This map illustrates satellite-detected areas of a refugee settlement in Sido village, southern Chad as seen by the WorldView-1 satellite on 29 January 2014. Fleeing outbreaks of violence in the Central African Republic, refugees have established a settlement in a portion of Sido village. Note that the camp occupied areas include 543 improvised shelters and 200 tent shelters approximately. This is a preliminary analysis and has not yet been validated in the field. Please send ground feedback to UNITAR / UNOSAT.
