“The Security Council calls on the United Nations, with the support of the international community, to support the Government of Afghanistan’s National Priority Programmes covering the issues of security, governance, justice and economic and social development and to support the full implementation of mutual commitments made on these issues at international Conferences, as well as on continuing implementation of the National Drug Control Strategy, and requests that UNAMA, in an increasingly enabling function, assist the Government of Afghanistan on its way towards ensuring full Afghan leadership and ownership, as defined by the Kabul process.

“The Security Council reiterates its support for the Transition (Inteqal) process which will entail the assumption of full responsibility by Afghanistan’s institutions in the security sector, consistent with the London, Kabul, Bonn and Tokyo Conferences and the NATO Lisbon and Chicago Summits.

“The Security Council stresses the central and impartial role that the United Nations will continue to play in promoting peace and stability in Afghanistan by leading the efforts of the international community.

“The Security Council reiterates its concern about the security situation in Afghanistan, in particular the ongoing violent and terrorist activities by the Taliban, Al-Qaida and other violent and extremist groups, illegal armed groups, criminals and those involved in the production, trafficking or trade of illicit drugs, and the strong links between terrorism activities and illicit drugs, resulting in threats to the local population, including women, children, national security forces and international military and civilian personnel, including humanitarian and development workers.

“The Security Council notes with concern the existing links between international security, terrorism and transnational organized crime, money-laundering, trafficking in illicit drugs and illegal arms, and in this regard emphasizes the need to enhance coordination of efforts on national, subregional, regional and international levels in order to strengthen a global response to this serious challenge and in particular to close connections between international terrorism and illicit drugs. The Council welcomes the recent efforts carried out under the Russian Presidency in the Financial Action Task Force (FATF) on identification of the illicit financial flows linked to Afghan drug production and trafficking.
