to determine if an Athlete has a bilateral or unilateral Impairment which would then suggest an inability to grasp a pole and/or a capacity to use the pole functionally as well as ensuring Minimal Impairment Criteria is met. This applies also for limb loss, and limited active and/or passive ROM.

Lower limb assessment

2.12 The following aspects should be considered when assessing the lower limbs:

- Muscle power
- Muscle tone
- Reflexes
- Passive range of movement
- Co-ordination (describe, left and right):
 - Heel walking
 - Toe walking

- Heel- toe walking in a straight line
- Single leg stance (eyes open and eyes shut)
- Hoping on one leg, on spot/clockwise/anti-clockwise
- Running (including quick change of direction)
- Knee lifts whilst running
- Heel kick when running
- Jumping
- Rapid squats

2.13 The aim of a lower limb neurological assessment is to determine if an Athlete has a bilateral or unilateral Impairment, and to make evidence based Classification decision.

3 Assessment Criteria for the Allocation of a Sport Class and the Designation of Sport Class Status

Final Sport Class allocation is a result of a combination of several measurements and assessments.

Standing Sport Classes LW 1 to LW 9

LW1	Minimal criteria (Bilateral lower limb Impairment)
Muscle power Impairment	Total score of less than 35 (normal = 80) in both legs on the Oxford Scale
Limb Deficiency	Double above knee amputation, one above knee and one below knee amputation or Impairments that cause a similar loss of limb
Hypertonia Ataxia Athetosis	<p>Both lower limbs affected</p> <p>Athetosis or ataxia must be observable with involuntary movement of both limbs</p> <p>Hypertonicity will be present with Babinski, Clonus and/or Brisk/Different reflexes bilaterally and spasticity = grade 3-2 bilaterally</p> <p>Requires a gait aid for ambulation and walking will be labored</p> <p>Running not possible</p> <p>Single leg stance less than 3 sec</p> <p>Poor balance</p> <p>Trunk sways to lead lower extremity movement</p> <p>Unable to hop</p> <p>Unable to perform advanced balance and co-ordination skills (grapevine, jump and turn, heal-shin)</p>
Technical	Skis with 2 skis, 2 poles/outriggers, the skis may be tied together.

	Lower limb prosthesis or orthosis must comply with the World Para Alpine Skiing Equipment Rule Book.
LW2	Minimal criteria (Unilateral lower limb Impairment)
Muscle power Impairment	Total score of less than 20 (normal = 40) in one leg on the Oxford Scale
Limb Deficiency	Single above or below knee amputation, at minimum unilateral through ankle amputation (Symes amputation), or Impairments that cause a similar loss of limb Arthrodesis of knee and hip on the same side.
Hypertonia Ataxia Athetosis	Nerve injury resulting in muscle power Impairment or Limb Deficiency as listed above
Technical	Skis with 1 ski, 2 poles/outriggers Lower limb prosthesis or orthosis must comply with the World Para Alpine Skiing Equipment Rule Book.
LW3	Minimal criteria (Bilateral lower limb Impairment)
Muscle power Impairment	Total score of less than 60 (normal = 80) in both legs on the Oxford Scale
Limb Deficiency	At minimum bilateral through ankle amputation (Symes amputation), including double below knee amputation and Impairments that cause a similar loss of limb
Hypertonia Ataxia Athetosis	Both lower limbs affected Athetosis or ataxia must be observable with involuntary movement of both limbs Hypertonicity will present with Babinski, Clonus and/or Brisk/Different reflexes bilaterally and spasticity = grade 2-1 bilaterally

	<p>Does not use aids for ambulation</p> <p>Able to run, but will demonstrate difficulty with sudden change in direction.</p> <p>Single leg stance greater than 3 sec.</p> <p>Able to hop, but difficulty remaining on one spot</p> <p>Impaired performance of advanced balance and co-ordination skills (grapevine, jump and turn, heal-shin)</p>
Technical	<p>Skis with 2 skis, 2 poles/outriggers</p> <p>Lower limb prosthesis or orthosis must comply with the World Para Alpine Skiing Equipment Rule Book.</p>
LW4	Minimal criteria (Unilateral lower limb Impairment)
Muscle power Impairment	Total score of 30 or less (normal = 40) in one leg on the Oxford Scale
Limb Deficiency	At minimum unilateral through ankle amputation (Symes amputation), including below knee amputation and Impairments that cause a similar loss of limb)
Hypertonia Ataxia Athetosis	Nerve injury resulting in muscle power Impairment or Limb Deficiency as listed above
Technical	<p>Skis with 2 skis, 2 poles</p> <p>Lower limb prosthesis or orthosis must comply with the World Para Alpine Skiing Equipment Rule Book.</p>
LW5/7	Minimal criteria (Bilateral upper limb Impairment)
LW 5/7-1	
Muscle power Impairment	Equivalent activity limitation to that of an Athlete with double above elbow amputations; neither hand is able to hold and use a ski pole

Limb Deficiency	Bilateral above elbow amputation Bilateral Limb Deficiency, with residual limb length equivalent to bilateral above elbow amputations
Hypertonia Ataxia Athetosis	Nerve injury resulting in muscle power Impairment or Limb Deficiency as listed above
Technical	2 skis, no poles Upper limb prosthesis or orthosis must comply with the World Para Alpine Skiing Equipment Rule Book.
LW 5/7-2	
Muscle power Impairment	Equivalent activity limitation to that of an Athlete with an above elbow amputation, and below elbow amputation; neither hand is able to hold and use a ski pole
Limb Deficiency	One arm amputated above the elbow and one below the elbow. Bilateral Limb Deficiency, with residual limb lengths equivalent to a one arm above elbow amputation and the other below elbow amputation.
Hypertonia Ataxia Athetosis	Nerve injury resulting in muscle power Impairment or Limb Deficiency as listed above
Technical	2 skis, no poles Upper limb prosthesis or orthosis must comply with the World Para Alpine Skiing Equipment Rule Book.
LW 5/7-3	
Muscle power Impairment	Equivalent activity limitation to that of an Athlete with bilateral below elbow amputations Neither hand is able to hold and use a ski pole

Limb Deficiency	Bilateral below elbow amputation. Bilateral Limb Deficiency, with residual limb lengths equivalent to below elbow limb amputations. Residual limbs unable to hold and use a ski pole
Hypertonia Ataxia Athetosis	Nerve injury resulting in muscle power Impairment or Limb Deficiency as listed above
Technical	2 skis, no poles Upper limb prosthesis or orthosis must comply with the World Para Alpine Skiing Equipment Rule Book.
LW6/8	Minimal criteria (Unilateral upper limb Impairment)
LW 6/8-1	
Muscle power Impairment	Equivalent activity limitation to that of an Athlete with unilateral above elbow amputations
Limb Deficiency	Unilateral above elbow amputation Unilateral Limb Deficiency, with residual limb length equivalent to unilateral above elbow amputation
Hypertonia Ataxia Athetosis	Nerve injury resulting in muscle power Impairment or Limb Deficiency as listed above
Technical	2 skis, 1 pole Upper limb prosthesis or orthosis must comply with the World Para Alpine Skiing Equipment Rule Book.
LW 6/8-2	
Muscle power Impairment	Equivalent activity limitation to that of an Athlete with a unilateral below elbow amputation.

Limb Deficiency	Unilateral below elbow amputation Unilateral Limb Deficiency, with residual limb length equivalent to unilateral through the elbow amputation. Residual limb is unable to hold and use a ski pole.
Hypertonia Ataxia Athetosis	Nerve injury resulting in muscle power Impairment or Limb Deficiency as listed above
Technical	2 skis, 1 pole Upper limb prosthesis or orthosis must comply with the World Para Alpine Skiing Equipment Rule Book.

LW9	Minimal criteria (Ipsilateral or contralateral upper limb and lower limb Impairment)	
LW 9-1		
Muscle power Impairment	Lower limb	Total score of less than 20 (normal = 40) in one leg on the Oxford Scale
	Upper limb	Equivalent activity limitation to that of either an Athlete with unilateral above elbow, or below elbow amputation.
Limb Deficiency	Lower limb	Above knee amputation or Impairments that cause a similar loss of limb
	Upper limb	Unilateral above or below elbow amputation Unilateral Limb Deficiency, with residual limb length equivalent to either unilateral above or elbow amputation.
Hypertonia Ataxia	Lower limb	May present with Athetosis or Ataxia Will present with Babinski, Clonus and/or Brisk/Different reflexes

Athetosis (hemiplegic involvement)		Spasticity = grade 3-2 on impaired side Ambulant without assistive devices, but will present with a limp. Unable to hop on impaired side. Unable to side step towards impaired side Single leg stance less than 3 sec on impaired side. Unable to heel walk.
	Upper limb	Spasticity = grade 3-2 on impaired side Impairment noted on upper limb co-ordination tests compared to non-affected side. Equivalent activity limitation to either above or below elbow amputation.
Technical	1 or 2 skis, 1 or 2 poles or outriggers Upper and lower limb prosthesis or orthosis must comply with the World Para Alpine Skiing Equipment Rule Book	
LW 9-2		
Muscle power Impairment	Lower limb	Total score of 30 or less (normal = 40) in one leg on the Oxford Scale
	Upper Limb	Equivalent activity limitation to that of either an Athlete with unilateral above elbow, or below elbow amputation.
Limb Deficiency	Lower limb	At minimum unilateral through ankle amputation (Symes amputation) or Impairments that cause a similar loss of limb
	Upper Limb	Equivalent activity limitation to that of either an Athlete with unilateral above elbow, or below elbow amputation.
Hypertonia	Lower	May present with Athetosis or Ataxia

Ataxia Athetosis (hemiplegic involvement)	limb	<p>Will present with Babinski, Clonus and/or Brisk/Different reflexes</p> <p>Spasticity = grade 2-1 on impaired side</p> <p>Ambulant without assistive devices, but will present with a limp.</p> <p>Single leg stance on impaired side greater than 3 sec.</p> <p>Able to hop on impaired side, but difficulty remaining on one spot</p> <p>Side step towards impaired side more laboured than intact side.</p> <p>Able to heel walk, approx. 2m</p>
	Upper limb	<p>Spasticity = grade 2-1 on impaired side</p> <p>Impairment noted on upper limb co-ordination tests compared to non-affected side.</p> <p>Equivalent activity limitation to either above or below elbow amputation</p>
Technical	<p>2 skis, 1 or 2 poles or outriggers</p> <p>Upper and lower limb prosthesis or orthosis must comply with the World Para Alpine Skiing Equipment Rule Book.</p>	

Sitting Sport Classes LW 10 to LW 12

LW10	Minimal criteria
LW10-1	
Muscle power Impairment	Absent activity of upper and lower abdominals and spinal extensors; score of 0 (zero) on the Oxford scale
Hypertonia Ataxia	Neurological Impairment presenting with trunk Impairment as described above

Athetosis	
Functional presentation	No active sitting balance Functional Bench Test Score 0-4
Technical	Sit ski and 2 outriggers
LW10-2	
Muscle power Impairment	Activity of upper abdominals and spinal extensors equaling a score of 1 (one) or greater on the Oxford scale Absent activity of lower abdominals and spinal extensors; score of 0 (zero) on the Oxford scale
Hypertonia Ataxia Athetosis	Neurological Impairment presenting with trunk Impairment as described above
Functional presentation	Minimal active sitting balance Functional Bench Test Score 4-8
Technical	Sit ski and 2 outriggers
LW11	Minimal criteria
Muscle power Impairment	Full activity of upper abdominals and spinal extensors; score of 4 (four) or greater on the Oxford scale Partial or full activity of lower abdominals and spinal extensors; score of 1 (one) or greater on the Oxford scale No muscle power in flexion, extension, abduction and adduction at both hips
Hypertonia Ataxia Athetosis	Neurological Impairment resulting in muscle power Impairment as described above Diplegia with functional trunk Impairment

Functional presentation	Fair active sitting balance Functional Bench Test Score 9-15
Technical	Sit ski and 2 outriggers
LW12	Minimal criteria
LW12-1	
Muscle power Impairment	Full activity of upper abdominals and spinal extensors ;score of 4 (four) or greater on the Oxford scale Partial or full activity of lower abdominals and spinal extensors; score of 1(one) or greater on the Oxford scale A score of 10 or less around one hip (normal = 20) <u>or</u> a score of 30 or less across both hips (normal = 40)
Limb loss/deficiency Impairment	Unilateral hip disarticulation/congenital absence or dysmelia or amputation of lower limbs with muscle power loss as above
Hypertonia Ataxia Athetosis	Neurological Impairment or diplegia presenting with muscle power Impairment as described
Functional presentation	Functional Bench Test Score = 16-18 Good sitting balance
Technical	Sit ski and 2 outriggers
LW12-2	
Muscle power Impairment	Total score of 30 or less (normal = 40) in one leg on the Oxford Scale
Limb loss/deficiency Impairment	Unilateral through ankle amputation Unilateral Limb Deficiency, with residual limb length equivalent to a through ankle amputation

Hypertonia Ataxia Athetosis	Neurological Impairment or diplegia presenting with muscle power Impairment as described
Functional presentation	Functional Bench Test 16-18
Technical	Sit ski and 2 outriggers

Appendix Two

Athletes with Vision Impairment

1 Eligible Impairment Types

Eligible Impairment	Examples of Health Conditions
<p>Vision Impairment</p> <p>Athletes with Vision Impairment have reduced or no vision caused by damage to the eye structure, optical nerves or optical pathways, or visual cortex of the brain.</p>	<p>Examples of an Underlying Health Condition that can lead to Vision Impairment include retinitis pigmentosa and diabetic retinopathy.</p>

2 Minimum Impairment Criteria

Minimum Impairment Criteria for Athletes with a Vision Impairment have been set based on the Athlete's corrected vision. (The difference in approach for Athletes with Vision Impairment must be seen within the historical context of Classification for these Athletes, which is an assessment with 'best correction' as used in the context of medical diagnostics for visual acuity.)

2.1 To be eligible to compete in Sport Classes B1-B3 in World Para Alpine Skiing, the Athlete must meet both of the criteria below:

2.1.1 The Athlete must have at least one of the following Impairments:

- Impairment of the eye structure;
- Impairment of the optical nerve/optic pathways;
- Impairment of the visual cortex.

2.1.2 The **Athlete's** Vision Impairment must result in a visual acuity of less than or equal to LogMAR 1.0 or a visual field restricted to less than 40 degrees diameter.

2.2 It is the responsibility of the Athlete and NPC to provide sufficient evidence of the **Athlete's** Vision Impairment. This must be done by way of submitting medical diagnostic information completed by an ophthalmologist as described in Article 7.5 of these Rules.

- 2.3 The medical diagnostic information must comprise the completed Medical Diagnostics Form (available on the World Para Alpine Skiing website) and additional medical documentation as indicated on the Medical Diagnostics Form. Failure to present with complete medical diagnostic information may lead to Athlete Evaluation being suspended in accordance with Article 10 of these Rules.
- 2.4 Medical Diagnostic Information must be typewritten and submitted in English and may not be older than 12 months prior to the date of Evaluation Session.

3 Assessment Methodology

- 3.1 All Athlete Evaluation and Sport Class allocation must be based on the assessment of visual acuity in the eye with better visual acuity when wearing the best optical correction.
- 3.2 Depending on an **Athlete's** visual acuity, visual acuity is tested using the LogMAR chart for distance visual acuity testing with Illiterate "E" and/or the Berkeley Rudimentary Vision Test.
- 3.3 Athletes who compete using any corrective devices (e.g. glasses, lenses) must attend classification with these devices and their prescription.
- 3.4 An Athlete found to be using corrective devices during Competition that were not declared during Evaluation Session may be subject to further investigation of Intentional Misrepresentation (see Article 32).
- 3.5 Athletes must declare any change in their optical correction to World Para Alpine Skiing before any Competition. If the Athlete has a Sport Class Status Review with **Fixed Review Date or Confirmed, the Athlete's** Sport Class Status will be changed to Review. The Athlete will then undergo Athlete Evaluation prior to the next Competition under the provisions of these Rules. Failure to do so may result in an investigation of Intentional Misrepresentation (see Article 32).
- 3.6 Any Athlete Support Personnel accompanying the Athlete during the Evaluation Session must remain out of sight of the visual acuity charts during assessment.
- 3.7 Under the current provisions set out in this Appendix, Observation in Competition does not apply to Athletes with Vision Impairment.

- 3.8 World Para Alpine Skiing will inform the local organising committee of the equipment and room requirements for the assessment of Athletes with Vision Impairment after the Classification Panels have been appointed. It is the local organising committee's responsibility to provide all equipment required by World Para Alpine Skiing.
- 3.9 Failure to provide all equipment required by World Para Alpine Skiing may result in the classification decisions not being accepted by World Para Alpine Skiing.

4 Assessment Criteria for the Allocation of a Sport Class and the Designation of Sport Class Status

4.1 Sport Class B1

- 4.1.1 Visual acuity is poorer than LogMAR 2.60.

4.2 Sport Class B2

- 4.2.1 Visual acuity ranges from LogMAR 1.50 to 2.60 (inclusive), and/or
- 4.2.2 the visual field is constricted to a radius of less than 10 degrees diameter.

4.3 Sport Class B3

- 4.3.1 Visual acuity ranges from LogMAR 1.40 to 1 (inclusive), and/or
- 4.3.2 the visual field is constricted to a radius of less than 40 degrees diameter.

Appendix Three

1 Non-Eligible Impairment Types for all Athletes

Examples of Non-Eligible Impairments include, but are not limited to the following:

- Pain;
- Hearing Impairment;
- Low muscle tone;
- Hypermobility of joints;
- Joint instability, such as unstable shoulder joint, recurrent dislocation of a joint;
- Impaired muscle endurance;
- Impaired motor reflex functions;
- Impaired cardiovascular functions;
- Impaired respiratory functions;
- Impairment metabolic functions;
- Tics and mannerisms, stereotypes and motor perseveration;
- Short Stature; and
- Intellectual Impairment.

2 Health Conditions that are not Underlying Health Conditions for all Athletes

A number of Health Conditions do not lead to an Eligible Impairment and are not Underlying Health Conditions. An Athlete who has a Health Condition (including, but not limited to, one of the Health Conditions listed in the above Appendix One and Appendix Two) but who does not have an Underlying Health Condition will not be eligible to compete in Para sport.

Health Conditions that primarily cause pain; primarily cause fatigue; primarily cause joint hypermobility or hypotonia; or are primarily psychological or psychosomatic in nature do *not* lead to an Eligible Impairment.

Examples of Health Conditions that primarily cause pain include myofascial *pain*-dysfunction syndrome, fibromyalgia or complex regional pain syndrome.

An example of a Health Condition that primarily causes fatigue is chronic fatigue syndrome.

An example of a Health Condition that primarily causes hypermobility or hypotonia is Ehlers-Danlos syndrome.

Examples of Health Conditions that are primarily psychological or psychosomatic in nature include conversion disorders or post-traumatic stress disorder.
