Practices in targeting IDPs for Protection Monitoring and Inclusion of Assistance

July 2019

our offices cover the

KRI Region

camp and non-camp areas
as well as East Mosul Camps

IDPs WE REACHED in 2018

Through Protection Monitoring, Legal Assistance and Distribution

IDPs

40,678

Protection

IDPs

20,524

Legal

*IDP
Households*
20,000

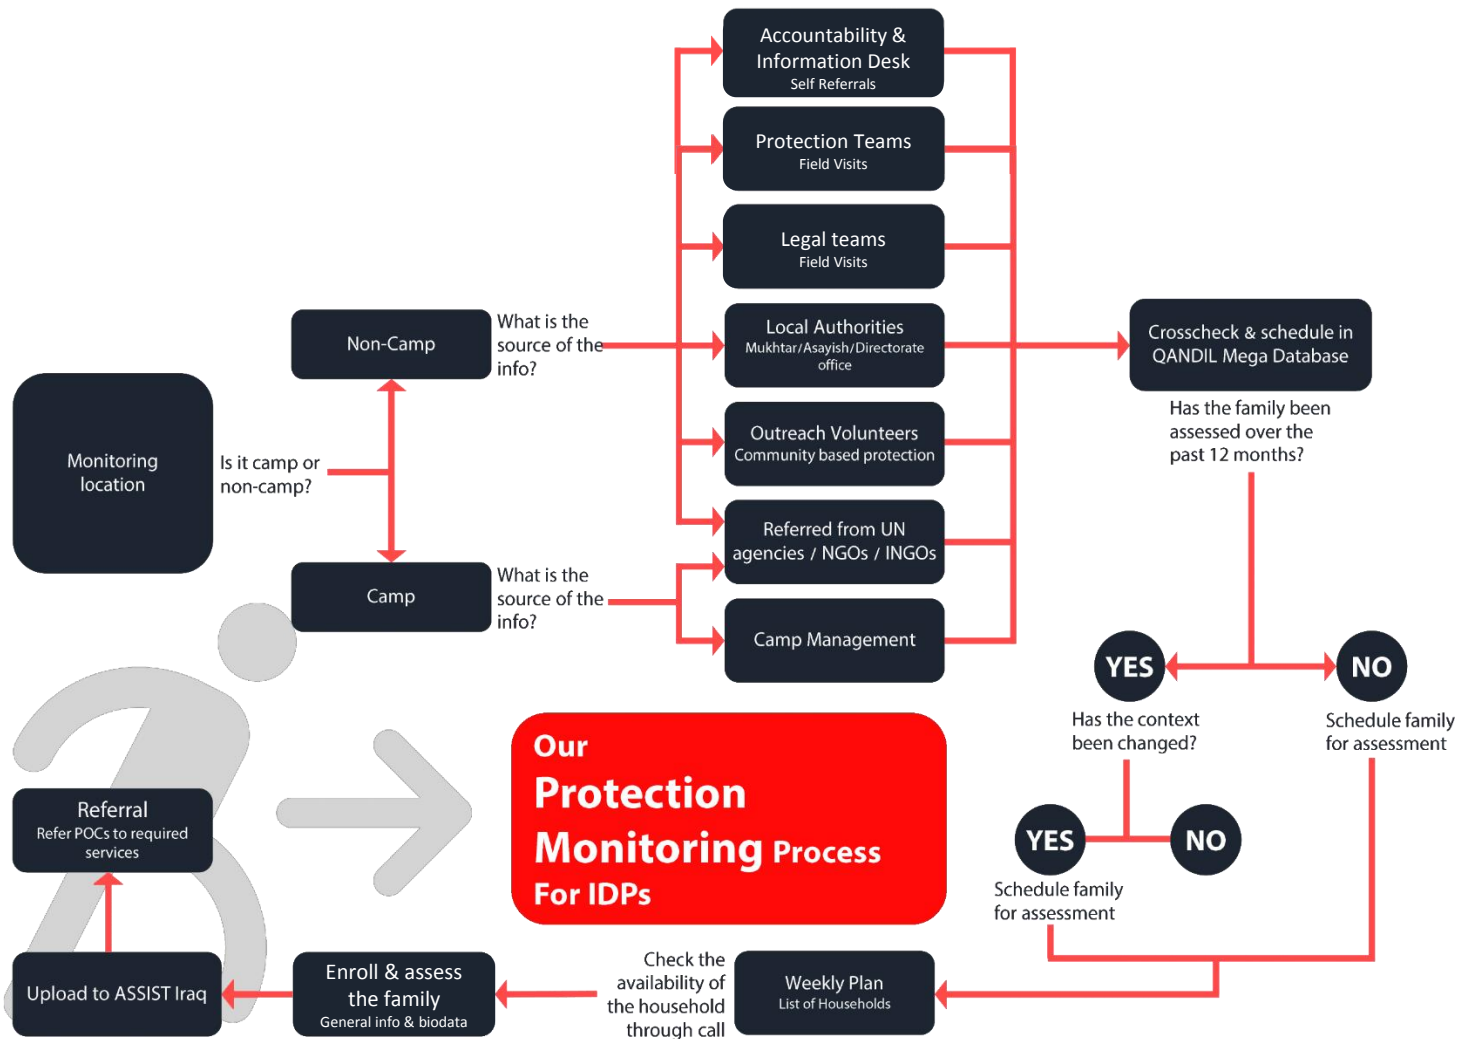

Distribution

TARGETING PROTECTION CASES

OUR DATA SOURCES

DATA COLLECTION TOOLS

ASSIST*

A Protection Monitoring Tool (**PMT**) utilized in the field in both urban areas and camps of Erbil and Mosul east camps by protection mobile teams to collect data using ODK tool. Data will be uploaded later to UNHCR's server.

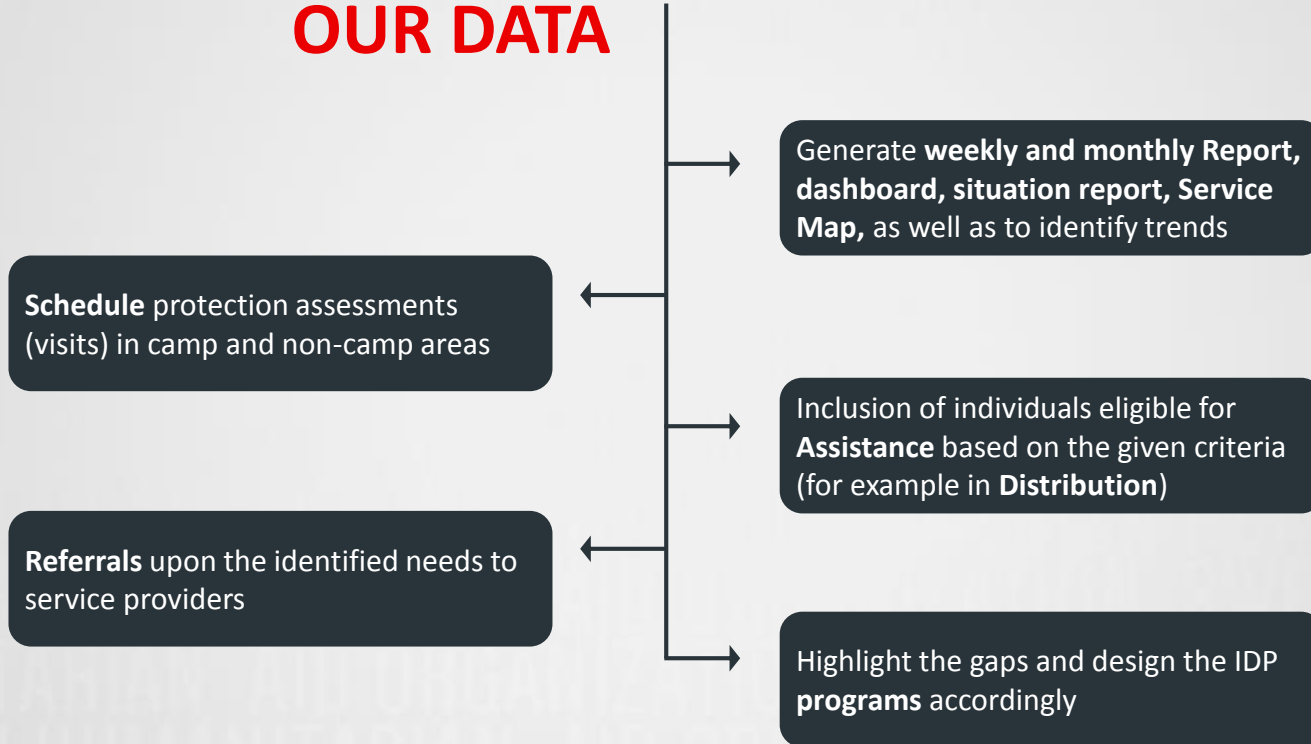

INFO DESK Form

Necessary information will be disseminated from the info desk connecting them to internal and external service providers by collecting general info using **KOBO** tool.

Referral Tracking Sheet

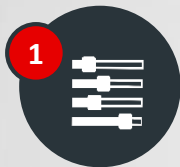

Referrals and feedbacks are inputted to Referrals Tracking Sheets on daily bases by protection and outreach teams.

WHAT WE DO WITH OUR DATA

KEY CHALLENGES WE FACE

in the sources and the processing of data

Different **standardized vulnerability criteria** among service providers for prioritizing cases on a national and sub-national level

Harmonize the selection criteria for provision of similar relief activities

Frequent movement of IDPs creates data gaps.

Development of self registration online portal, where IDPs can put their initial data through agencies, to be followed up by service providers

KEY CHALLENGES WE FACE

in the sources and the processing of data

Due to **security situation**, it is difficult to reach and access conflict areas

Establishment of security forum where NGOs and government can feed regular updates/ predictions. Upon which, regular activities can be re-planned

The **excessive needs** as compared to the available level of resources

Development of coordinated platform of protection workers to share and/or raise sufficient funds for IDPs

A GOOD PRACTICE EXAMPLE

MOI Pilot Project On Civil Documentation in IDP Camps

1

IDPs who fled from Mosul suffered the **lack of legal documents**, mainly missing Civil IDs and Nationality certificates

2

It was either **difficult, dangerous or costly** for them to travel to their places of origin in order to renew or issue new documents

3

Coordination and communication between UNHCR, the Federal Ministry of Interior (Mol) and the Qandil legal team to **overcome**

4

For better targeting and responding to the need, the legal team launched a **survey** and **assessment**, then prepared physical files for those IDPs

Around

6,000

Legal Documents
Approved, Issued
and Handed Out

Within

2

MONTHS

THANK YOU!
