This includes €37 million to Lebanon and €20 million to Jordan in 2015. The EU, along with its Member States, is one of the leaders of the international humanitarian response to the Syria crisis, having mobilized over €3.25 billion in assistance.
- United Kingdom International Development Secretary Justine Greening announced an additional £100 million assistance during her visit to Zaatari refugee camp with Prince of Wales on 7 February. The Regional Refugee and Resilience Plan 2015-2016

The Strategic Response Plan (SRP) for Syria and the Regional Refugee and Resilience Plan (3RP) in response to the Syria crisis were jointly launched in Berlin on 18 December 2014.

The 3RP is a country-driven, regionally coherent plan to address refugee protection and humanitarian needs whilst building the resilience of vulnerable people and impacted communities and strengthening the capacity of national delivery systems in the five most affected countries neighbouring Syria.

The 3RP integrates and is aligned with existing and emerging national plans, including the Jordan Response Plan 2015 to the Syria Crisis, the Lebanon Crisis Response Plan, the Iraq SRP, and country responses in Turkey and Egypt.

Requiring US\$5.5 billion in funding to directly support almost six million people, the 3RP is based on planning projections of up to 4.27 million refugees in countries neighbouring Syria by the end of 2015 and help to over a million vulnerable people in host communities. Beyond those receiving direct support, an additional 20.6 million people in impacted local communities will benefit from upgrades to local infrastructure and services in areas such as health, education, water and sewage, training and capacity building of service providers, and policy and administrative support to local and national authorities.
