II. Budgets and funding for 2019

Total budget

3. In October 2017, at its sixty-eighth session, the Executive Committee approved an original annual budget of \$7,352.3 million for 2019.² In October 2018, at its sixty-ninth session, the Executive Committee approved the revised annual budget of \$8,591.1 million for 2019 based on updated assessed needs.³ The final 2019 budget of \$8,635.9 million represents the sum of the approved revised budget of \$8,591.1 million and the final supplementary budgets of \$107.4 million established by the High Commissioner in the course of 2019 in accordance with article 7.5 of the UNHCR financial rules and regulations, and taking into account a budget reduction of \$62.6 million.⁴ Details on the revised and final 2019 budget are provided in annex I.

Supplementary budgets

4. At the seventy-sixth meeting of the Standing Committee in September 2019 UNHCR reported two supplementary budgets established in 2019 totalling \$107.4 million as at 31 July 2019. This amount has remained unchanged since. An overview of supplementary budgets by situation is provided in table II.1 below. A breakdown of the 2019 supplementary budgets by situation, region and pillar is also shown in annex IV.

Budget reduction

5. At the same Standing Committee meeting in September, the 2019 budget was reduced by \$62.6 million following the downwards revision of population planning figures in Uganda for refugees from Burundi, the Democratic Republic of the Congo and South Sudan.

Pillar distribution

6. The pillar distribution of the final annual budget for 2019 is outlined in table II.2 below.

Total	8,635.9	100%

Preliminary year-end financial analysis

7. The final annual budget for 2019 of \$8,635.9 million comprised programmed activities of \$8,158.9 million; an operational reserve of \$459.4 million; the “new or additional activities – mandate-related” reserve of \$5.6 million; and \$12.0 million for Junior Professional Officers, as shown in annex I.

8. The preliminary financial analysis for 2019 is described below and summarized in table II.3.

9. The total funds available for the period ending 31 December 2019 stood at \$4,781.8 million. This amount comprised:

- \$484.1 million carried over from the budget year 2018;
- \$4,171.2 million in voluntary contributions recorded in 2019, plus \$78.4 million recorded in prior years for activities with implementation in 2019 and minus \$98.4 million recorded in 2019 for activities with implementation in future years, as shown in annex V;
- \$43.3 million allotted from the United Nations regular budget;
- \$103.2 million in other funds available and adjustments, mainly prior-year cancellations and adjustments, and miscellaneous income.

10. When compared to the \$4,710.3 million of funds available in 2018, the provisional funds available in 2019 increased by approximately \$71.5 million, or slightly less than 2 per cent.

11. Comparing the total funds available of \$4,781.8 million for 2019 with the total assessed needs of \$8,635.9 million for the same year, the funding gap amounted to \$3,854.1 million, or 45 per cent of the total requirements.

12. Pending the closure of accounts for 2019, expenditure amounted to \$4,416.6 million. When compared to the \$4,226.3 million in expenditure in 2018, expenditure in 2019 increased by \$190.3 million, or approximately 4.5 per cent. This is significantly higher than the increase in funds available. This expenditure level would be a record high for UNHCR.

13. On this basis, the carry-over into 2020 is projected to be \$365.3 million, which includes funds earmarked for specific operations.

III. Overview for 2020-2021

Total requirements

14. The original annual budgets for 2020 and 2021, as approved by the Executive Committee at its seventieth plenary session in October 2019, were \$8,667.7 million and \$8,615.8 million respectively.⁵ As no supplementary budgets have been established as at 31 January 2020, the current annual budgets for 2020 and 2021 remain unchanged. An overview is available in annex VIII.

Pillar distribution

15. The pillar distribution of the current annual budgets for 2020 and 2021 incorporating internal transfers and adjustments made by the High Commissioner in accordance with financial rule 7.4, is outlined in table III.1 below. Further details are provided in annex VIII.

16. Donor response at the Ad hoc Committee of the General Assembly for the Announcement of Voluntary Contributions to the High Commissioner's Programme (Pledging Conference), held in December 2019, confirmed a sustained commitment to supporting the vital programmes of UNHCR. Initial pledges for 2020 reached \$883.2 million. Although this amount does not fully cover the assessed needs, it enables UNHCR to plan and continue operations that provide life-saving assistance and protection without interruption. Donors are encouraged to continue to respond generously to the High Commissioner's appeal for resources to meet the requirements for 2020, including through unearmarked funds.

Notes

The data are generally provided by governments, based on their own definitions and methods of data collection.

A dash ("-") indicates that the value is zero, not available or not applicable. All data are provisional and subject to change.

¹ Country or territory of asylum or residence.

² Persons recognized as refugees under the 1951 UN Convention/1967 Protocol, the 1969 OAU Convention, in accordance with the UNHCR Statute, persons granted a complementary form of protection and those granted temporary protection. In the absence of Government figures, UNHCR has estimated the refugee population in many industrialized countries based on 10 years of individual asylum-seeker recognition.

³ This category is descriptive in nature and includes groups of persons who are outside their country or territory of origin and who face protection risks similar to those of refugees, but for whom refugee status has, for practical or other reasons, not been ascertained.

⁴ Persons whose application for asylum or refugee status is pending at any stage in the asylum procedure. Where cases have been reported with an average number of persons, the number of cases reported has been multiplied by this average. This calculation has only been done to total numbers of asylum-seekers by country of asylum.

⁵ Refugees who have returned to their place of origin during the first half of 2019. Source: country of origin and asylum.

⁶ Persons who are displaced within their country and to whom UNHCR extends protection and/or assistance. It also includes people in IDP-like situations. This category is descriptive in nature and includes groups of persons who are inside their country of nationality or habitual residence and who face protection risks similar to those of IDPs but who, for practical or other reasons, could not be reported as such.

⁷ IDPs of concern to UNHCR who have returned to their place of origin during the first half of 2019.

⁸ Refers to persons who are not considered as nationals by any State under the operation of its law. This category refers to persons who fall under the agency's statelessness mandate because they are stateless according to this international definition, but data from some countries may also include persons with undetermined nationality.

⁹ Refers to individuals who do not necessarily fall directly into any of the other groups but to whom UNHCR may extend its protection and/or assistance services. These activities might be based on humanitarian or other special grounds.

¹⁰ Venezuelans displaced abroad refers to persons who have left Venezuela as a result of the deteriorating circumstances inside the country, but who have not applied for asylum in the country in which they are present. As indicated in the Guidance Note on International Protection Considerations for Venezuelans (May 2019), UNHCR considers that the majority of Venezuelan nationals or stateless persons who were habitually resident in Venezuela, are in need of international protection under the criteria contained in the Cartagena Declaration on the basis of threats to their lives, security or freedom resulting from events that are seriously disturbing public order in Venezuela. In line with the Secretary General's Guidance, UNHCR and IOM have been coordinating closely to respond to the outflow of Venezuelans.

¹¹ The statelessness figure refers to a survey conducted in late 2017.

¹² Australia's figures for asylum-seekers are based on the number of applications lodged for protection visas.

¹³ The figure reported relates to stateless persons who are also refugees from Myanmar, mainly from Rakhine State. This figure exceptionally includes 911,660 stateless refugees who are also counted in the column under "Refugees." UNHCR's statistical reporting currently follows a methodology that reports on one legal status as a person of concern only. However, due to the extraordinary size of the displaced stateless population in Bangladesh, UNHCR considered it important to reflect, on an exceptional basis, the dual status that this population group possesses as both refugees and stateless persons as to do otherwise might convey the mistaken impression that the overall number of stateless persons has declined significantly. This approach will not be replicated in the database and in the Excel version of this table and, therefore, figures may differ.

¹⁴ All data relate to end of 2018

¹⁵ The 321,500 Vietnamese refugees are well integrated and in practice receive protection from the Government of China.

¹⁶ Figure of others of concern is provided by the Government of Colombia.

¹⁷ The statelessness figure is based on a Government estimate of individuals who themselves or whose parents or grandparents migrated to Côte d'Ivoire before or just after independence and who did not establish their nationality at independence or before the nationality law changed in 1972. The estimate is derived in part from cases denied voter registration in 2010 because electoral authorities could not determine their nationality at the time. The estimation is adjusted to reflect the number of persons who acquired nationality through the special 'acquisition of nationality by declaration' procedure until mid of 2019. The estimate does not include individuals of unknown parentage who were abandoned as children and who are not considered as nationals under Ivorian law.

¹⁸ UNHCR's assistance activities for IDPs in Cyprus ended in 1999. Visit the website of the Internal Displacement Monitoring Centre (IDMC) for further information.

¹⁹ UNHCR is currently working with the authorities and other actors to determine the size of the population that found an effective nationality solution under Law 169-14. Since the adoption of Law 169-14 in May 2014, important steps have been taken by the Dominican Republic to confirm Dominican nationality through the validation of birth certificates of individuals born in the country to two migrant parents. Thousands of individuals also are believed to have been issued their Dominican civil documents in 2017, 2018 and first half of 2019, although an official figure was not available for this report.

²⁰ Almost all people recorded as being stateless have permanent residence and enjoy more rights than foreseen in the 1954 Convention relating to the Status of Stateless Persons.

²¹ Stateless figure refers to individuals without a nationality who were born in the Dominican Republic prior to January 2010 and who were identified by UNHCR in Haiti since June 2015.

²² Pending a more accurate study into stateless in Iraq, the estimate of stateless persons in Iraq has been adjusted to reflect the reduction of statelessness in line with Law 26 of 2006, which allows stateless persons to apply for nationality in certain circumstances.

²³ Figures are UNHCR estimates.

²⁴ Includes 34,500 Iraqi refugees registered with UNHCR in Jordan. The Government estimated the number of Iraqis at 400,000 individuals at the end of March 2015. This includes refugees and other categories of Iraqis.

²⁵ With respect to persons under UNHCR's statelessness mandate, this figure includes persons of concern covered by two separate Latvian laws. 174 persons fall under the Republic of Latvia's Law on Stateless Persons on 17 February 2004. 224,670 of the persons fall under Latvia's 25 April 1995 Law on the Status of those Former USSR Citizens who are not Citizens of Latvia or Any Other State ("Non-citizens"). In the specific context of Latvia, the "Non-citizens" enjoy the right to reside in Latvia ex lege and a set of rights and obligations generally beyond the rights prescribed by the 1954 Convention relating to the Status of Stateless Persons, including protection from removal, and as such the "Non-citizens" may currently be considered persons to whom the Convention does not apply in accordance with Article 1.2(ii).

²⁶ Updated figure is based on a registration and community legal assistance programme undertaken in West Malaysia by a local NGO with technical support from UNHCR, which began in 2014. During 2017, 906 persons of those registered acquired Malaysian nationality.

²⁷ The figure of persons of concern under the statelessness mandate relates to stateless persons in Rakhine state and persons of undetermined nationality residing in other states in Myanmar. The figure of stateless persons in Rakhine state has been estimated on the basis of the 2014 census report and 2017 General Administration Department (GAD) of Ministry of Home Affairs (MoHA) data. This figure exceptionally includes stateless IDPs who are also of concern under the statelessness mandate. This approach will not be replicated in the database and in the Excel version of this table and, therefore, figures may differ.

²⁸ Various studies estimate that a large number of individuals lack citizenship certificates in Nepal. While these individuals are not all necessarily stateless, UNHCR has been working closely with the Government of Nepal and partners to address this situation.

²⁹ The statelessness figure refers to the census figure from 2010 adjusted to reflect the number of stateless persons who acquired nationality from 2011 to mid-2019.

³⁰ All data relate to end of 2018

³¹ Refugee figure for Iraqis was a government estimate and UNHCR has registered and was assisting 13,800 Iraqis at mid-2019. Figure for stateless persons was an estimate.

³² Refugee figure is a Government estimate and pertains only to Syrian refugees.

³³ IDP figure in Ukraine includes 700,000 conflict-affected persons.

³⁴ Figures for asylum-seekers in the United States of America pertain to mid-2019 for claims reported by the Department of Homeland Security and end-2018 for claims reported by the Executive Office for Immigration Review.

³⁵ A study is being pursued to provide a revised estimate of statelessness figure.

Draft decision on budgets and funding for 2019 and 2020-2021

The Standing Committee,

Recalling the Executive Committee's decisions, at its sixty-eighth and sixty-ninth sessions on administrative, financial and programme matters (A/AC.96/1176, para. 14 and A/AC.96/1187, para. 13), as well as its discussions under the programme budgets and funding item at the seventy-sixth meeting of the Standing Committee in September 2019,

Reaffirming the importance of responsibility-sharing in solidarity with countries hosting refugees,

Recalls that the Executive Committee, at its sixty-eighth session, approved original programmes and budgets for regional programmes, global programmes and headquarters under UNHCR's 2018-2019 biennial programme budget, amounting to \$7,508.4 million and \$7,352.3 million for 2018 and 2019, respectively,

Recalls that the Executive Committee, at its sixty-ninth session, approved revised programmes and budgets for regional programmes, global programmes and headquarters under UNHCR's 2018-2019 biennial programme budget (revised), amounting to \$8,275.3 million and \$8,591.1 million for 2018 and 2019 respectively,

Notes that the final 2019 supplementary budgets amounted to \$107.4 million for programmes benefiting UNHCR's global refugee programme, and projects for internally displaced persons,
