

## Key figures

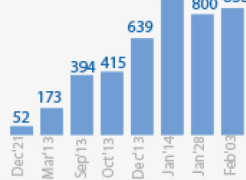

### # IDPs

= **838,000** IDPs

Out of Bangui = **424,906**

In Bangui = **413,094** IDPs in **66** camps

# IDP registered in CAR since Dec. 2012 (in thousands)

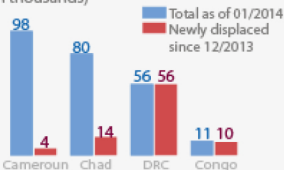

### # Refugees

**17,865** refugees in CAR\*

**245,868** CAR refugees in Neighboring Countries

# CAR refugees in Neighboring Countries (in thousands)

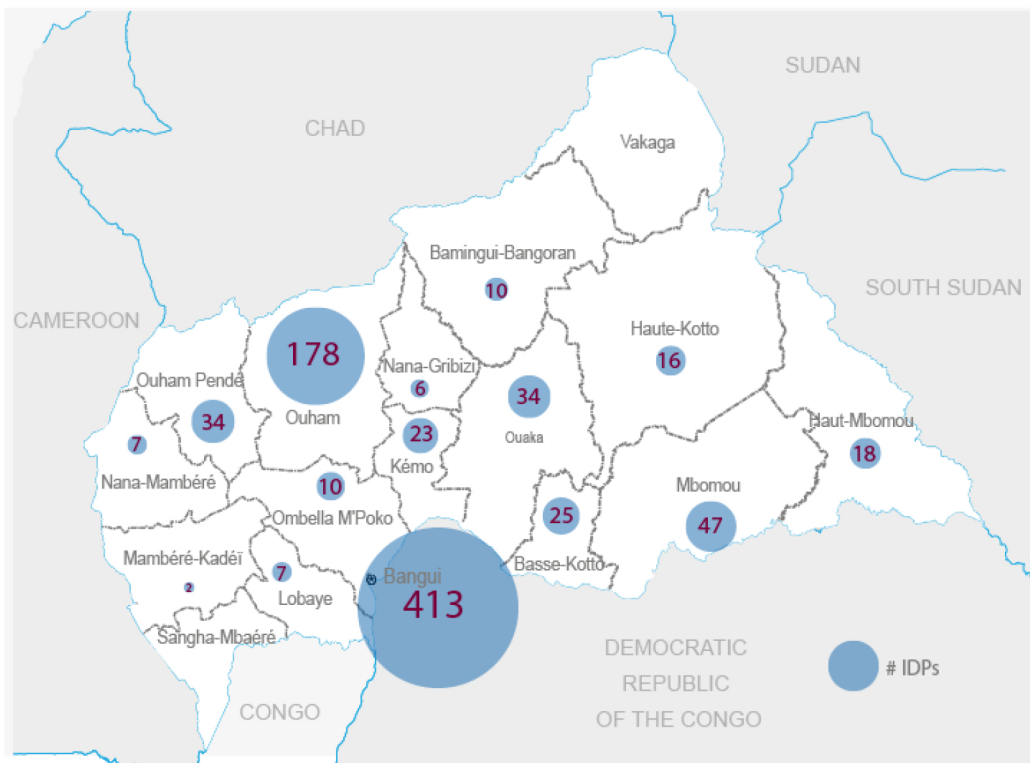

### # Evacuated people of other Nationality from CAR

= **31,169** evacuated

= 57,3%

= 42,7%

\* CAR= Central African Republic

## Critical needs in camps by sector

### Protection:

- Information on groups of people whose physical safety have been threatened by armed elements and mobs in north and south western CAR.
- Additional mediation and peaceful coexistence initiatives in hostile environment.
- The capacity to accurately identify, document, trace and reunify children who have been separated from their families is stretched due to the limited number of child protection responders, particularly in locations outside of Bangui.
- Coordinated GBV support at national level, and widely disseminate updated GBV referral pathways.

### WASH:

- The WASH situation in the vast majority of IDP sites does not meet required minimum standards.
- The MIRA results and health monitoring indicate an increasing number of diarrhea cases among displaced people.

### Health:

- Ensure delivery of free life saving health care to affected people in priority areas, including provision of essential medicines, laboratory supplies, safe blood and deployment of health workers.
- Prevent disease outbreak through immunization of vulnerable children and strengthening of early warning system and response in and out of Bangui.

### Food security:

- Food and cash contributions are needed to continue food distribution operations throughout the country.
- Security improvements are imperative to enable sufficient access to people in the provinces outside Bangui.
- Agricultural inputs are urgently required to assist crisis-hit farmers ahead of the upcoming planting season, beginning in March.
