ACTIVITIES IN DETAIL

ACTIVITY ONE: PRESENTATION 30'

Show the PowerPoint presentation Preparation, part I.

ACTIVITY TWO: GROUP DISCUSSION 20'

This activity is closely linked to those carried out on the previous day in which participants identified IDPs' protection issues and corresponding legal provisions in the Kampala Convention and Guiding Principles. Select four main protection issues and divide the participants into four or five multi-functional groups.

Assign each group a protection issue and ask them to analyse it by considering the relevant national legislation.

Example:

GROUP A Basic necessities of life	GROUP B Prohibition of arbitrary displacement
GROUP C IDPs' participation	GROUP D Gender-based violence

Ask each group to answer the following question:

- 1. Which bodies of law, policy and regulations would you review in order to ensure that each of the issues you have been assigned is duly regulated in a national instrument on IDPs?**

To ensure that all national norms are covered, from constitution to decrees and regulations, participants should present their findings on a flipchart on which a pyramid has previously been drawn.

Ask participants to organise their ideas on the pyramid and identify one person to report in plenary.

ACTIVITY THREE: PLENARY DISCUSSION

10'

The rapporteurs take turns in presenting the outcomes of their group discussions.
