However, the year of birth shall be shown.

It must always be possible to establish the identity of the holder on the basis of the document.

### Alien's passport

#### Section 12

If an alien has no document that is valid as a passport and is not in a position to procure such a document, the Swedish Migration Board may issue an alien's passport to him or her to serve as a passport. The Board may also issue an alien's passport in other cases, if there are special grounds for doing so.

#### Section 13

An alien's passport shall be issued with a period of validity of not more than five years and a note may be made in it, either when it is issued or later, restricting its area of validity.  
A note may be made in an alien's passport, when it is issued, that the holder's identity has not been confirmed.

#### Section 14

If an alien has an immediate need to travel to or from Sweden, the Swedish Migration Board may issue an emergency alien's passport to him or her.

Section 14a An alien's passport may be issued to a person who is under eighteen years of age if the child's custodian has given his or her consent. If there are exceptional grounds for doing so, a passport may be issued without such consent.

A passport that is only valid for direct travel to Sweden may be issued without the consent of a custodian to a child who has a residence permit to settle in Sweden, if the child

1. is in a situation in which there is a risk of harm to his or her health or development or
2. there are some other special grounds.

#### Section 15

An application for an alien's passport shall be submitted to the Swedish Migration Board or, if the alien is not in Sweden, to a Swedish embassy or Swedish consulate.

#### Section 15a

If a case concerns a question of whether to issue an alien's passport to a child under eighteen years of age without a custodian's consent, the Swedish Migration Board shall obtain an opinion from a municipal committee that performs duties within the social services. An opinion shall be obtained from the municipality where the child is registered or, if the child is not registered in the population register, from the municipality to which the child has strongest ties.

#### Section 15b

A case that concerns a question of issuing a passport to a child under eighteen years of age without a custodian's consent, pursuant to Section 14a, second paragraph, shall be processed promptly.

#### Travel document for an alien who is not a national of the issuing country

### Collective passport

## Section 19

A joint travel document for several aliens (a collective passport) may be accepted as a passport if the aliens are to travel through the country in a body or stay here for a relatively short time on common business. The collective passport may only refer to nationals of the country whose authority has issued the passport. It shall include at least ten and at most fifty persons. A person who is included in the passport shall have an identity document that is issued by a competent authority in the country of origin.

With regard to collective passports that have been issued in accordance with the European Agreement on Travel by Young Persons on Collective Passports of 16 December 1961 (Swedish Treaty Series 1968:16) and that have been issued by an authority in a country that has acceded to the Agreement and applies it in relation to Sweden, the Agreement applies instead of the first paragraph.

If a collective passport refers to aliens who are not obliged to have a visa, the passport shall have been approved by a Swedish head of embassy or consul who is authorised to issue visas or by the police authority in a locality where there are passport control facilities for entry into Sweden. Such approval is not, however, required if the passport has been approved by a competent authority in Denmark, Finland, Iceland or Norway for entry into that country.  
Diplomatic staff and others

## Section 20

The provisions on passport requirements in Chapter 2 of the Aliens Act (2005:716) and the provisions of this Chapter also apply where relevant to diplomatic officials and career consular officials employed by foreign countries in Sweden and to their families and servants. #### Section 2

An alien who is a family member as defined by Chapter 3a, Section 2 of the Aliens Act (2005:716) and who is not an EEA national retains his or her right of residence if the person from whom he or she has derived the right of residence dies, provided the family member has then been in Sweden as a family member for at least one year, and

2. has adequate assets to support himself or herself and family members and has comprehensive health insurance that is valid in Sweden or

Ordinance (2006:262).

### Obtaining a right of permanent residence in certain cases

#### Section 5

An EEA national who is a worker or a self-employed person and who stops working in Sweden shall have a right of permanent residence, even if he or she has not stayed here for a continuous period of five years, if he or she

1. when he or she stops working has worked in Sweden during the twelve preceding months and has stayed in Sweden continuously for at least three years, and has passed the age of 60 or, where a worker is concerned, has taken early retirement following the termination of his or her employment,

If a situation referred to in the first paragraph, point 1 or 2, occurs after at least three years of continuous professional activity and stay in Sweden, professionally active periods in the other state shall be counted as if they had been spent in Sweden.

Periods of involuntary unemployment that have been registered by the Swedish Public Employment Service or periods of involuntary interruption of work or absence from or

cessation of professional activity that are due to sickness or an accident, shall be regarded as professionally active periods.

The conditions in the first paragraph, point 1, concerning the duration of the stay and activity and the condition in the first paragraph, point 2, concerning the duration of the stay, shall not apply if the spouse, cohabiting partner or registered partner of the worker or self-employed person is a Swedish national.

If an EEA national has a right of permanent residence under Section 5, his or her family members as defined in Chapter 3a, Section 2 of the Aliens Act (2005:716) shall also have a right of permanent residence.

If the EEA national dies while still active as a worker or self-employed person but before he or she has a right of permanent residence, the family member who has been staying here with the worker or self-employed person shall have a right of permanent residence, if

1. the worker or self-employed person has been in Sweden for more than two consecutive years at the time of death or

#### Section 7a

A residence card under Section 7, first paragraph, point 3 shall be valid for five years from the date of issue or for the estimated period of stay of the citizen of the Union from whom the right of residence is derived if this does not exceed five years.

If the holder of such a residence card as is referred to in the first paragraph spends more than six months per year outside Sweden, the residence card loses its validity.

However, the validity is not affected by the holder spending a longer period of time outside Sweden if

- the stay does not exceed twelve consecutive months and is caused by pregnancy and childbirth, serious illness, studies, vocational training, posting because of work or other special grounds, or
- the stay is caused by obligatory military service.

#### Section 7b
