

Operational Presence

Operational Capacity

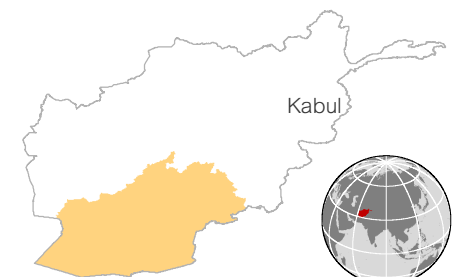

Operational Presence: Organisations that are physically present in the district and are delivering a humanitarian service or implementing a humanitarian project during the reporting period.

Operational Capacity: Operational capacity refers to the potential ability of an organisation to deliver humanitarian services if needed. In addition to organisations currently delivering services, organisations that have the ability to access and deliver services are considered.

If a large organisation or UN agency is implementing a project through an implementing partner (independent humanitarian actors only, NOT Government and NOT Private Contractors), the implementing partner that is physically accessing and delivering the service in the district is considered. The information presented in this map is a "Work in Progress".

Data Sources: AGCHO, 3W information was collected by OCHA regional field offices and Humanitarian Regional Team (HRT) mechanism in September 2015.
