

# Ukraine: Overview of population displacement (as of 1 September 2014)

**259,741 IDPs** excluding displacement in Crimea

NOTE: Displaced persons are returning to areas in eastern Ukraine where the Ukrainian Government has regained control. It is difficult to estimate their numbers at this stage.

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the United Nations. **Internal Displacement:** Due to the lack of a centralized system of registration, the real figure of IDPs is unknown and is likely to be higher, as local authorities and civil society register only those who approach them. Various organizations report that some displaced persons from the East are reluctant to apply to the authorities because they fear retribution, and moreover, see little benefit in identifying themselves as there is no special reception procedures established for them. [1] No information available for Luhansk. Figures reported to UNHCR by local government and NGOs (1 September 2014). **External displacement:** Figures reported to UNHCR by Government Asylum Authorities as of 2 July for Romania, 1 September for Republic of Moldova, 16 July for Hungary, 1 September for Poland, and reported by the Russian Federal Migration Service as of 30 August for the Russian Federation. [2] Overall figure includes the Russian Republic, Poland, Romania, Belarus, and Hungary. | Feedback: haythornthwaite@un.org | Document: ukr\_displacement\_unhcr\_20140002\_hybrid Creation date: 03/09/2014
